

Monomax

"DDMRP has simplified inventory management. This was possible thanks to the team of like-minded people who are not afraid of changes."

SUPPLY CHAIN DEPUTY DIRECTOR, MONOMAX

BUSINESS CHALLENGE

Monomax is a leading tea and coffee manufacturer in Ukraine, with over 25 years of experience in the industry. They currently produce 1500 SKUs of finished products, generating about 10,000 tons of products per year.

Monomax had these project goals for their business:

- Reduce stocks of raw materials and finished products
- Provide the steady availability of the required products
- Automate planning
- SKU order process automation

This implementation was supported by

SOLUTION

Due to the important features of the tea business in Ukraine, such as: seasonality of sales, seasonality of purchases and fully imported raw materials, Monomax selected and implemented Replenishment+ for inventory management and as a result, a purchase order process was created, and orders for suppliers and for production became automated.
