Social Community Extension for a European Tabloid

Project Overview

Oxagile developed a powerful social media module for one of the biggest news and entertainment portals in Europe that has over 195 million monthly visits.

Key features and highlights:

- Seamless social media integration (such as login via an existing Facebook account, Facebook friends/followers integration, and more);
- Easy-to-use content interaction for registrants, including commenting and content sharing;
- Rating features for comments: registrants can “like” specific material, similar to Facebook;
- An ability for registrants to receive fully customizable news updates;
- Powerful moderation features for administrators with full control over user-generated content and registrants' accounts;
- High scalability and availability: the system can process up to 2 million requests per minute.

Technology Stack

PHP, CodeIgniter, KickApps API

Timeframe and Workload

Duration: 6 months

Effort: 24 man-months
