

# Wizz Air Streamlines and Scales Sustainable Supply Chain Management with IntegrityNext and SAP Ariba

*“We went from manually analyzing only a few suppliers to evaluating hundreds through a streamlined, automated process – with daily data synchronization and instant assessment invitations. This has reduced the time required per supplier assessment by an estimated 70% and enables us to include many more business partners as we continue to grow.”*

**Máté Tóth**  
Corporate Affairs Innovation Manager

## Impact at a Glance

**70%**  
time savings in assessing supplier risks (estimated)

**Scalable**  
solution for fast-growing, diversified supplier base

**Full incorporation**  
of ESG data into SAP Ariba without workflow interruption

**Strategic integration**  
of ESG criteria across the supplier lifecycle

## Context & Goals

Wizz Air is a fast-growing ultra-low-cost carrier that relies on a high degree of outsourcing. The company uses the IntegrityNext platform to achieve the following objectives:

- Ensure efficient data collection and due diligence for compliance with the CSRD and CSDDD
- Enhance supply chain transparency and strengthen risk management
- Conduct continuous assessments for a growing supplier base
- Automate the integration of supplier sustainability data into SAP Ariba

## Project Description

Wizz Air implemented the IntegrityNext platform in approximately four months, covering data cleansing and validation, process design for supplier assessment follow-up, and integration with SAP Ariba. The solution is used to assess key suppliers through standardized ESG self-assessments on topics such as carbon emissions, human and labor rights.

To date, more than 350 suppliers have undergone deeper analysis – a number expected to grow as Wizz Air expands. Assessment results are integrated into SAP Ariba and enriched with other data, supporting informed, efficient, and compliant supply chain decisions.

## Key Outcomes

- **Seamless data integration:** Implemented automated, two-way data flow between SAP Ariba and IntegrityNext, with daily updates and ongoing risk monitoring.
- **Improved efficiency:** Reduced supplier assessment time by an estimated 70% through automation and standardized ESG questionnaires.
- **Strategic risk management:** Embedded ESG criteria across the supplier lifecycle, strengthening third-party risk oversight.
- **Enhanced ESG insights:** Assessed suppliers across a broad range of topics, while reducing the reporting burden.

## About Wizz Air

**Sector**  
Aviation

**Annual revenue**  
€5.1 billion (2024)

**Employees**  
8,800 (2024)

**Headquarters**  
Budapest, Hungary

**Number of suppliers**  
2,500 (tier 1)

**IntegrityNext product use**  
Supply chain due diligence focusing on self-assessments; SAP Ariba Connector; Extended API
