## **Federal Business Centers Chooses MRI Software's Workspeed for Facilities Management**

Federal Business Centers needed a facilities management software solution that allowed customization to properly track work orders and tenant requests. The Federal Business Centers team decided to use MRI Software's Workspeed facilities management software to provide a holistic solution to their service request and business maintenance challenges.

In conjunction with MRI Software's other integrated commercial real estate accounting solutions, Federal Business Centers is able to seamlessly transfer billable work order information from Workspeed to their accounting team.

Hear from Charles Mantione, Director of Financial Operations & IT at Federal Business Centers speak about their experience with MRI Software's Workspeed and commercial accounting software.
