

“ Leading data center hosting services company – “Trianz is a class apart when it comes to doing the right thing; always. For instance, unfailingly implementing industry best practices ... ”

Director – IT

Leading data center hosting services company

MY PROBLEM

Needed to implement a service catalog for cloud infrastructure operations to be able to support IT processes and efficiently manage changes in IT infrastructure.

SIMPLY SOLVED

Trianz successfully implemented several best practices -- from gathering clear and specific requirements from our business and IT teams, to detailing out the plan considering both processes and tools -- to implement the service catalog. Automation through orchestration resulted in better efficiency with minimal effort
