Did you have any concerns about using StealthSeminar?

My name is Heather Blaise, and I'm the founder of Boost Your Business. I help women entrepreneurs set up a strong foundation for their business so that they can have the time, money and freedom to do what they love.

Probably the biggest concern I had, in the beginning, was being able to get the automation set up. I wasn't sure how to go about that.

I found that Stealth Seminar is straightforward. It's easy to find a solution yourself.

When I can't find something, I just go to the chat, and it's fixed for me fast. I have changed landing pages and all kinds of things, and it has always been easy.

One of the things that I like about Stealth Seminar is the support you get. Put in an email, and it's often resolved on the same day, which I love.

It just seems everything's taken care of, the support team is just great.

What was your eureka moment?

I knew this was the best solution for me when I got to have quality time with my son instead of having to do a live webinar all the time. It also let me focus on other areas of marketing.

It frees up that time I would have spent chasing leads. Now, I get between one and ten calls a day. So if I were speaking to each lead individually, it would take me all day. There wouldn't be time for anything else.

To keep up, I would have to be doing webinars at all times of the day, when it's convenient for clients, not for me.

Now people can just show up to one of my automated webinars at a time that suits them, so everyone wins!

How did StealthSeminar help you?

Now, with Stealth Seminar everything just works. It flows without much input from me. For me, that makes it great value.

Stealth Seminar frees my time up from having to do a live webinar or seminar masterclass over and over again.

In my seminars, it's always the same information. Why keep doing it live every time if you can have this platform that can do it for you?

The freedom to focus on other things that generate income is invaluable.

Would you recommend StealthSeminar?

I would absolutely recommend Stealth Seminar, because of the great value you get. The value for what I pay is well worth it.

The time that Stealth Seminar saves and the attentiveness of the support is everything.

I'm not the most technically savvy person, so a place to go when you don't know how to do something is fantastic. Many other platforms I'm using don't have that support, and it often leaves me stuck.

The most significant benefit of Stealth Seminar is the technical support and the speed you can get started from nothing.
