

A cut above the competition with SAP Business One

Before: Challenges and Opportunities

- Previously, Al Farah Butchery faced challenges in costing, finding it difficult to define the price of products.
- High volumes of product wastage are common in the meat industry.
- New software was required that could track stock market carefully to ensure the right price is chosen to cover costs.

Why SAP Business One and Inflexion

- SAP Business One provides Al Farah Butchery with an impressive reputation, as all parties recognize they're efficient enough to implement SAP.
- SAP Business One has no limitations.
- Inflexion has a good reputation and has built a strong relationship with Al Farah Butchery, supporting them with any new challenges or issues.

After: Value-Driven Results

- Since implementation, SAP Business One has helped to control costs.
- All departments, from purchasing to inventory to accounts, are now fully integrated and automated.
- It is easier to define yield from production.
- Expected product wastage and related errors can be discovered in advance.
- Management are in talks to upgrade to SAP S/4HANA for an even more powerful and solid platform.

“Because of SAP Business One and Inflexion, this is **the best professional experience my team has had in a long time.**”

Mr. Moamar Al Farah – Founder, Al Farah Butchery

Improved efficiency and cost savings

since implementation of SAP Business One
