## About Client

One of the fast-growing automation-led next-generation service providers delivering excellence in IT, BPO and Consulting services.

## Business Challenge

- Lack of system capabilities to manage bulk invoice data
- Manual tiring process of generating e-Invoices from IRP portal
- Required specific e-Invoice layout for driving business with customers
- Manually updating invoices with digital signature

## Our Solution

- Automated the process to generate e-Invoice linking enterprise's ERP with IRP.
- Enabled bot to affix IRN and QR code on specific e-Invoice format from cygnet's portal and catered bulk signing capabilities for required signatures.

## Business Outcome

- ✓ Reduced TAT between various processes to generate e-Invoice.
- ✓ Automated the process flow generating e-Invoices in desired format with IRN and QR code.
- ✓ Saved operational cost of switching ERP.
