Marriott on the Move: Engaging Customers in the Digital Age
September 6, 2014

Executive Chairman Bill Marriott shares the lessons he's learned about digital media engagement with guests -- and adds one of his own timeless tips.

- Teaching "Hospitality 101" in China (Sept. 2)
- Family Summer Camp in New Hampshire (Aug. 25)
- Unpacking in a Hurry (Aug. 18)

Things That Keep Me Up at Night

The image features a blurred background of a crowd of people, suggesting a busy public space. In the foreground, a brass bell is visible, partially obscured by the text. The bell has a small handle on top and is mounted on a base. The text "Not Meeting Customer Expectation" is overlaid in a large, bold, white font with a slight shadow effect.

Not Meeting Customer Expectation

Global Growth

The image is a composite graphic. In the background, a man in a dark suit and blue striped tie is visible from the chest up. Overlaid on this is a large, bright green line graph that trends upwards from left to right. To the right of the graph, a portion of a world map is visible, showing the Americas. The overall theme is business and global expansion.

- Managing smaller, iterative projects is the best way to ensure success.
- Choosing the right partners to help execute is crucial. Crafter Software, Rivet Logic and Alfresco have been true partners and have played a major role delivering a successful platform.

Shelfware / Old Content

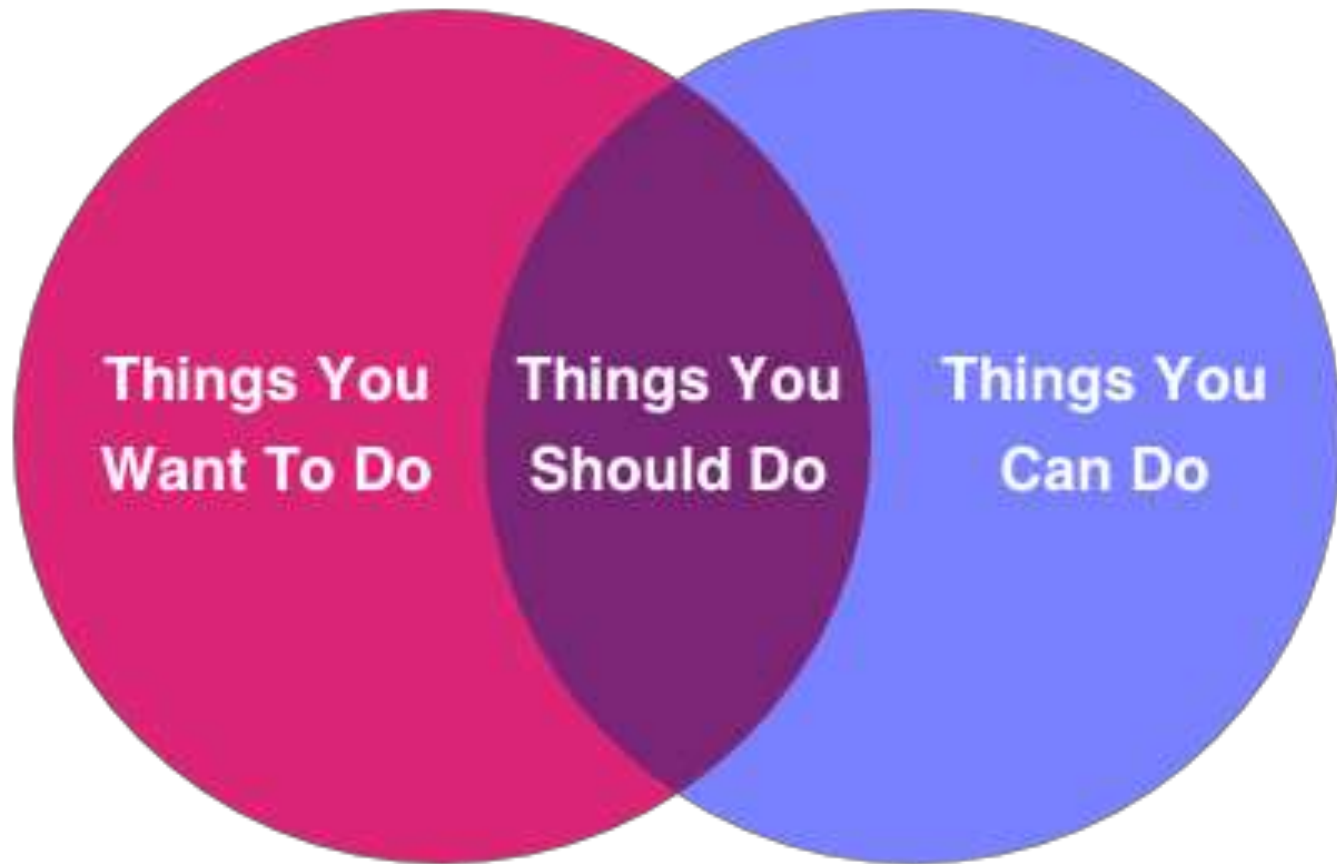

- Number two complaint (after search) from people is outdated content on sites
- We have a number of strategies we use to manage content but its a struggle

Things I Don't Know About

We Can Do Anything

We Can't Do Everything

Our Philosophy

Global, Centralized Content Management

- Make it simple
- Present clear content
- Measure and improve
- Work closely with global business units to stay connected
- Be valued and valuable to Marriott

Keep Content Fresh

Make Content Findable

Improve the User Experience

- Attractive pages that are easy to understand
- Alignment of Internet experience expectations
- Targeted content

Be Relevant

Be Adaptable to Change

MOBILE UI DESIGN

Measure, Don't Guess

- We measure and test new designs before adopting them
- We ask users what they want to see improved
- We measure and test new design concepts on web face interface changes before broadly adopting them

**The Intranet is the cultural
glue of a company**

A person wearing a grey sweater is shown from the chest up, looking down at a smartphone held in both hands. The background is a bright, out-of-focus indoor space with a window and some furniture. The text "The Intranet is really about what it lets people do." is overlaid in the center of the image.

**The Intranet is really about
what it lets people do.**

Believe in the value of people and pursue the vision of an Intranet built on meeting our associates collective and individual needs.

**Contributions from and
throughout the organization
are important.**

Collective knowledge and experiences bring to bear the best thinking that gives the best outcomes.
