

Aviation Management Software Category

Aviation Management Software Category

Aviation management software offers operational support to airports, airlines, and FBOs (fixed-base operators) like cafes, taxi services, and other airport service providers. In addition, the platform helps to manage airline fleets. This means it facilitates sales/service automation, airport workforce and front desk management, and maintenance handling. Apart from all-in-one systems, some vendors also provide single-element tools such as ticket sales, fleet management, etc.

Aviation software is utilized by maintenance shops, charter operators, flight schools, and FBOs of all sizes. Typically, this platform comes with a comprehensive suite of functions that allow you to manage everything from scheduling to compliance, and billing to accounting. The systems have a user-friendly and intuitive interface that can be easily mastered even by lay users. Plus, the vendors provide adequate support to help you deploy the application seamlessly into your operations with minimal disruption to your work and schedules.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT ATP

atp

ATP is the leading provider of aviation software and information services. ATP's innovative product line, including Flightdocs, Aviation Hub, ChronicX, and SpotLight, reduces operating costs, improves aircraft reliability, and supports technical knowledge sharing and collaboration in all aviation and aerospace industry sectors. ATP's products and services support more than 75,000 aircraft maintenance professionals worldwide. As a global company, ATP has more than 7,500 customers in 137 countries and partnerships with over 90 OEMs.

Featured Testimonials

“We use Flightdocs to make sure maintenance tracking is up-to-date. With our extensive fleet and multiple bases of operation, it's possible to miss an inspection item. With electronic tracking, we have simplified the process while providing to-the-minute accuracy and compliance.”

ALAIN VALLEJO
MAINTENANCE MANAGER, REVA AIR AMBULANCE

“I've gone from having to review logbooks for 27 airplanes every morning to looking at one electronic dashboard. With the dashboard, I can check the status of the fleet in a matter of minutes, and with the red-yellow-green alert system, see exactly where we are. Having our entire fleet on Flightdocs allows us to manage our fleet with efficiency.”

VAN WINKLE
DIRECTOR OF MAINTENANCE, WING AVIATION

“Flightdocs has provided us with a modern, easy-to-use platform for maintenance and inventory management. It's done very well for us thus far and we continue to find new ways to drive efficiency and ensure safety of our aircraft.”

JACOB SMITH
DIRECTOR OF MAINTENANCE, PATHFINDER AVIATION

“For management purposes, we really like the Maintenance Tracking Dashboard, which allows users to check the status of fleet or maintenance items and easy access to due list status indicators. I really like the daily updates feature as well that provides a quick review of all maintenance information that has been submitted.”

GREG HAMELINK
SR. MANAGER FLIGHT OPS & MAINTENANCE, STRYKER

ABOUT COMPONENT CONTROL

Component Control, the leading developer and provider of MRO and Logistics Software for the aviation industry, is based in San Diego, California. Its core product, Quantum Control, is a fully integrated business software solution. Quantum is designed to promote comprehensive and safe adherence to the complex FAA certification rules of compliance. It steers 'best practice' procedures to ensure both the maintenance of rigorous quality guidelines, and enables aviation repair and manufacturing businesses to optimize operational performance.

Featured Testimonials

“Quantum-ERP supports our ability to automate the tracking of our customers' hardware usage from order requisition to order fulfillment and provide meaningful analytic data which has greatly increased our value proposition. We are not seen as simply a hardware distributor but as a value added service provider. That's the partnership we want with our customers.”

KRISTA WILDERMUTH
DIRECTOR OF OPERATIONS, AIRCRAFT HARDWARE WEST

“One of our key business goals is to be the most customer-engaged MRO in the industry, and Quantum is ensuring that we stay close to our customers, while rapidly increasing the amount of orders we process. We use Quantum for both work orders and sales orders and across all of our product lines, from general aviation metal propellers all the way up to the modern composite systems we repair.”

DENNIS A. SANTARE
VICE PRESIDENT OF SALES AND MARKETING, AIRCRAFT PROPELLER SERVICE

“The combination of Quantum and StockMarket.aero provides accessibility of real-time data to sales from the shop floor and customer records and inventory, giving us the ability to efficiently deliver the best product to our customers while meeting our strategic operational goals.”

DAVID STROCKBINE
VICE PRESIDENT OF SALES AND LEASING, AVIOSERV

“With Quantum, EPCOR has operations focused software optimized specifically for running a LEAN aviation MRO environment. The ongoing successful use of Quantum at EPCOR has resulted in parent company AFI KLM E&M leveraging Quantum to automate surplus part sales and streamline corresponding background logistics.”

JOOST BOSMAN
QUANTUM PROGRAM MANAGER, EPCOR

ABOUT RUSADA

Rusada is a global aviation software provider established in 1987 and headquartered in Switzerland. With operations in the Middle East, Asia, Europe and the Americas, Rusada supports 100+ major customers with software that manages 2,000 fixed and rotary wing aircraft in over 40 countries. The company's ENVISION software is web-based and consists of 10 modules supported by a suite of mobile apps. It efficiently manages the complex functions of airworthiness, maintenance, and flight operations for aircraft operators, maintainers, and manufacturers across the industry.

Featured Testimonials

“We are delighted to have established a business partnership with Rusada while we are experiencing significant growth within our line of business. This end-to-end digital maintenance information platform will allow us to achieve operational efficiency as we grow, as well as continue to deliver high-quality service to our airline customers.”

PATRICK WONG
EXECUTIVE GENERAL MANAGER, LINE SERVICES, HAECO

“ENVISION was chosen for three key reasons: The ability to manage finances of multiple companies and countries within one system, competitive pricing and an easy-to-use interface. It is still early days, yet we are already beginning to see the benefits of upgrading our system.”

LILIK SUDARMANTO
GENERAL MANAGER (MAINTENANCE INFORMATION SYSTEM), MALINDO AIR

“The expansion of our MRO Services over the last several years has resulted in us inheriting numerous disconnected software solutions. We realized pretty quickly that to achieve the necessary levels of efficiency required for this program's success, we would need an intelligent and modern software solution to back it up. ENVISION's wide range of functionality and excellent track record made it the standout choice for our business. We look forward to working with Rusada to get the software up and running in our facilities over the coming months.”

BILLY ERNST
MRO SENIOR MANAGER, SPIRIT AEROSYSTEMS

“We have experienced significant levels of growth over the last five years and as such needed to upgrade our maintenance information system to manage our larger fleet and increased MRO activities. We were looking for an advanced and modern solution that was cost-effective at the same time. In ENVISION we found one software that could do it all and be the foundation for our continued growth.”

ABOUT SWISS AVIATIONSOFTWARE

Swiss AviationSoftware (Swiss-AS) is one of the leading suppliers of aviation maintenance, repair, and operations management software (MRO software) worldwide. Combining almost 30 years of innovation and excellence in the area of IT/MRO, Swiss-AS has become a fixture in the MRO software market and the industry-leading maintenance management system in Europe and beyond. Swiss-AS has developed the comprehensive, fully-integrated software package AMOS, which successfully manages the maintenance, engineering and logistics requirements of modern airlines and MRO providers.

Featured Testimonials

“Avianca aims to [provide] operational excellence as a differentiating element of its competitive strategy by optimizing processes and using the best technology available. AMOS is a tool that has streamlined the use of resources and time in the maintenance execution of the entire fleet of Avianca Holding.”

AVIANCA

“AMOS is a strategic tool for our company. It's a great improvement that will allow us to be more efficient in our maintenance management. We will be able to achieve important savings as a result of a better performance in the area.”

AEROLÍNEAS ARGENTINAS

“With AMOS we found the perfect solution to cover our needs as an OEM. From the quotation to the contract, the construction to the bill, the whole process can be clearly followed. Also all our maintenance, development and material management processes can be included. Furthermore we have with Swiss-AS a partner at our side who is able and willing to adapt some features to cover the special needs of a manufacturer.”

UMS SKELDAR

“With the AMOS system, the maintenance, engineering as well as logistics functions at the MRO can be integrated seamlessly with the maintenance management. We can also comply with the rigorous requirements that govern aviation maintenance regulations at the parent company EVA Airways, along with our other airline customers. We are looking forward to experience the operational effectiveness and efficiencies delivered by AMOS.”

ABOUT TRAXXALL

TRAXXALL is an intuitive and customizable aircraft maintenance tracking and inventory management system focused on data accuracy. It reduces aircraft downtimes, increases operational efficiencies and protects aircraft resale values. TRAXXALL was designed and built by an unparalleled team of aviation maintenance experts and is supported by the industry's most-experienced maintenance analysts. Headquartered in Montreal, Canada, TRAXXALL has offices in Jacksonville, FL; Denver, CO; London, UK and Marseilles, France.

Featured Testimonials

“TRAXXALL is much more user-friendly and adds more value than CAMP. It was easy to implement, it's easy-to-use and it's well-supported. Having our entire fleet under one maintenance tracking system creates significant efficiency gains, particularly considering its size and diversity.”

JORGE CAMPILLO
PRESIDENT, CHIEF PILOT AND FOUNDER, SEARCA VUELOS CHARTER

“I would certainly recommend TRAXXALL to other flight departments. And, I believe that the benefits would scale nicely with a larger fleet. If I had to choose just one reason, it would have to be better time management. TRAXXALL is well-designed and well-supported. Among other things, it makes aircraft maintenance easier and that increases our department's efficiency and enables me to show our value to our senior management. As I like to say, my job is to keep the people in the back of the aircraft happy. TRAXXALL helps me do that!”

JEFF MICHLOWITZ
DIRECTOR OF AVIATION, COOPER/T. SMITH

“TRAXXALL has been extremely beneficial for us. It really simplifies our day-to-day maintenance tracking. For example, now, it's easy for flight crews to document their feedback and report any issues in an efficient manner. Also, we are now easily able to track our costs on an hourly through annual basis – previously, that was not the case. TRAXXALL makes our operations considerably simpler and safer. I'd like to see all our chapters nationwide using it.”

JASON "MAC" MCNEIL
MAINTENANCE OFFICER, COMMEMORATIVE AIR FORCE

“TRAXXALL is easy to use, the navigation is intuitive, the customer support is excellent, and it's very accurate. I think that operators of larger fleets stand to benefit even more greatly from the customer support because TRAXXALL's analysts are highly responsive and have the knowledge to walk you through complex situations and offer meaningful help when you really need it.”

Featured Testimonials

“Vistair's SafetyNet service has boosted our safety compliance and reduced our costs, whilst allowing the airline to maintain safety oversight of our growing operation.”

STU KEENAN
MILITARY AVIATION AUTHORITY

“We really appreciate the working relationship that has been built between our main operators and Vistair. The seamless process has instilled great confidence and we envisage a major improvement with the management of Iberia manuals going forward.”

PEDRO GOMEZ
DIRECTOR OF OPERATION, IBERIA

“The most obvious immediate benefit of SafetyNet was its enhanced management interface with the data received, enabling us to integrate safety management data into the business in a far more meaningful way than we ever had in the past.”

CONOR NOLAN
SAFETY MANAGER, AER LINGUS

“In a nutshell, we set out to select the world's best provider of e-manuals for the world's best airline. Vistair was the clear choice, as they have a real understanding of airlines and are constantly maximising the technology. They even deliver added value for our aircraft, supplementing Boeing and Airbus' software tools.”

ALAN STEALEY
VICE PRESIDENT OF FLIGHT OPERATIONS, EMIRATES

Featured Testimonials

“On behalf of SES, we are truly impressed and satisfied with the level of service and expertise AMS team continues to provide. Thank you and keep up the good work. I look forward to many future partnerships between us.”

KEN CROSSLEY
PROGRAM MANAGER, SCIENCE AND ENGINEERING SERVICES, LLC

“The new Aircraft Maintenance Manager release v21.0 is the best and most solid product we have seen from AMS to date! The new interface is clean and more easy to use. The new features that let us track malfunction codes and maintenance actions taken are exactly what we need to find our most troublesome parts. Under the hood, the MySQL engine update has greatly improved our ability to maintain our database. Even the installation process is streamlined and improved from previous versions. The AMS team did a terrific job on this update.”

BLAISE BURGMAN
PRESIDENT, PANOSTAT, LLC.

“We operate 160 aircraft over multiple bases of operations. AMS has allowed us to have complete maintenance and logistics information at all these locations just by turning on a laptop.”

DOUG LADOUCEUR
DIRECTOR OF TECHNICAL AIRWORTHINESS AND QUALITY ASSURANCE, DISCOVERY AIR

“We tried the program with the new updates. They are very good. They added details that make the program even more efficient. Sgt Lebeau and I are very happy with this upgrade. Once again, a very good purchase that continuously self-improves.”

“At Omni Helicopters International, airworthiness and safety are top priorities, which is why we trust in WinAir to accurately track and manage our maintenance data to ensure that our aircraft are always ready for the next mission. The software provides us with the ability to manage maintenance and inventory control with ease in an integrated system that focuses on regulatory compliance. As we broaden the scope of our services and expand our global operation into new regions, we are confident that with WinAir, we can continue to boost operational efficiency throughout all facets of our business.”

GRANT IRELAND
DIRECTOR, GLOBAL FLEET MANAGEMENT AND ENGINEERING, OMNI HELICOPTERS INTERNATIONAL

“WinAir Version 7 goes above and beyond our requirements for powerful browser-based software, with comprehensive reporting functionality, and the ability to manage the complex variables associated with helicopter operations.”

HARVEY WOLFE
DIRECTOR OF MAINTENANCE, DELTA HELICOPTERS LTD.

“When we were researching aircraft maintenance software, we spoke with several colleagues in the industry, and time and time again, we kept hearing praise for WinAir. Once we demoed the product, we knew that WinAir was easy-to-use aviation management software that was powerful, versatile, and dependable. The fact the software follows a sequential workflow that is based on actual maintenance work steps speaks volumes about the company's area of specialization.”

JOEL ROBERT
AMO PLANNING AND QA COORDINATOR, SAULT COLLEGE SCHOOL OF AVIATION

“We reviewed multiple products on the market, but WinAir's browser-based software stood out as the ideal solution for our MRO. With WinAir Version 7, we can manage engine maintenance using a template approach, which accelerates processes and saves us valuable time while simultaneously ensuring data authenticity and assisting with maintaining compliance. We are pleased with the results of our remote software implementation and are excited to grow our business with WinAir.”

“Amazing service from the Fly Online Tools group. I have been using the Quantum MX package for a few months. It is easy to operate, everything is stored in the cloud so it's easier to have everything on any computer. Most amazingly, every time I have called for help, or to fix a bug in the system the problem is resolved in minutes, not days or even hours. I cannot remember any company that have resolved issues consistently just moments after discussing them.”

KEVIN KANE
OWNER, RX AVIATION

“Just what we were looking for. This has been the perfect product for our in house maintenance operation. Very user friendly and moldable to each operation. Best of all, customer service has been outstanding. Our questions are answered the same day, and solutions to our issues have come rapidly. Great Product and Service!”

PATRICK TRAUL
VICE PRESIDENT, VAERUS AVIATION

“QMX has allowed our company to streamline the work order process and allow our technicians to focus more on aircraft and less on paperwork. QMX has eliminated data duplication with its robust parts system and seamless work order generation. The QMX staff has responded quickly to our specific needs and have provided superior customer support. QMX is modern, fast, easy to use and the price couldn't be beat, we highly recommend QMX.”
