

**CASE STUDY**

## BitRaser Drive Eraser Ensures Secure and Efficient Data Wiping for Scrum Alliance

Scrum Alliance is a globally recognized certification body that offers a range of Scrum certifications, including Certified ScrumMaster and Certified Scrum Product Owner. With a mission to transform the world of work through agile practices, they empower professionals and organizations to embrace effective and collaborative project management methodologies.

### Business Need

Scrum Alliance approached BitRaser with the following needs:

- **Multi-Platform Support:** The data erasure software must be capable of securely wiping both Mac and PC devices, ensuring complete eradication of sensitive data.
- **Compliance Requirements:** Scrum Alliance needed a data wiping solution that met global erasure standards like NIST and provided fail-safe erasure to prevent data recovery.
- **Evidence and Validation:** Scrum Alliance needed proof of data destruction for audit trails.

### Solution

After careful evaluation and discussions with multiple vendors, Scrum Alliance selected BitRaser Drive Eraser as it fulfilled their specific needs and offered DoD / NIST-compliant data erasure capabilities for both Windows and Mac devices. BitRaser's ability to generate audit trails provided the required evidence of successful data wiping, giving Scrum the confidence they needed to meet compliance standards.

"BitRaser has proven to be a fast and efficient tool for properly performing secure wiping of drives and devices. It was compliant with DoD & NIST data erasure standard and gave us peace of mind with its certification."

Nolan, Scrum Alliance

### Client

✓ Scrum Alliance

### Business Need

- ✓ Erasing PCs and Mac
- ✓ Audit Trail for Compliance

## BitRaser Benefits

- **One-Stop Solution:** BitRaser Drive Wiping tool proved to be a one-stop solution for Scrum with cloud integration capability to wipe all kinds of drives and devices (PC/Mac) permanently; and store reports on the cloud console.
- **Enhanced Efficiency:** The software's fast and efficient data-wiping capabilities significantly enhanced the speed of the data erasure process, allowing Scrum to handle a large number of devices monthly.
- **Complete Data Erasure:** BitRaser ensured secure wiping of both Windows and Mac devices, leaving no sensitive information behind, mitigating the risk of potential data breaches.
- **Reliable Audit Trails:** BitRaser's ability to generate audit trails provided Scrum Alliance with evidence of successful data erasure, facilitating accountability and validation of their erasure practices.

## Challenges

Prior to adopting BitRaser Drive Eraser, Scrum Alliance faced the challenge of not having a dedicated tool for data erasure. They were following unsafe practice of formatting the drive that led to data being recovered using any free data recovery tool. Formatting doesn't wipe Free Spaces. With a need to erase all systems and devices, Scrum connected to BitRaser team.

## Solution

BitRaser Drive Eraser

## Benefits

Scrum could seamlessly wipe PC, Laptop, and Mac device permanently and generate audit trails for meeting regulatory compliance.
