

# Quadrant Private Capital Solutions Platform Streamlines Fund Accounting with SS&C

Elevating timeliness and client confidence with a scalable accounting platform

## BUSINESS CHALLENGE

Quadrant Private Capital Solutions Platform, managed by Quadrant Capital Group (dba Constellation Wealth Advisors), is a private capital investing platform managing 30+ Series of portfolios with approximately \$1 billion in committed capital. As the platform grew, its prior administrator struggled to keep pace. Reporting was hampered by heavy reliance on manual spreadsheets, NAV preparation was delayed and the audit process became a source of frustration. The lack of responsiveness and timely execution prompted Quadrant to seek a partner with more robust technology, deeper expertise and a commitment to superior client service.

## SS&C SOLUTION

Quadrant migrated its fund accounting to SS&C's advanced administration platform, supported by a seasoned Fund Accounting team. The new operating model delivered measurable improvements:

- **Faster NAV Reporting** across all Series
- **Streamlined workflows**, eliminated delays by providing completed Series NAVs as they were ready
- **Simplified audits**, thanks to stronger controls and quicker turnaround times
- **Enhanced client confidence** through transparent and consistent processes

The conversion was seamless, and the impact was immediate. Quadrant experienced a noticeable uplift in operational efficiency and reliability compared to its prior provider.

## QUADRANT BENEFITS

**Faster** investor reporting with earlier NAVs
