FLATWORLD SOLUTIONS PROVIDED ONLINE DATA ENTRY SERVICES TO KANSAS-BASED BODY JEWELRY CLIENT

The Client

The client is a founder of a popular clothing and body jewelry retail who began the journey from a family residence. In 10 years, they have successfully found a market to grow and fulfill the orders from thousands of customers.

Client's Requirements

The client needed a virtual assistant to handle product upload, review response, and other eCommerce activities.

Client Challenges

The challenges that lay ahead were impacting their usual business functions. The challenges included managing routine tasks, a longer learning curve for employees to type, take phone calls, write reviews, and much more.

FWS' Solution

After completing formalities and finalizing the SLA we allocated a full-time resource for the project. The online data entry was an ongoing project that was professionally handled by our agents.

Our Process

With former experience in online data entry, Flatworld took on the role of a problem solver and helped the client to overcome challenges in the following manner -

+ We contacted their client through their preferred channel
+ We provided virtual assistant support
+ We accessed the client's platform to manage administrative tasks, call clients, etc.

Results

Our support streamlined their business with a boost in productivity and sales. The client expressed satisfaction and commended our efforts and professionalism.
