Before Coastal Construction used AI estimating takeoff software, Togal.AI, **the Coastal Construction team spent about 50% of their time** manually tracing, clicking and dragging lines on a set of plans to perform a takeoff using on-premise software.

There are about 15 million construction estimators in the world who spend **~20 hours/week** manually clicking to analyze plans and measure quantities.

Solutions

Coastal Construction + Togal.AI

Togal.AI helped Coastal Construction estimators reduce the time needed to takeoff from 50% to 10%.
