

SRI KRISHNA RESIDENCY

- Udupi

In the Hotelier's Own Words

DJUBO has given a really good support by providing us an advanced technology. Previously it was difficult to manage the inventory individually on each OTA, but now we are able to sell more rooms through optimum handling of our room inventory on each channel. DJUBO's ability to keep pushing rooms until the last minute to every OTA has made a remarkable change in our way of working. We have also started to notice that our brand is now being recognized by people and they have started to book directly with us. It has been a wonderful beginning with DJUBO and we expect to go far with it to achieve our goals.
