Facilities Management Category

Facilities management software tools assist to align the physical workspace with the employees who carry out the task. This includes activities such as work order processing, equipment maintenance, and asset management. A wide range of products is available to aid facility managers to handle daily operations. You can thus select from a number of systems to best serve your facilities management requirements.

Typically, a facility management solution helps to minimize maintenance and space costs, simplify the work order procedures, and manage equipment and assets. Most tools present an automated system to handle scheduled and preventive maintenance of a company's assets and facilities. The lower-level staff gets features to work efficiently and input information about materials, parts, and repairs. Managers can obtain visibility and control over the condition of their organization's property, compliance, and maintenance histories.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

Award Levels

MARKET LEADER

“Having all the information at your fingertips for utility costs per square foot, makes AiM EM superior to any other product available.”

RICH MILLER
BUSINESS SYSTEMS ANALYST WITH WORKPLACE SERVICES, THE UNIVERSITY OF UTAH

“As a web based enterprise solution, the ability to deploy AiM across the university across multiple platforms was a breeze. Gaining visibility on our productivity, and training hours, as well as, access to work orders and vital building information from anywhere on campus has been priceless.”

MICHAEL O'CONNOR
PHYSICAL PLANT DIRECTOR, APPALACHIAN STATE UNIVERSITY

“AMP is great for a lot of things, but my favorite is probably the building attributes feature. Buildings are so important- that's the main stuff we're concerned with. [In AMP], it's so detailed, and even takes into account different roof types. That kind of information is extremely beneficial for risk management. I love that feature. It helps me keep track of everything.”

ABOUT UPKEEP

UpKeep Maintenance Management Software is a task management tool startup for facility maintenance teams. UpKeep is targeting the 9.9 million maintenance workers in the US alone to make their work more productive and changing the way facility maintenance requests are made and received. Their primary focus is on making technology easier to use for field technicians so they can access their work on the go.

Featured Testimonials

“UpKeep lets me list the cost of parts on our work orders. That gives me more transparency into what we’re spending month to the month. And, since everyone on our team has an iPad and can create their own work orders, we can eliminate administration hours. UpKeep is THE assistant we’d otherwise have to pay an additional salary for.”

LARRY SHERRER
MAINTENANCE MANAGER, MCCLAIN FOREST PRODUCTS

“I am able to track maintenance issues much more efficiently to ascertain if a bigger problem may be the main issue. The accessibility on my smart device makes this software a vital tool in daily operations.”

JEREMY
VINA ROBLES AMPHITHEATRE

“UpKeep is a great service for managing work orders, tracking assets and scheduling your team’s time. The asset system is great for tracking parts and preventative and reactive maintenance that has been performed on individual items such as HVAC units. The ability to upload pictures and other files such as repair manuals, work orders, and assets is also a huge plus. All around UpKeep is a great piece of software that I would recommend to anyone with a medium to large size business or anyone managing multiple properties.”

LIAM
SAN LUIS OBISPO COUNTRY CLUB

“UpKeep Sensors have changed the entire way we monitor the health of our facility. No more clipboards and no more needless facility walkthroughs. Now we can monitor the state of our facilities hundreds of miles away from a mobile device anywhere we are.”

ABOUT CORRIGO

Corrigo's technology platform is used by over 2.5 million people to manage 15 million work orders each year across more than 1,400,000 locations. The Corrigo technology platform includes integrated SaaS software and mobile apps serving facility management, maintenance management, service dispatch, and field service management organizations of all sizes. The platform delivers real-time visibility into the control of the quality and cost of building and field service operations.

Featured Testimonials

“Corrigo's platform impressed us by completely covering the maintenance and customer service process while integrating with our core ERP system and providing strong reporting. Corrigo is a complete solution that gives us all the flexibility and functionality we need to effectively manage our resources and provide top-tier services to our customers.”

LAURIE BROW
SVP CUSTOMER SERVICE, LIBERTY PROPERTY TRUST

“Restaurants are very asset heavy per square foot as compared to most retail space and the maintenance of all these assets continues to contribute to the ongoing margin pressures in this industry. With Corrigo we know what the drivers of our maintenance spend are and we are able to do root cause analysis on our assets, identifying and correcting systemic issues. These are key in our ability to offset rising maintenance cost along with the accountability the system brings to all our facility management processes.”

JOHN GETHA
DIRECTOR OF FACILITIES, WENDYS

“Since implementing Corrigo Enterprise, we've had measurable savings by avoiding many unnecessary repair calls and unnecessary payment for work under warranty. We did not have to install, host, or maintain any software, but we can still customize the system to fit the way we do business.”

DAN MILOJEVICH
DIRECTOR OF FACILITIES, EL POLLO LOCO

“We can now have work order management and CMMS in the same system. Corrigo Enterprise is a proven system that will adapt to our requirements as we grow, and enable us to anticipate our clients' needs before they ask.”

“I am so glad we found FMX to resolve our facilities maintenance needs. It is easy to use even for Techs that had no computer or software experience. The calendar feature is also helpful in scheduling work loads. Even better is the exceptional customer service. At every step we were supported and custom requests were handled with ease.”

KATHY GREENWOOD
DIRECTOR OF ADMINISTRATION, NORTHGATE ASSOCIATES

“We haven't found anything that we do not like about FMX. The corrective and preventive maintenance, inventory control and scheduling of facilities were seamless in our transition and they even imported all of our information from the other vendor and kept the nomenclature the same so the transition went flawlessly.”

JOSEPH WACHTER
DIRECTOR OF FACILITIES, SHIPPENSBURG AREA SCHOOL DISTRICT

“Since implementing FMX, our facilities management is much more organized. The system is very up front, and I can readily see the things that need to be done, just by looking at the calendar. I like, particularly, the record-keeping capabilities that allow me to track the work completed on individual machines, the money spent for parts, and the time involved in making necessary repairs.”

ERIC GRIMSLEY
LEAD MAINTENANCE TECHNICIAN, COMTEX (CENTRAL OHIO MEDICAL TEXTILES)

“Having this new tool within FMX is extremely valuable. My team has access to anything related to the health of our buildings and staff members in FMX, especially COVID-related incidents. We can also track potential issues with bed bugs, lice, typical flu cases, playground injuries and accident reports. Our staff loves FMX as a one-stop shop for anything that relates to safer, cleaner school facilities. The reporting and accountability within FMX gives me great peace of mind that we can showcase our diligent efforts to provide a safe learning environment for all.”

“ACS recognised the need for a computerised facilities management application, which would allow us to effectively manage our building assets and ensure the effective control of breakdown maintenance across our campuses within defined service levels. We needed a system that offered comprehensive functionality yet at the same time was intuitive for our staff to use. It was also essential that the software could be configured to meet our needs without involving large amounts of development time or additional cost.”

CHRIS BARLOW
HEAD OF FACILITIES, ACS INTERNATIONAL SCHOOLS

“This investment into new technology training facilities is a natural progression for the business, where we are a leading MRO and we intend on maintaining this position. MAEL has been training aircraft engineers for the past four decades and has gained a worldwide reputation for its continuing high standards.”

MICK ADAMS
MANAGING DIRECTOR, MONARCH AIRCRAFT ENGINEERING

“The system creates complete transparency. The priority and progress of work can be easily seen and everything is documented. Pictures and documents can be uploaded to the system too, which helps demonstrate to the end-user if there is a problem which can be sent to other operatives to share expertise to solve the problem more quickly.”

NICOLE BÉLANGER
