

## Wedding Grid

Finding the right vendors for your special day wasn't this easier! Wedding Grid allows the newly engaged couples to plan their wedding day without losing sight of their budget and time.

### Featuring the best packages to make your wedding day a moment of perfection

Wedding Grid allows the users to add all their relevant data and hire the most appropriate vendors for their big day. Newly engaged couples will acquire packages and other options fitting right within their contained budget and time constraints.

### A wide array of features to find you the exact vendors for your wedding

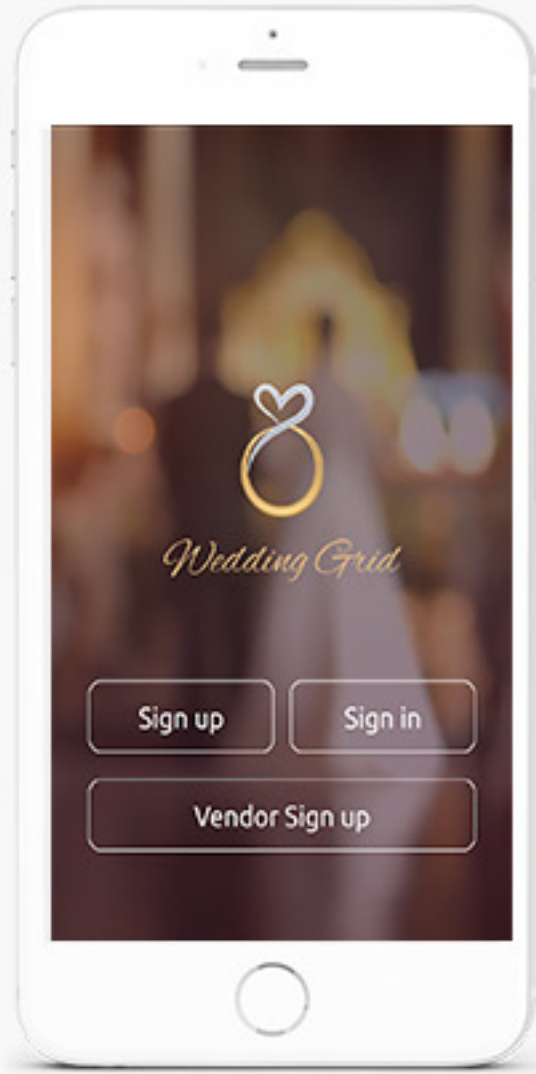

Wedding Grid is now here to keep your budget and wedding timeline in check. The users can prepare for their big day as a reliable vendor will be hired to take care of everything from the preliminary considerations to the final execution.

### An iOS app handling the vendors and your custom wedding requirements without any hassle

Wedding Grid is a free, iOS app that tempts newly engaged couples to connect with a list of professional vendors and put forward the requirements of their wedding. Now, the vendors will talk to you regarding your big day without you needing to inquire and hire them.
