BitRaser

Partners Inc, a MSP based in the UK Achieves Secure Data Erasure with BitRaser

Partners Inc is a UK based growing IT services company that provides both hardware and data solutions. They provide businesses with reliable new, used, and refurbished laptops, phones, and monitors. Beyond hardware, their team delivers tailored data analysis, consultation, and training designed to solve real business challenges. With a customer base that values reliability, the company sought a trusted partner to ensure secure and compliant data erasure across its IT asset resale operations.

Business Need

- **Speed & Efficiency:** Partners Inc needed a solution that could erase multiple batches of laptops quickly & efficiently; keeping projects on schedule and customers fully satisfied.

- **Compliance Assurance :** The company required audit reports to help achieve compliance requirements of their clients; be it GDPR, ADISA, or ISO 27001.

- **Reliability & Scale :** They needed a trusted data wiping solution that could deliver consistent results while supporting their growing operational demands.

Solution

BitRaser delivered a unique blend of speed, efficiency, and compliance that stood out for Partners Inc. The software enabled seamless erasure of bulk laptop batches while generating reliable, tamper-proof audit reports. With assured compliance to GDPR, ADISA, and ISO 27001, BitRaser proved to be the fast, scalable, and trustworthy solution they were seeking as a Managed Service Provider.

PARTNERS IN DATA

"We felt that BitRaser offered us a full, supportive data wiping solution which is easy to navigate.It gave us complete confidence that we had chosen the best solution for our needs."
