

The guarantee of exponential productivity growth with **SAP Business One**

Hidroca is a company dedicated to providing industrial solutions in three areas; maintenance, operations and repairs for the industry. They have more than 20,000 products that offer to all their customers, all products certified by their manufacturers and they provide services to more than one thousand customers in the country. They have implemented the use of SAP Business One to make decisions faster and keep track and control of every detail.

Before: Challenges and Opportunities

- Challenges in controlling and overseeing operations
- Difficulties in decision making process

Why SAP Business One and H&CO

- H&CO is fully integrated in the trainings on the usage of SAP software
- With SAP, accessing information becomes effortless with just a few clicks, enabling seamless transitions between modules in a fast and convenient manner
- Solution provides monitorization of every department, affords all the benefits of digital transformation such as scalability, complete data visibility; and meet company's basic ERP needs

After: Value-Driven Results

- Ease with which we can keep track and control and with proper monitoring we can achieve the daily objective
- Helps us to make better decisions, reduce logistics costs and reduce the risk of over-inventory
- Purchase orders are generated in a much more expeditious manner, facilitating the entire logistics process

“I can define **SAP Business One in three words: Guarantee, Productivity and Speed.”**
