Blackwing taxi app

Blackwing: Taxi App with bookings

Unlike most of the famous taxi apps, Blackwing focuses on bookings, which means that users can select any future date & time to book their trip.

The app is made for both, companies and individuals, and also offers airport booking, hourly booking, and roadshow booking with multiple stops.

App for Drivers

Blackwing app for drivers to easy sign up, verify their documents and ID, and start driving whenever they want.

App for Passengers

App for individuals and companies to book their trip in advance for any desired date & time.

Web app for companies

Web app which allows companies to sign up, manage their users, permissions, and book trips.

Admin dashboard

The dashboard for Blackwing admin to manage earnings, drivers, passengers, and companies.

Simple web app for companies to manage their employees

Companies can register, select their preferred billing method, add new users and assign them roles within the app. They can schedule a booking for them, add time and vehicle restrictions, and more.
