**We do it
because we care!**

What caused you to get into pet sitting/dog walking?

We got our Shih Tzu and she was very shy, she would not make eye contact and wore a diaper. Being a psychology major, it peaked my interest. My wife also began working at a doggy daycare and we soon became obsessed with the pet world and decided that starting a business for ourselves is ultimately the best thing.

What is the most fulfilling part of owning a pet sitting/dog walking business?

The most fulfilling part for me is knowing that we are making changes in the pets and parents lives. We offer peace of mind and that is priceless to the pet owners. We match the pets energy and leave them happy and content. Hearing our clients thank us for doing what we say we are going to do. Having the pets completely trust us and melt when they see us is a reward all unto itself!

What is the most challenging?

The most challenging for me is the juggling of the different hats you wear as a business owner. This business needs a lot of clients and care providers. Keeping all the pieces moving and flowing and happy can become challenging at times.

Where do you see your business in 5 years?

In 5 years, Happy Panter's will have two locations and as well as teams in different areas of the tri state area. We will also have a training facility that spreads energy conscious training. We will be in New York and Connecticut and maybe even the neighboring states as research reveals the next area to move to.

What has Time To Pet changed the most about how you run your business?

Time To Pet has allowed me to track everything more efficiently. Everyone can see their schedules and invoices, clients can schedule themselves, converse with the walkers, pay their invoices, leave feedback and much more. I also love the reporting section and the useful information when forecasting future months and tax information.
