Knowledge Management Category

Big data is ubiquitous in today's digital age. Cloud usage has made unlimited data storage possible and affordable. Numerous business platforms allow enterprises to acquire this data – from internal business files and industry knowledge to customer information.

However, this mass of data and knowledge needs to be organized so that users can easily search and find the information they need. This can be done with the help of knowledge management (KM) software. The solution allows you to identify, create, distribute and organize your firm's knowledge repository. It gives your organization a unified, single information pool that can be easily accessed, discovered and updated. In this way, the product helps to make enterprises leaner and more efficient and profitable.
Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

**CONTENT SCORE**
- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

**MARKET PRESENCE SCORE**
- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

**COMPANY SCORE**
- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

---

**Award Levels**

**MARKET LEADER**
Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

**TOP PERFORMER**
Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer’s products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

**RISING STAR**
Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

Featured Testimonials

“Confluence is our linchpin for everything. On their first day of work, new hires who are onboarding go to Confluence and start reading. ‘How do I set up my dev box?’ ‘How do I get my work going?’ Whatever they want to know, it’s all there.”

Evan Lerer
Director of Engineering, Redfin

“Confluence is an awesome wiki, but that’s not all. It’s an awesome intranet. It can be an awesome portal. Really, it can be whatever you want, especially if you’re willing to see what’s available in the Marketplace.”

Ethan Foulkes
Business Development, Camerican International

“Unlike email, Confluence creates permanent records that are easy to follow. When you’re in a distributed work environment that becomes a big issue.”

Jamie Thingelstad

Featured Testimonials

“Bloomfire allows us to respond to questions that require input from a group of people, and to store that information in a place where it can easily be located and accessed again. It identifies experts with an intelligent search engine that connects knowledge and people.”

DAN ZADIK
SOLUTION ARCHITECT, DUN & BRADSTREET

“Bloomfire had all the features we wanted, including multimedia posts and search capabilities. We use Bloomfire for all information that remains relatively unchanged over time. It is primarily updated by one team for access by remote employees.”

ELAYNA HEBERT
CISABROAD

“While conducting our research, we were easily able to narrow our top five features, and Bloomfire had them all. We were attracted to Bloomfire’s ease of use, as well as its ability to upload any file types, powerful Q&A engine, and robust analytics.”

ELANA CLIFT-REAVES
CONTENT AND TRAINING MANAGER, HOMEAWAY

“Bloomfire empowers individuals to create a culture of teaching and learning. It helps us acknowledge the wisdom and expertise of every employee. It’s also helped us extend our entire learning community by connecting departments, individuals and campuses who may not have had the opportunity to learn together.”

Guru (getguru.com) is a real-time knowledge management solution for sales and sales enablement teams that knows when, how, and where to deliver knowledge to you without you having to look for it. With Guru, you don't just manage your knowledge; you create a network out of your entire company's collective intelligence for your sales team to leverage. Guru does this by unifying your joint knowledge and leveraging AI to suggest relevant information to your reps – all in real-time and in every application they work in. The more you use Guru, the smarter it gets.

## Featured Testimonials

“Guru is a simple but powerful knowledge base that allows us to share knowledge and information across our team. The Chrome or Slack add-ons are accessible and useful, especially the Slack Emoji reactions to look up content, or to create content right from a Slack message. It’s an insanely great idea.”

STEVEN GRADY
SUPPORT SPECIALIST, TRELLO

“Guru’s card-based approach allows us to consolidate information, so I include the content that sales reps use as immediate talking points and then link to more in-depth information, such as case studies or white papers, as additional resources they can send to prospects. Guru is serving as an index of the knowledge spread throughout the company.”

DANIEL KUPERMAN
ACTING DIRECTOR OF MARKETING, AXCIENT

“Guru gives us instant access to answers when we talk to our customers and have the knowledge of some of our 10-year experts. It also helps us keep up with the market as we are updating it often with competitor information and other useful information.”

VICTORIA WALLS
BUSINESS DEVELOPMENT REP, WRIKE

“I love the chrome extension because it’s so handy to not have to navigate to a different window when I’m in a live chat with someone. Being able to search by tag, category, or collection allows me to find information easier and saves me time from having to ask somebody for help.”

ABOUT SLAB

Slab is building their long term memory. They reimagined the humble knowledge base from the core user needs to make information sharing within teams fast, intuitive, and empowering. Behind the scenes they geek out over the latest technologies to put a simple and elegant product on the center stage.

Featured Testimonials

“One of the coolest things for me was pasting the URL for a Lucidchart document into Slab, and it automatically populated a diagram right into the document. I've shown that to a lot of people here [at Lucid], and they love it.”

VASU CHETTY
PRINCIPAL DATA SCIENTIST, LUCID SOFTWARE

“It was great being able to merge the knowledge base that we had in GitHub with what we had in Slab without it being a jarring experience for the user.”

AMMAR BANDUKWALA
CO-FOUNDER AND CHIEF TECHNOLOGY OFFICER, CODER

 “[Documentation] was not something the engineers looked forward to before. What we have now is a team that's very enthusiastic about using Slab to maintain their history, maintain their decisions, to socialize ideas and thoughts.”

SCOTT ANDERSON
SVP OF ENGINEERING, VEVO

“Slab's topic organization and hierarchy is great. We evaluated several potential wikis and Slab really has the best answer for discoverability, robustness and complexity.”

ABOUT TETTRA

Tettra

Tettra is the simplest and most delightful way to write about any process or project happening in your company. They have instant access to information and other people. In seconds, they can find answers, connect with people, and share their voice with the world.

FEATURED TESTIMONIALS

“Very quickly after launching, the number of redundant questions decreased. Managers direct people to look in Tettra first, since the answer is usually there.”

ISAAC
CO-FOUNDER, GRANDPAD

“We used to primarily use Google Drive for file sharing, which got messy quickly as we added new employees. Migrating to Tettra has changed the way we communicate entirely. It’s intuitive to use and easy to update, while keeping our whole company on the same page.”

CAROLINE KATSIRIOUBAS
MARKETING DIRECTOR, FREIGHT FARMS

“People want to know what the quarterly priorities are. It’s a really easy, searchable way for people to find the information that they need. We’re always look for ways to keep those priorities in front of the employees. It helps people feel connected to something bigger than just their jobs out in the field.”

LAUREN ELMORE
PRESIDENT, FIRMATEK

“Tettra helps us eliminate information silos throughout the org, which reduces ramp time for hires, increases collaborative productivity, and ultimately ensures we’re moving as quickly as we can in growing the business.”
