

FWS CONVERTED BOOKS AVAILABLE IN THE PUBLIC DOMAIN INTO PDF VERSIONS FOR A CLIENT

The Client

The client is a well-known provider of printable versions of old and fragile books. They convert existing old and rare classic books into printable PDF versions.

The Requirement

The client was looking for a reliable and cost-effective service provider who could help them convert old and fragile books available in the public domain into a printable PDF format. The client wanted the PDF

versions of the books with precise margins.

The Challenges

Our team of software development experts had to face a few challenges while implementing the project for the client. Some of the challenges were -

- + The client held licenses for third-party DLLs (Dynamic Link Libraries) that did not have the functionalities to provide precise margins to the PDF books
- + There were several software incompatibility issues
- + Many of the books had faded print and also very fragile

The Solution

Our team analyzed the client's requirements and challenges and devised the following solution to the client -

- + Our team went through several open-source solutions and numerous brainstorming sessions and finally came up with this solution
- + Our team developed the required functionalities which would convert the existing books into the PDF format with precise margins

The Results

The client was extremely delighted to see the final results after we successfully delivered the project within the stipulated time. The client was not only happy with the quality of the books but also the cost-effectiveness of the entire project.
