

Fueling Global Growth with SAP Business One

Before: Challenges and opportunities

- Disconnected systems made it difficult to manage production and orders in real time
- Time-consuming cost calculations and financial reporting
- Difficulty responding quickly to operational issues in a 24/7 production environment
- Growing international business required a scalable and robust ERP platform

Why SAP Business One and AIF Team

- SAP Business One offered traceability, sustainability tracking, and real-time insights
- Partnership with AIF Team ensures fast and expert support
- Scalable system aligned with best international practices
- Investment justified by tangible gains in efficiency and process control.

After: Value-driven results

- Intuitive dashboards and automation supported faster decision-making
- Real-time cost calculations and order tracking improved operational agility
- Faster and more accurate production planning across a 24-hour manufacturing cycle
- Enhanced sustainability and traceability supporting global export compliance
- A strong SAP culture now embedded within the organization, supporting corporate growth

“SAP Business One helps us **manage production 24/7**, **optimize costs**, and operate more **sustainably**. With the incredible support from AIF, we feel equipped for long-term growth and efficiency.”

Bedirhan Unat, Vice General Manager, UNAT YAĞ GIDA SANAYİ ve TICARET A.Ş.
