Benefits Administration Software Category

Benefits administration software aids companies to plan and manage staff benefits packages and comply with government rules. Benefits administration solutions are leveraged to manage staff benefits like stock options and insurance plans, and enable open enrollment periods via an admin dashboard. Enterprises can also utilize these applications to see and adjust staff benefits packages. The tools typically offer staff portals and self-service features to allow employees to see, update, and manage personal documents and information.

HR departments commonly use benefits administration software to manage benefits plans and inspire healthy habits among staff. The platform helps organizations pinpoint the most valuable benefits to their employees and minimize expenses. It can also assist enterprises to comply with local and federal regulations such as the Health Insurance Portability and Accountability Act (HIPAA) and the Affordable Care Act (ACA).

ABOUT BENETRAC

BeneTrac has emerged as the leader in the online benefits administration field. Now, after almost two decades of improvements, they've expanded their cloud-based solutions to include comprehensive Human Capital Management.

Featured Testimonials

“As a multi-state employer of over 400 employees at seven locations, we have saved a huge amount of time with BeneTrac. For open enrollment alone, BeneTrac has helped us to greatly reduce administration by up to three to four days per market in interfacing with payroll, carriers, and billing. It also regularly saves us time on reviewing bills and charges, and gives employees a great audit trail to see exactly what they enrolled in, who was enrolled, when it was approved, when it went to the carrier, etc. As Corporate Controller and Director of HR, I rely on tools like BeneTrac to help me make the most of my time.”

JASMIN DORISMOND
CORPORATE CONTROLLER AND DIRECTOR OF HUMAN RESOURCES, LOTUS COMMUNICATIONS CORP.

“BeneTrac has been a big time saver for us in managing and automating benefits information online. Just one example is that in the past I had to log into two or three individual websites to change an employee address, plus send an email or two, and check the websites again to make sure the change was approved. Now, with BeneTrac, I can make the change one time and know it will be done correctly. The efficiency of doing everything in one place has greatly reduced time and the amount of paper we use.”

BARBARA E. WILSON
HUMAN RESOURCES MANAGER, BLAKELY SOKOLOFF TAYLOR & ZAFMAN LLP

“Before BeneTrac, we had to deal with manually filling out documents, faxing papers to the carriers and tracking the process along the way. It was extremely tactical and paper intensive. Now that we've been using BeneTrac for the last few years, I love the automation, self-service, accuracy and efficiency BeneTrac provides.”

LAURA MARTINEZ
SENIOR MANAGER OF GLOBAL HR, EFFICIENT FRONTIER

“GlobalEnglish has used BeneTrac for over two years and we're very pleased with the service. It has helped the GlobalEnglish Human Resources group significantly reduce the use of paper forms for new employees, changes and terminations. The direct electronic feeds to our insurance carriers ensure accuracy of the information. Any updates to our website are taken care of very quickly by our BeneTrac team.”

“VBA is the best tool in my TPA tool box. The application is easy to use for all departments from claims processing to customer service. What I personally like about it is its adaptability. I administer a Medicaid HMO and change is inevitable. I like the fact that if I need to capture a new data value I can easily create a field for it.”

“With VBA, we were given a software package that not only met our functional and technical requirements, but VBA IT Services also allowed us to reconfigure our own internal IT resources into experts on business data. This combination has made us highly scalable and more capable of handling marketing demands.”

JIM FARLEY
PRESIDENT AND CEO, J.P. FARLEY

“We've used the VBA system exclusively and for all of the CHIP and STAR plans we have administered - we've experienced great results. The eligibility system allows for multiple eligibility segments which is very important in the Medicaid world. All of our staff enjoy working with the system as does our client base. We allow some clients limited access to the system for their own health plans. The VBA team has always been very responsive to our needs and has assisted us with any client needs that were presented to us. I would not hesitate to recommend VBA for claims administration needs.”
