

Maven Recruiting Group

About Maven Recruiting Group

Maven Recruiting Group is a high-impact, targeted, and results-driven boutique recruiting firm located in downtown San Francisco. A resource to all industries, they pride themselves on partnership and service, quality of candidates, and quick, lasting results. Maven Recruiting Group provides stellar Direct Hire and temporary staffing in the following areas: Executive / Personal Assistants, Administrative Support, Human Resources, and Conference Staffing.

Their Story

With their long-time provider raising fees and not making any enhancements to the platform, Maven Recruiting Group was ready to see what other options were out there. The team was in search of a CRM platform that met the following specifications: functioned on any browser and any device, one that could pull detailed operational, recruiting & sales reports, and provided them with a time and labor management portal.

With the unsatisfactory user experience of their current platform, Maven was eager to find their CRM replacement fast!

The Solution

Avionté has been a very welcomed addition to the team. The constant upgrades, regular feature improvements, and modern user interface have contributed to a much more streamlined day. Additionally, the ease of use and robust reporting capabilities have been game changers for the team.
