

Sound Health Services gains practice efficiency and business insight by switching to ModMed

Implementing ModMed has helped our physicians be more efficient, get in and out of rooms a lot quicker, and still be able to go home and have quality time with their families. Also, our patient volume has increased by eight patients per physician per day.

Sheri Allgeier, CFO,
Sound Health Services

Sound Health Services, St. Louis' largest private ENT practice, needed a cloud-based, all-in-one system to deliver care across 12 locations. They chose ModMed® Otolaryngology to streamline charting, eliminate fragmented tools and enhance documentation, and report that the switch led to positive changes, such as increased patient volume and fewer missed appointments. CFO Sheri Allgeier says that integration with Xtract's software has saved the group hours of manual work, and ModMed has helped boost efficiency across divisions as they provide a higher standard of care.

 **Saw 8 more patients per physician daily**

 **Cut chart prep time from 8 hours to 2**

 **Reduced missed appointments by 50%**

Goals

- Streamline charting and practice management with an all-in-one system
- Eliminate fragmented add-ons with built-in EHR and PM tools
- Enhance physician documentation with an ENT-specific solution

Results

- Improved efficiency and reduced manual workload across locations
- Saved time for practice staff using simplified EHR and PM tools
- Increased documentation efficiency with adaptive, ENT-specific software

The statements and conclusions contained herein reflect the opinions of Sheri Allgeier and not those of ModMed. ModMed makes no representations or warranties as to the accuracy of any such information. Results may vary depending on medical practice size, product usage and other variables.
