

Propelling sustainability and risk management across the supply chain with EcoVadis IQ

Lenovo Goals

Limit supply chain sustainability risks exposure

Improve risk management strategy to reduce reputational and supply disruption risks

Help suppliers address operational risks, aiming to enhance value creation

How they use EcoVadis IQ

Comprehensive screen of suppliers' sustainability risks

Risk mapping to define selection strategy for supplier assessments

High-risk suppliers to complete assessment and identify improvement areas

"EcoVadis IQ has propelled our sustainability and risk management, providing the path to a more resilient future through sustainable procurement."

Dustin Deal, Director, Security, Risk & Sustainability, GSC Strategy & Thinktank
