# A+ Construction & Remodeling consolidated their payments process to save time and over \$15,000 per year

A+ Construction & Remodeling completes over 200 renovations and additions each year by leveraging technology to streamline field and back office work.

## Challenge

Before Beam, A+ Construction used several different software products for invoicing, bill payment, and accounting. These products weren't built for construction, so progress invoicing was hard to manage and there was no way to track change orders. Plus, project managers didn't have visibility into accounting systems, so they had to frequently request updates from the accounting team.

## Solution

A+ Construction consolidated their several payment processes on Beam, and now use Beam to track contract progress, change orders, and more. Beam is synchronized with

Quickbooks Online to keep accounting records up-to-date in real time. Bookkeepers and project managers can log into Beam and track progress and payment status.

## Results

With Beam, A+ Construction has eliminated the multi-day transfer delays from traditional bank accounts and can pay their subs in just one day or less. Plus, their cash actually works for them - earning interest in their Beam Balance while staying completely accessible whenever it's needed.

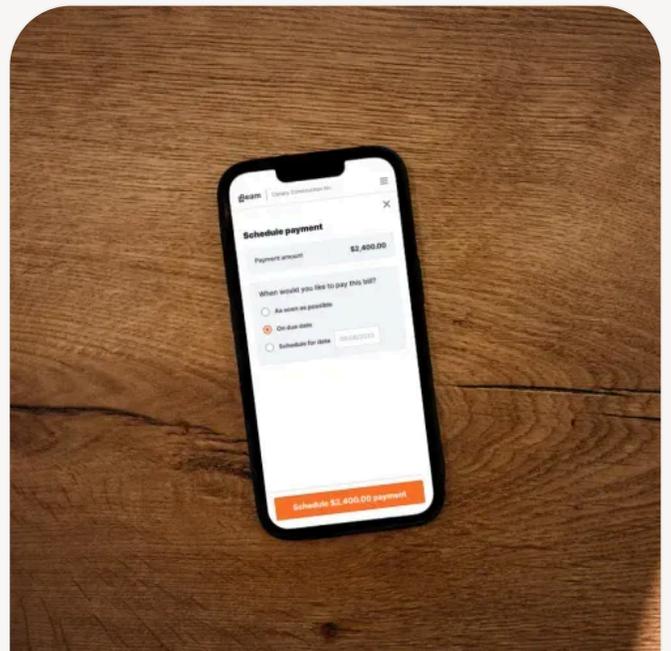

Now it takes a fraction of the time to invoice and pay bills, improving their bottom line and cash flow and allowing them to scale without hiring additional back office staff. Project managers have improved communication with their subcontractors and customers because they can see real-time invoice and payment status.

# Time is money. Save both.

Join hundreds of contractors that trust Beam to estimate, manage projects, and stay on budget.

© 2026 Beam Finance Inc. All Rights Reserved.

Beam is a financial technology company and not a bank. Beam partners with Stripe Payments Company for money transmission services and account services with funds held at Fifth Third Bank N.A, Member FDIC.

<sup>1</sup> 2.5% Annual percentage yield (APY) effective 10/10/2023. This is a variable rate and may change after the account is opened.

<sup>2</sup> The Beam Card is a pay in full charge card. Any outstanding statement balance will be automatically debited on each monthly payment due date from your designated bank account or the Beam Balance.

<sup>3</sup> Beam partners with CapitalOS and First Internet Bank of Indiana, Member FDIC, for Beam Card. Cards are issued by First Internet Bank of Indiana, pursuant to a license from Visa Inc. Depending on your location, credit is provided by CapitalOS, Inc. or CapitalOS Financial Services LLC.

<sup>4</sup> Beam Balance accounts are eligible for pass-through FDIC insurance up to \$250,000 per depositor through Fifth Third Bank N.A., Member FDIC. Beam Balance Accounts are eligible for FDIC pass-through deposit insurance if they meet certain requirements. The accounts are eligible only to the extent pass-through insurance is permitted by the rules and regulations of the FDIC, and if the requirements for pass-through insurance are satisfied. The FDIC insurance applies up to \$250,000 per depositor, per financial institution, for deposits held in the same type of account (business versus personal, and so on). Neither Stripe nor Beam are an FDIC insured institution and the FDIC's deposit insurance coverage only protects against the failure of an FDIC insured depository institution.
