INTRODUCTION

About Angelo State University

Angelo State University has been serving the heart of West Texas since it was established. As a member of the Texas Tech University System, Angelo State University focuses on advancing higher education, health care, and research through its 6 colleges and 80+ degrees. Even with 12,000+ enrolled students, Angelo State University boasts an impressive 19:1 student-to-faculty ratio, showcasing their commitment to providing quality educational instruction. The university's core values of integrity, diversity & inclusion, significance, community, and commitment are reflected everyday by students and faculty, through their outstanding work and community impact.

San Angelo University was built after an unsuccessful bid in 1923, where the city was nominated to be a prospective home for Texas Technological College. After losing the bid, the community in San Angelo decided that their passion for education couldn't be stopped; the citizens of San Angelo paid for the creation of San Angelo Junior College themselves, and opened its doors for the first time in 1928. Since its inception, San Angelo College has been a pillar of development and prosperity for western Texas. Today, it remains a steadfast source of growth for the community of San Angelo, reflected by its 25-time awarded title as one of the nation's "Best Colleges" by The Princeton Review.

1928 San Angelo, TX

FOUNDEDLOCATION

“

“Summarizing my experience with YuJa—it’s a great way for faculty such as myself to really integrate media into courses, as well as having students create either own media, and integrating that into courseware to make it a much more dynamic experience—to really create interactive learning experiences for students, to get [students] to be active and engaged in the learning process.”

by Dr. Sandra Mohr, Dean for Digital Learning and Instruction

”

Highlights

01.

With comprehensive training and an intuitive interface, YuJa Lumina has been adopted easily by staff and students.

02.

YuJa Lumina’s robust suite of features effortlessly increases the accessibility of videos and boosts student engagement.

03.

Seamless integration with Angelo State University’s LMS creates efficient and fluid workflows for faculty.

The YuJa Lumina Video Platform Enhances How Students Learn Through Videos

As a public university in West Texas, Angelo State University has become a central hub for academic excellence, diverse student life, and competitive athletics. When the university saw a gap in the way multimedia education was being utilized, they sought out a solution that would increase student engagement and enhance the accessibility of materials for students of all abilities and learning styles. They found this solution in the YuJa Lumina Video Platform experience. We’ll assume you’re ok with this, but you can opt-out if you wish. [Read our Privacy Policy.](#)

“At Angelo State University, YuJa has improved teaching and learning by really enhancing how students achieve learning through utilizing videos,” said Dr. Sandra Mohr, Dean for Digital Learning and Instruction (<http://www.yuja.com>) [instructors] to create videos that are accessible and just integrate them into their course, be they face-to-face courses or online courses.” With an existing commitment to providing content in accessible formats to meet different learning styles, Angelo State University is using YuJa Lumina to take the next step toward creating an accessible and equitable multimedia learning experience for all students.

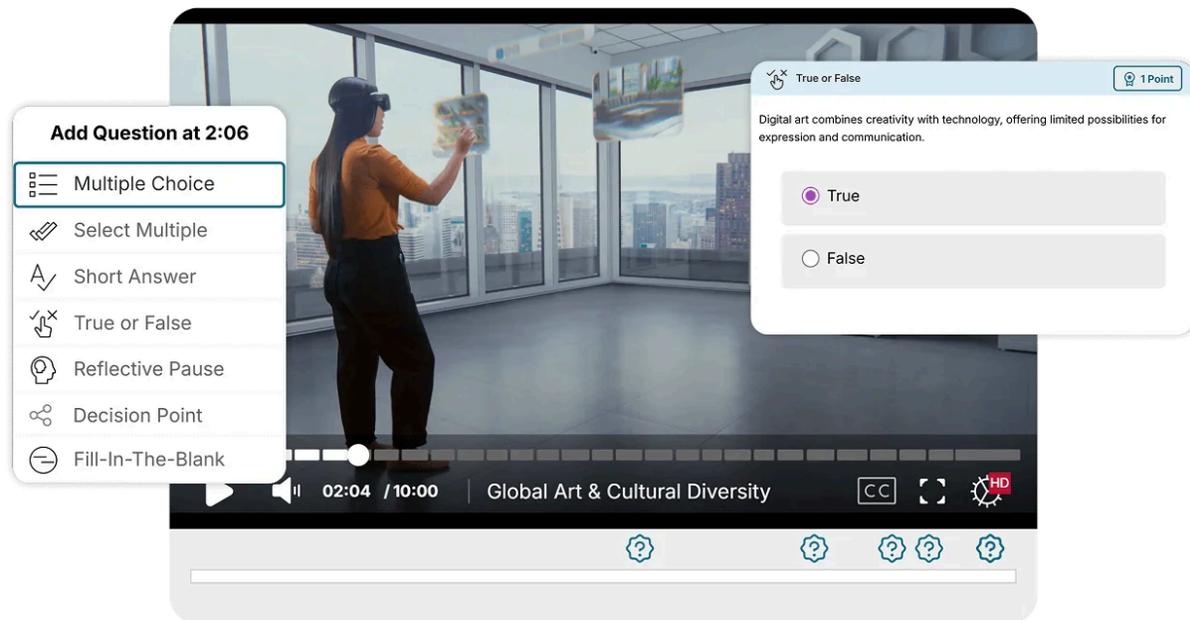

How YuJa Has Helped ASU

Ease of Use: A Simple and Intuitive Interface for Easy Adoption

Faculty at Angelo State University have found the transition to YuJa Lumina easy and seamless. With customised training and an intuitive interface, the platform was simple for content creators to adopt. “I found YuJa really easy to use,” shared Dr. Mohr. “There are a lot of help videos and resources for when you get started to make it easy to use, and it also provides you with a lot of resources for how to categorize and keep it organized.”

Enhancing Learning: YuJa Lumina Makes Videos More Accessible and Engaging

YuJa Lumina offers multiple features that enhance video learning, making it more accessible and engaging for viewers. Lumina features like [automatic captioning and AI-generated transcripts](https://www.yuja.com/video-cms/auto-captioning/) help accommodate different learning styles and help viewers who are deaf or hard of hearing better comprehend content. In addition, interactive features like [in-video quizzing](https://www.yuja.com/video-cms/in-video-quizzing/) help to boost student engagement levels with content. With a wide array of question types, including multiple choice, true or false, short answer, and fill-in-the-blank, instructions can keep students focused and reinforce key concepts as students watch.

LMS Integration: YuJa Lumina Works Seamlessly with LMS

The easy integration of YuJa Lumina into Angelo State University's LMS has created a smooth workflow among faculty and students. When faculty insert quizzes into their videos, the YuJa Lumina Platform automatically syncs and uploads all in-video quiz scores to the LMS gradebook, reducing the strain on instructors. “It is a really fast way for [faculty] to create videos that are accessible and just integrate them into their courses, be they face-to-face courses or online courses,” mentioned Dr. Mohr. “They can really just be integrated in there pretty quickly and seamlessly without a lot of hard lifting on [our] end.”
