Low-Code Development Platforms Category
Low-Code Development Platforms Category

Low-code development platforms enable companies to create software quickly without the need for deep coding expertise. The solutions offer base-level code, integrations, and scripts to empower businesses to prototype, build, and scale applications without needing to develop complex infrastructures. Even non-developers can use these programs to build applications rapidly with customized functionality and workflows.

Low-code development platforms are different from no-code solutions because they permit more advanced functionality with customized code instead of a drag-n-drop interface. However, they are a step below fully integrated development tools because they do not offer features to build complete apps from scratch. In short, low-code development platforms integrate with APIs, web services, and databases to link data, enable developers to customize source code and HTML markup, and produce source code as a foundation for customization.
Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

**CONTENT SCORE**
- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

**MARKET PRESENCE SCORE**
- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

**COMPANY SCORE**
- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

**Award Levels**

**MARKET LEADER**
Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

**TOP PERFORMER**
Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer’s products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

**RISING STAR**
Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT APPIAN

The Appian Platform makes building, launching, using, and changing powerful enterprise apps easy. Create easy-to-use, natively mobile applications. Unify all of your processes, data, systems, and apps. Build once and deploy everywhere. Be better at what makes your organization stand out. And do it all with one integrated platform that requires virtually no coding.

285
Total Customer References

VIEW ALL REFERENCES

Featured Testimonials

“With Appian our Partners can make each customer interaction more effective and productive, access the right data, and the whole process is visible at every stage of the customer journey. This supports our Omni-Channel aspirations and is all about: smarter decisions, faster action, and more transparency to deliver the best customer experience. Appian has also enabled us to access customer information on a mobile device.”

MARK FISHMAN
PROJECT MANAGER, RETAIL OPERATIONS DEVELOPMENT, JOHN LEWIS

“During these challenging times, KPMG and Appian share the same vision on helping employees safely reenter the workplace. Appian’s low-code automation can help companies rapidly leverage digital innovation to keep up with evolving business models, all while trying to keep their employees safe.”

MARCUS MURPH
PRINCIPAL, KPMG LLP

“Unlimited bots for a fixed price is a compelling proposition by itself. That proposition combined with Appian’s low-code automation platform is the reason we are excited about Appian RPA.”

THYSSENKRUPP

“We chose Appian as a strategic platform for cloud-based digital transformation because it allows us to be agile in how business and IT respond to the changing environment. The mix of Business Process Management (BPM) and low-code development supports our focus on process monitoring and continuous improvement, collaboration within and outside of our company, and visibility into our records across applications.”

SANDRO SALVIGNI
IT & DIGITAL TRANSFORMATION MANAGER, AMADORI
Creatio is a leading low-code, process automation, and CRM company. Today, the company serves thousands of customers worldwide. Creatio’s agile CRM platform enables midsize and large enterprises to accelerate sales, marketing, service, and operations. Creatio embraces the “Everyone a Developer” concept for a seamless Business-IT alignment. Creatio has been highly recognized by key industry analysts, receiving multiple awards.

**Featured Testimonials**

“A good CRM solution must be capable of creating processes, configuring processes without doing any coding. This is done very well by Creatio.”

**ELMAR STENZEL**
ASSOCIATE DIRECTOR AND HEAD OF CRM COMMUNITY, SOPRA STERIA

“Creatio has such a complete solution that you don’t have to spend time building stuff out. If you look at the competition, they’re piecemeal. Creatio has a complete solution that has been pre-built and that just makes it so much faster to get the customer up and running in literally weeks vs months. Then we can come back, as they adopt and use the product, we can turn on additional features to let them grow and accelerate throughout their entire organization.”

**SAM BIARDO**
FOUNDER AND CEO, TECHNOLOGY ADVISORS

“Having a low-code CRM tool as a salesbook and a single source of data allowed us to provide our salespeople with top-notch solutions to streamline our sales process.”

**TIM RYAN**
REGIONAL SALES MANAGER, HERSHEY’S ICE CREAM

“At DECTA, we choose our partners wisely. We chose Creatio for its advanced solutions that complimented our business specifics. So far, everything has been fast and easy. The low-code platform is flexible; we can solve and improve various sophisticated processes effortlessly, which in turn has increased the efficiency of our business processes. And last but not least, we cannot forget about the great customer service that we receive.”

**MARKS ANDREJEVS**
CHIEF EXECUTIVE OFFICER, DECTA

ABOUT HEROKU

Heroku (pronounced her-OH-koo) is a cloud application platform – a new way of building and deploying web apps. Heroku’s service lets app developers spend 100% of their time on their application code, not managing servers, deployment, ongoing operations, or scaling. Though Heroku was acquired by Salesforce in 2011, it continues to operate independently from their SOMA office in San Francisco.

Featured Testimonials

“With Heroku CI, we can use the same service to test, deploy, and deliver code. When combined with Heroku Pipelines, Heroku CI lets us easily manage all of our CI/CD automation across multiple apps and environments.”

Rik Lomas
Founder and CEO, SuperHi

“We love that Heroku allows us to package up a solution for our clients without the need for a web app administrator. Once we deliver the code, it just works ‘out of the box’. ”

Brendan Eamer
Software Architect, Traction Labs

“We with Heroku, our projects don’t need a DevOps engineer or a release engineer. A single developer can manage the entire app lifecycle, from writing code to deploying it and then monitoring performance and managing scale.”

Joe Leo
Founder, Def Method

“The ability to deploy different types of apps in different languages is a huge win for us. Heroku Buildpacks make it easy to deploy apps without having to set up the underlying infrastructure on the virtual machine. We love that.”

Anthony Eden
Founder, DNSimple
ABOUT LANSA

Lansa
An Idera, Inc. Company

The leader in low-code and modernization for IBM i and cross-platform enterprises. Whether it's powering most of Vegas' vacation bookings, driving one of the largest automobile manufacturers' supplier fulfillment processes, or empowering a large ice cream company to reach its customers outside of the store—Lansa powers the applications behind virtually every industry. With 8,000+ customers worldwide, Lansa helps enterprises modernize and streamline application development so they can keep doing what they were built to do: exceed customer expectations.

369
Total Customer References

VIEW ALL REFERENCES

Featured Testimonials

“With Lansa we can create green-screen, Windows, XML and browser applications from a single set of source code. Everything we write is 100-percent Lansa, so now we are not locked into a specific platform or database.”

GABRIEL SGOLOMBIS
DIRECTOR OF SYSTEMS ARCHITECTURE, TERMINIX

“Lansa allows us to define and enforce solid development standards and produce reliable and modularized code. It lets us do the straightforward and repetitive tasks quickly and reliably, yet it has the power and flexibility to handle complex and unique applications.”

ROLAND DEVORE
SENIOR PROJECT LEADER, DEMCO

“What we like best about Lansa is that you work with an easy 4GL and Lansa generates code that is optimized for the deployment platform you choose. You are not locked into any platform. Our operations are currently supported by iSeries, but if we started a similar operation in another country and wanted that operation to run on NT, we don't have to redevelop. We just take another deployment option.”

TOM ROSENKRANS
SENIOR PROGRAM MANAGER, DIVERSIFIED

“With RAMP, we can still use the underlying business logic or code in our current database files, yet, within the Lansa framework, we can also run the new code. So, we now have an application that's running new Lansa code and legacy code within the same interface.”

TERRY OSBURN
CSS DEVELOPMENT MANAGER, CONTROL SYSTEMS SOFTWARE LLC

Total Customer References

Featured Testimonials

“We found that Magic xpi provided us with a reliable, robust and agile solution that is easy to support and scale up. The ease of use within Magic xpi’s code-free environment made the complexity of our business process integration easier to architect and implement.”

Soo-Jin Behrstock
Chief Information Officer, Koos Manufacturing

“Our selection of Magic xpi Integration Platform represents our confidence in Magic’s promise of smarter technology for business process integration across multiple enterprise systems. Magic’s collaborative working style enhances the value of their technology, making them an ideal provider for integrating our ERP, CRM, PLM and SharePoint systems.”

David Hsieh
Senior Director of Global Information Systems, Christie

“To replace our previous ETL tool, we were looking for an easy-to-use, stable and cost-effective EAI tool that would be responsive to our growing application integration needs. Magic xpi Integration Platform’s high productivity and reliability proved to be perfectly suited to our requirements.”

Thierry Serra
IT FO/CRM Application Domain Leader for Europe, Suntory Beverage & Food Europe

“This code-free, drag and drop middleware allows a much faster integration lifecycle. We love the visual data mapper and the prebuilt adapters. Excellent reliability and easy maintenance.”

Beth Koehl

ABOUT MENDIX

The Mendix App Platform enables companies to quickly build web and mobile apps, integrate them seamlessly, deploy them instantly, manage them centrally, and maintain them effortlessly on an ongoing basis. When companies need apps that solve real business problems and generate real returns, they now use Mendix.

Featured Testimonials

“Thanks to Mendix’s low development costs, ease of deployment and project speed, the delivery of entirely new systems has become a true alternative to our traditional development stack.”

ROD WILLMOTT
FAST TRACK (INNOVATION) DIRECTOR, LV= INSURANCE

“It’s very easy for our internal developers to build, deploy and update applications in Mendix. We were able to design our application and break it into modules for fast, simultaneous development. Building the same application using traditional methods would have taken a lot longer and cost a lot more.”

MARC FORREST
SYSTEMS MANAGER, TERACO

“The Mendix platform offers us speed and agility as well as a lower cost/risk exposure versus traditional code-based application development. We can build, deploy and manage solutions ourselves from within our business team.”

JANET KEELING
GLOBAL HEAD OF ASSOCIATES CUSTOMER SERVICE, TNT BUSINESS SOLUTIONS

“The major advantage of Mendix is that a new application can be developed at top speed, by making use of visual models instead of code. As a result, the business has insight into the application logic and structure during the process, and is (and feels) involved in the realization.”

FALL 2021 CUSTOMER SUCCESS REPORT
Low-Code Development Platforms Category  11
ABOUT MICROSOFT POWER APPS

Power Apps is a service that lets you build business apps that run in a browser or on a phone or tablet, and no coding experience is required. Power Apps combines visual drag-and-drop concepts from PowerPoint with Excel-like expressions for logic and working with data. If you’re new to app building, Power Apps provides templates and sample data that you can use to quickly build an app, and then you can customize the app to better suit your needs. With some experience and creativity, you’ll soon be developing your own apps from scratch. If you’re a seasoned developer, you can take advantage of the advanced functionality and truly innovate. If you can imagine it, you can build it.

Featured Testimonials

“With the app created in PowerApps, we’re getting more information, more easily. We don’t waste a lot of time. We know exactly where our work is every day. We know what happened in the last month, and what may happen in the future. It’s a very effective tool.”

AHMED NAIF ALI
MARKETING SUPERVISOR, HAWKARY PHARMACEUTICALS COMPANY

“With its cloud-based business intelligence tools, such as PowerApps, Microsoft has hit it out of the park. I use these tools to create apps that address business needs on the fly.”

MIKE MCCULLOUGH
PROJECT CONTROLS MANAGER, AMTRAK

“When Power Apps came out, we dove in headfirst to take new, inventive solutions to clients. And we could easily build the front end to an app so that users could see how the tool would work before we connected it to the back end. We used that same agile approach to create our Workspace Scheduler app in a matter of weeks.”

CARMEL WYNKOOP
PARTNER – TECHNOLOGY CONSULTING, ARMANINO LLP

“We see a ton of potential with Power Apps and Microsoft Power Platform as a whole, because of how easy it is to create tools that are user friendly, connect to multiple data sources, and work on mobile devices.”

JARID SIEGEL
SENIOR DIRECTOR OF ANALYTICS AND APPLICATIONS, PARTNERS IN HEALTH

Thousands of customers worldwide trust OutSystems, the number one low-code platform for rapid application development. Engineers with an obsessive attention to detail crafted every aspect of the OutSystems platform to help organizations build enterprise-grade apps and transform their business faster. OutSystems is the only solution that combines the power of low-code development with advanced mobile capabilities, enabling visual development of entire application portfolios that easily integrate with existing systems.
ABOUT PRONTOFORMS

ProntoForms is the leader in field-first low-code application platforms for enterprise. The Company’s solution is used to create apps and forms to collect and analyze field data with smartphones and tablets – either as a standalone solution or as a mobile front-end to enterprise systems of record. The Company’s 100,000+ subscribers harness the intuitive, secure, and scalable solution to increase productivity, improve quality of service, and mitigate risks. The Company is based in Ottawa, Canada, and trades on the TSXV under the symbol PFM. ProntoForms is the registered trademark of ProntoForms Inc., a wholly-owned subsidiary of ProntoForms Corporation.

Featured Testimonials

“ProntoForms was extremely easy to deploy, and worked right away with our Android devices. It was also simple to tie to our backend systems.”

DAVE HERBERT
MECHANICAL IT MANAGER, GATEWAY MECHANICAL

“Switching from paper forms to mobile forms on tablets was a scary idea for some of our technicians. But they all love ProntoForms. They find it intuitive and easy to use - even the guys who had never used a tablet before!”

STEPHANE TURPIN
NATIONAL MANAGER, CARE SERVICE, WALTER SURFACE TECHNOLOGIES

“Rogers and ProntoForms filled a gap in the flow of information between our office and field staff. We currently deploy ProntoForms on smartphones and tablets in the field. We pre-fill some of the forms and send them directly to our workers’ mobile devices, saving them time at the site.”

BRENT ACKERMAN
IT MANAGER, A-1 CEMENT CONTRACTORS

“When I hit the submit button on the orientation form, it automatically sends a copy to the home site file as well as a copy to the purchasers, the sales consultant, the field technician, and the warranty coordinator. It also produces a confirmation tour form for my next meeting.”

ABOUT QUICKBASE

Quickbase is the ultimate low-code app development platform — empowering both business and IT to solve problems faster and drive huge ROI compared to traditional software development. More than half of the Fortune 100 relies on Quickbase to save time, save money, and improve team productivity.

244 Total Customer References

FEATURED TESTIMONIALS

“QuickBase is a natural fit in our evolving IT approach. QuickBase allows citizen developers to create database-driven apps to replace spreadsheet and paper processes without contributing to the IT backlog. But it has also let IT leverage its limited resources to do more good for the organization.”

Paul Carmouche
IT Director, Helm Corporation

“Previously, most of our time was spent on application development, but now Quickbase has saved at least 50 percent of this time and allowed us to focus on other crucial areas such as understanding requirements and training users. Our users like rich functionality in their applications such as pre-filled forms and automatic e-mail notifications. Quickbase proves to be an ideal solution for this since we can make Quickbase applications simple or complex according to users’ requirements.”

Bhaskar Velivelu
Senior Application Specialist, Georgia Department of Administrative Services

“Quickbase gave us a way [to] consolidate data and standardize processes with custom apps we could build ourselves.”

Roger Landis
Controller, Paradise Energy Solutions

“We needed a more consistent way to report on key performance indicators [KPIs] across our services. We chose Quickbase for its value, ease of app creation and customization, long range forecast, and technology roadmap. We felt we could count on it to grow with us as we developed our platform.”

Bruce Squibb
Director of IFM Program Management, Able Services

ABOUT SKUID

Stock applications rarely match the unique workflows, processes and roles of your people, which kills software adoption and speed of innovation. Until now, user experience customization has cost far too much money and time. Skuid provides a fundamentally new model for creating digital experiences with little to no code required, combining Adaptive Data™, Adaptive Logic™, and Adaptive UI™ into a revolutionary Adaptive DX™ toolkit. Thousands of builders have used Skuid to create custom digital experiences for millions of users across dozens of countries, dramatically increasing adoption and innovation—up to 10 times faster.

Featured Testimonials

“”As we built out our first Skuid application for our marketing team, we saw the power to solve other challenges we’re experiencing across our organization. We’ve been thrilled with the accessibility and speed of user adoption. We intend to expand its use outside of our marketing team to further streamline business operations as we defend against anti-Semitism and protect human rights.””

DANIEL WIENER
DIRECTOR OF SOFTWARE APPLICATIONS, ANTI-DEFAMATION LEAGUE

“I really can’t speak highly enough about this app. I can say a few things, though words truly aren’t enough to describe how life changing this app is, and I know I’ve only scratched the surface. In less than 3 hours, I was able to teach myself how to create tab pages, adding things like row actions, logic based rules, filters, etc. Only a year ago we paid a partner thousands of dollars to develop basically a limited version of what I just created. When my Salesforce.com Champions (our governance committee) saw the Skuid demo, we took a chatter poll vote on whether we get it or not, and it was an overwhelming “We needed it like yesterday!””

KRYS TAL CARTER
VICE PRESIDENT OF LEGAL MANAGEMENT CONSULTING, DUFF & PHELPS

“”This app has changed the way our development team works. I am no developer, more of a high-end admin, and even I have been able to create countless pages and even whole applications through the Skuid interface. The ability to quickly and efficiently create or modify pages has saved us hundreds of man hours. We have made a decision as a company that EVERY user will have a Skuid license. We couldn’t be happier with the level of customer service provided. If we have a question, our rep generally has it answered (if not solved!) in an hour or less. Thanks for the phenomenal App and all of the support! Here is our 6th star.””

BRAD MCCLANAHAN
SALESFORCE TRAINING & SUPPORT, LIVE OAK BANK

“As a manager, my favorite part about the new Skuid user interface is that it makes managing my business much easier by consolidating all the data into one view, enabling me to hold my team much more accountable.””

Featured Testimonials

“With Alpha Anywhere, we were able to easily and quickly build an enterprise-level, cloud-based medical application that interacts with all major IT medical systems. Alpha Anywhere offers us the flexibility, speed of development and security that we need.”

KEN GREENBERG
PRESIDENT AND CO-FOUNDER, PATIENT INNOVATIONS

“Alpha provides an API and an easy way to integrate mobile payments into our customers’ apps. Alpha makes the front-end work easy and flexible, and Worldpay is the global payment provider that backs the infrastructure. It’s an ideal relationship.”

HUNTER MENTON
VICE PRESIDENT, WORLDPAY

“It would have taken a tremendous amount of time if we had to write the app multiple times for different platforms. With Alpha Anywhere, we could write the app once and then deploy it to iOS, Android, and to Windows Phone in the future.”

LEE HADDOX
IT MANAGER, KNECTSOFT

“Alpha Anywhere is ideal for building mobile apps with a common code base so you only have to write code once and can deploy it to different operating systems. What was built with Alpha Anywhere matched our precise specifications, was developed quickly, and cost ten times less than if we had developed separate native apps.”

KNUT HORNE
CHIEF TECHNOLOGY OFFICER, WORLD MEDICAL CARD

About AppSheet

AppSheet is the intelligent no-code app creator. Create powerful mobile apps from your data directly from your cloud data (Excel on Dropbox/Box/Office 365, SQL, Salesforce, SmartSheet, etc.), customize your apps, and deploy. Whether you’re in sales, marketing, human resources, field service, operations, or simply need an app for project management or customer engagement, you can create your own data-driven mobile apps quickly.

Featured Testimonials

“Using AppSheet, we were able to design and launch a full end-to-end app in just two days. When we decided that it made more sense to have two versions of our app, it took us less than an hour to deploy the second one. And now, we can make changes to either app immediately to accommodate new features or improve the user experience in a well-managed deployment. Altogether, it’s a fantastic platform — and perfect for any civic organization that is looking to improve information management and resource distribution.”

MICHAEL TERRELONGE
ROTARY INTERNATIONAL

“AppSheet is so robust that it can support unique business solutions for almost any industry vertical. They make the platform so intuitive that anyone can learn it, as well as allowing you to own your own data and app definitions.”

STEFAN QUARTEMONT
GREASE MOBILE

“The development of the app has gone quite well for the users [maintenance team], which has little experience working without paper forms. [With the paper method], the user must translate the data manually into computer programs later. Best of all, AppSheet lets you create an online table where you see what’s happening in real time. [The tables] are easy to download and process further. Much time will be saved when the data is already in the tables. You can also supplement the table while it is online for more data to be collected.”

JANNE WESTIN
CAD TECHNICIAN, KRAMBO BOSTADS AB

“AppSheet is allowing us to rapidly develop mobile apps customized to provide a service or interaction that satisfies a need within our school. I love that we are able to develop and manage the app ourselves without relying on an outside company or programmer to design or update the functionality and content.”

PAUL CARPENTER
TECHNOLOGY INTEGRATIONIST, ANGLO-AMERICAN SCHOOL OF MOSCOW

ABOUT AURAQUANTIC

AuraQuantic is a digital platform designed for business users to easily and rapidly build unlimited processes and applications to automate end-to-end operations, reducing costs and optimizing productivity. It combines the sophistication of iBPMS (Intelligent Business Process Management Suite) for process automation with integration, innovation and intuitive design environments for you to easily optimize and transform business operations with end-to-end automation. Turn your ideas into applications with our easy-to-use Digital Platform and accelerate your digital transformation.

Featured Testimonials

“Thanks to the low-code modality, collaboration and understanding between the business team and central IT is a success, along with agility in development and continuous improvement. We are delighted with the results of our digital transformation, now we have our processes integrated with AuraQuantic. We manage everything on the AuraQuantic Digital Platform.”

LEONARDO HENAO RENDÓN
VICE PRESIDENT OF OPERATIONS, INFOTIC S.A.

“The transition to remote work was effortless with AuraQuantic. The tool’s low-code features and agility empowered us to rapidly adapt to the changing business world while ensuring efficiency and maintaining our competitive edge.”

SANTIAGO F. ESPINEL
CHIEF EXECUTIVE OFFICER, ATIS KETCHUM

“Thanks to the partner who has supported us in this project, we have achieved visibility and traceability of each of the processes implemented in the AuraQuantic platform, improved performance and optimized our processes. The platform involves various areas of the company; a functional process where each individual has specific responsibilities and at the same time, is part of a unique process, which facilitates access to the necessary information.”

DIANA LORENA ZAPATA RODRÍGUEZ
HEAD OF INFRASTRUCTURE – ADMIN MANAGEMENT, FUNAT

“Thanks to AuraQuantic’s special features that include many ready-to-use functionalities, and the fact that it requires no programming to implement even the most complex processes, Gestão Inovadora managed to automate 19 processes in just 60 days, in the areas of Finance, Accounting, HR, IT and Purchasing.”

ABOUT BETTY BLOCKS

Betty Blocks is all about empowering a new generation of developers and breaking the boundaries of technology for business innovation. We support citizen developers, help organizations innovate, and challenge assumptions of what a no-code platform can achieve. Build complex enterprise-grade applications: surprisingly easy, fast and fun. From mobile apps to (customer) portals to back office management and everything in between. The Betty Blocks platform’s ease of use supports every size or complexity of your app. 100% in the cloud. 100% no-code. 100% innovation-driven.

Featured Testimonials

“We chose Betty Blocks because of the flexibility of the platform. The business application easily grows along with our innovative taxi company.”
KOEN BEKKERING
FOUNDER, DRIVE UGO

“On the Betty Blocks platform we developed an application with which the front end and back end are integrated. Information from various sources is now effectively made transparent.”
VICTOR KÜPPERS
ZELF

“Betty Blocks’ high level of involvement and personal contact made it a great collaboration. We saved a lot of time thanks to efficient communication and building upon the existing application, which made the process very fast.”
MIJN ACTIEF
ACTIEF WERKT

“Within 5 months the application was ready to start the pilot. The no-code approach to development has saved us a considerable amount of time and operational costs. It has allowed us to communicate better with our customers. In addition, the platform offers us the opportunity to structurally respond to changes within the business.”

ABOUT BIZAGI

Bizagi helps organizations to transform into digital businesses. Its process automation platform connects people, applications, devices and information to deliver the engaging experience that today’s customers demand. Fueled by a community of almost 1 million users, Bizagi powers enterprises worldwide including Adidas, BAE Systems, Kaiser Permanente and Old Mutual.

205 Total Customer References

Featured Testimonials

“I would recommend Bizagi because it is an easy-to-use, agile transformation tool. The low-code platform focuses on process modelling and business requirements, rather than in technical design.”

PAULA GRILLO
PROJECT MANAGER, EDP

“Bizagi allows us to implement more complex processes, interpreting really complex data input structures for users, but with a low-code approach. What’s important to us is that we enable our process analysts to work at a very high level, especially in the area of workflow implementation. They can simply be faster with very little technology expertise.”

STEFAN WENZEL
FORMER VP CENTER OF DIGITIZATION, DEUTSCHE POST DHL GROUP

“One thing that I love in Bizagi is it’s low code approach, but if you need, you can code. In some parts we have to cope with complexity and Bizagi has the tools to cope with the complexity as well.”

CARLOS SÉRGIO
PROJECT DIRECTOR, SEFAZ

“Bizagi Process Modeler is the best I have come across. It’s free, easy to learn and comes with a great program of regular updates and enhancements. Thanks Bizagi.”

“The [Claris] Platform was simple and affordable. I didn’t have to learn a new coding language to build a custom app that would work seamlessly across the iPhone, Web, Mac, and eventually Android devices.”

STEPH COURDIN
ALS NEVER SURRENDER FOUNDATION

“The custom [Claris] app integrates easily with Salesforce and lets us present business data in ways that aren’t possible in Salesforce alone. And, to save money, we were able to complete the integration without any internal or external IT resources.”

DARWIN STEPHENSON
SENIOR VICE PRESIDENT, SALES AND ACCOUNT MANAGEMENT, INGRAM MICRO

“Claris FileMaker has been a very useful business tool over many years, dating back to 1987. It’s an agile, low-code platform that’s user-friendly and scalable, enabling our business to grow in any direction required.”

MICHAEL WILLIAMS
CHIEF EXECUTIVE OFFICER, BRITISH HONEY

“..."We built a low-code solution from the ground up with [Claris], and as the functionality of the custom solution grew, so did my comfort level. In fact, I felt so at ease working with [Claris] and got so much enjoyment from developing, I decided to turn it into a career."}

FALL 2021 CUSTOMER SUCCESS REPORT
Low-Code Development Platforms Category | 24
ABOUT KINTONE

Kintone is making teamwork better and business people love their data again by letting them build and deploy sophisticated custom database applications within a powerful collaboration environment that offers automated workflow and granular permission controls, rapidly, and often with no coding necessary. Kintone is a global leader in the no-code / low-code revolution, recognized by both Forrester’s 2017 Wave as a leader in Low-Code Application Platforms for Business Users and on Gartner’s 2018 Magic Quadrant for “hPaPaaS” (high productivity application platform as a service).

Featured Testimonials

“One of Kintone’s greatest strengths is that it’s so easy to pick up and learn. That makes it a powerful resource for a business team.”

JOHN BRATINCEVIC
CO-FOUNDER, CALABASH

“We ended up working with Kintone because it allowed us to collect and centrally control data from every source. It helps us tremendously improve our productivity and strengthen our governance.”

TAISUKE HIRO
IT DEPARTMENT MANAGER, PERSOL GROUP

“By managing our data in Kintone’s centralized platform, we can share data in real time across multiple departments quickly and easily.”

KAZUHA FURUBO
DISTRIBUTION GROUP LEADER, JINS

“We have adopted a brand-new method and management system that are far different from the traditional ones. We found it hard to personalize our unique KPIs with prepackaged software. With Kintone, we could easily develop our own applications, something we couldn’t find from other services.”

YOICHI MIHARA
CHIEF EXECUTIVE OFFICER, NK AGRI CO.

Featured Testimonials

“The beauty of KiSSFLOW is how quick and easy it is to create the apps I need. It is so user-friendly that I made exactly what I needed in 30 minutes.”
OLIVER UMÉHARA
IT MANAGER, SOFTBANK TELECOM CORP.

“KiSSFLOW is very easy and user-friendly users can now create processes by themselves without the need to go through a software design process or involve the IT department.”
JUAN CARLOS CALDERÓN TAPIA
HEAD OF OPERATIONS, SERVITRON

“I love everything about our new digital workflow. The transition has been seamless and easy for everyone. Workflow has increased because approvals can be done from anywhere, and aren’t sitting in mailboxes. Support from the KiSSFLOW team is amazing! They are very knowledgeable, patient, and personable.”
RANDALL FULLINGTON
TECHNOLOGY COORDINATOR, THOMASVILLE CITY SCHOOLS

“We have some forms that crossed several buildings and took days before they could be completed, with KiSSFLOW it takes seconds. KiSSFLOW has added several new options to their program that are awesome! The app is wonderful for less computer savvy employees. KiSSFLOW has fully met our digital workflow needs.”
BRANDON BURKE
TECHNOLOGY COORDINATOR, KENNETT PUBLIC SCHOOLS

ProcessMaker is a cost effective and easy to use open source business process management (BPM) or workflow software application. ProcessMaker is extremely efficient, lightweight and has one of the lowest overheads of any workflow software in the industry. With the additional benefit of it being open source, ProcessMaker Enterprise clients can take advantage of a fully supported, high quality BPM suite. Customers on 5 continents, through 17 different languages and across a variety of industries including manufacturing, telecommunications, finance and government, healthcare and education are using ProcessMaker workflow software.

Featured Testimonials

“ProcessMaker is a very valuable workflow automation system. It not only helps in managing our organization’s processes, but optimizes them as well. In addition, it archives uploaded and generated documents so they are easily reached whenever we require them.”

QUSSAY ALKHATEEB
CTO, EARTHLINK TELECOMMUNICATIONS

“ProcessMaker has given us the ability to centralize all the information regarding all of our inbound requests. It is a tool that has made the job of managing these requests easier by allowing us to work across the network and find and solve requests from anywhere in the country.”

ROSA ELENA RESTREPO
HEAD OF THE HUMAN RESOURCES DEPARTMENT, NATIONAL UNIVERSITY OF COLOMBIA (MEDELLIN)

“By using ProcessMaker we have been able to build complex workflows which go far beyond the standard functionality available in Sugar, and also give us the flexibility to control the processes ourselves.”

SEAN HARRIS
HEAD OF DIGITAL, PORTLAND BROWN

“When we decided to move forward with ProcessMaker as our BPM solution, our IT department approached ProcessMaker to build a core system for managing business workflows and internal operation workflows. We successfully designed and developed our two most important processes based on ProcessMaker’s community version. Within the next five months, we needed to expand our processes in accordance with our business demands. We decided ProcessMaker Enterprise was the logical upgrade due to its enhanced features, capabilities and, most importantly, the real-time support we could get from ProcessMaker’s professional services team.”

CHAU NGUYEN
PROJECT MANAGER, MCREDIT VIETNAM
WaveMaker is an award winning rapid application development and delivery platform that helps create enterprise grade web and mobile apps. With over 10 years of market presence, thousands of developers use it to create applications 67% faster. WaveMaker is offered as an on-premise software (WaveMaker Enterprise) and as a SaaS platform (WaveMaker Online).

**Featured Testimonials**

“I was stunned at not having to write any custom Java code to build a sophisticated web business application.”

GEORGE REDENZ
DEVELOPMENT MANAGER FOR WEB ENABLEMENT, BRUNSWICK

“This is the EASIEST database-based web application development environment I have ever seen, and it’s open source.”

MARK RECEK
CPC SOLUTIONS INC

“Flanagan was moving its complex Oracle Forms based application to a Web based responsive Ordering System. WaveMaker Low-Code platform provided more than what we were expecting. After evaluating multiple low-code platforms in the market, we decided to go with WaveMaker. It just simply beat its competition through its simple yet intuitive visual app building. The icing on the cake was WaveMaker’s adoption of open standards to build applications, which took away all aspects of vendor lock-in. We were so delighted that we decided to license and engage their professional services for more work. Their experts were technically savvy, picked up on a lot of things on their own, asked relevant questions, when things were not 100% clear and accomplished quite a bit of work in one week.”

JERRY BRAGA
SENIOR PROGRAMMER ANALYST, FLANAGAN

“WaveMaker embraces the world, is open source and is really easy to use, while still allowing access to the underlying code (Java, CSS and Javascript).”

TOM GLEESON
PRINCIPAL, GLEESON IT

**About WAVEMAKER**

WaveMaker is an award winning rapid application development and delivery platform that helps create enterprise grade web and mobile apps. With over 10 years of market presence, thousands of developers use it to create applications 67% faster. WaveMaker is offered as an on-premise software (WaveMaker Enterprise) and as a SaaS platform (WaveMaker Online).
Zoho Creator is that software that helps you create applications on your own - online. You can configure custom workflow that add business intelligence to your apps, use schedulers to automate redundant tasks, generate Pivot tables and charts to interpret data and share the collected data with Users, with controlled access to the data. Users can access real-time data from anywhere, anytime even on their mobile phone.

Featured Testimonials

“Zoho Creator can be put into the innovative bucket. It lets end-users create simple web applications with no coding knowledge.”

PHIL SIM
MANAGING DIRECTOR, MEDIACONNECT

“Zoho Creator’s drag and drop interface makes it easy for non-developer types to make a quick and easy database and get it online. The customer service is outstanding - Many days Harsha himself has phoned me and stayed on the phone, giving one-on-one assistance until my PROBLEM WAS SOLVED. This is just GREAT!”

ANDREA SIRMAN
INTERACTIVE DESIGNER, OTTAWA CITIZEN

“Zoho Creator has allowed us to collect meaningful data easily. As we continue to use the platform, we’re finding more and more uses for it—and with the ease of customizing in-house, we’re able to add to and modify the database any time we want. It’s given us complete control over how we collect and organize our data.”

WANDA BLACKETT
RESOURCE DEVELOPMENT COORDINATOR, SILENT VOICE

“One of my favorite Zoho features has got to be the ability to basically change anything I want, create anything I want on the fly. It’s seamless. It’s easy. It’s efficient.”

RISING STARS
ABOUT AGILEPOINT

AgilePoint is a global, growth-stage, revenue generating company delivering disruptive technology to accelerate emerging digital business transformation through enabling a future-proof application strategy through eliminating costly refactoring and rebuilding efforts. Its flagship product AgilePoint NX is the most innovative Low-Code platform for building digital automation apps quickly and easily while ensuring future-proof simplicity. AgilePoint has over 2,000 global customers, more than a million users, and customers in 28 nations.

FEATURED TESTIMONIALS

“The solution from AgilePoint is a ‘what you see is what you get’ application, and that is positive. As a developer, you actually build what the business will see. It is easy to model the processes with the business. Moreover, the call agents now have much more usable knowledge at-hand. At a glance, they know, for example, exactly where in the delivery process the smart thermostat is. All of this is possible thanks to the intelligent approach of AgilePoint.”

PAUL BEUMER
TECHNICAL DEVELOPER, ENECO

“Building apps on AgilePoint has allowed me to be more focused and more proficient. I can leverage AgilePoint as the one interface to work with other key technologies. AgilePoint has taken me from creating a few apps a year to dozens. It’s definitely achieved our goal of rapid development.”

JONATHAN FUNK
CITIZEN DEVELOPER, THE SALVATION ARMY

“Agile point provided us with a development framework to very effectively deliver a complex solution in a quick development lifecycle. AgilePoint provides out of the box functionalities for big project overhead items including process compliance, resilience, monitoring, security and scalability which are expensive and time consuming in traditional software development. AgilePoint also gives us the flexibility to evolve our requirements in phases, to minimize scope burden and manage priority based on real operational impact.”

ANURAG PATHIK
HEAD OF IT AND DEVELOPMENT, REED EXHIBITIONS

“With AgilePoint, we efficiently and quickly build and deploy solution building blocks to handle a large number of form-driven internal business processes.”

ABOUT GENEXUS

GeneXus is a Uruguayan company that, based on in-house research, develops state-of-the-art proprietary technology in the fields of database design and maintenance, application development and maintenance, and, in particular, automatic knowledge management. Founded in 1988, the company is headquartered in Montevideo, has offices in the United States, Mexico and Brazil, and is present in more than 35 countries through its network of distributors.

FEATURED TESTIMONIALS

“Learning just one tool (GeneXus) we were able to create custom native mobile applications integrated to SAP S/4 Hana. It generates the code for iOS, Android and Java for web automatically, following the Fiori UX Guidelines without additional effort. And it deploys and maintains everything in SAP Cloud Platform also automatically. We are 10 times more productive, with the same, small team.”

GUSTAVO ROSSEL ODRIOZOLA
MANAGER, INVENZIS

“GeneXus’ most valuable features are database normalization, automatic maintenance and referential integrity control.”

NIRIA MAYÉN
IT AND TELECOMMUNICATIONS GENERAL MANAGER OF FORESTRY DIVISION, SEMARNAT

“GeneXus offers accessibility. The system may be used from tablets, mobile phones or desktop computers. It is both multi-platform and responsive, and enables greater capacity for responding to the market’s needs.”

JOSÉ LEONARDO RODRÍGUEZ
OPERATIONS TECHNOLOGY & EFFICIENCY MANAGER, MAS SEGUROS

“That’s the strong points of GeneXus, I’m not rewriting code every time that new technology comes out, all I am doing is designing a different way to process it.”

KIM ANGERMEIER
CHIEF EXECUTIVE OFFICER, MADDENCO

ABOUT KNACK

Knack is the easiest way to build your own online database. With Knack, anyone can build apps to access your data from anywhere, run reports and analytics, and share it with your users, employees, or customers. You can publish your apps to any website or blog. Stop struggling with Excel and Access. Move that data into an online database and easily build apps to manage, share, and distribute that data. Member Directories, Customer Portals, Project Management and more are all easy to build and customize with Knack.

95
Total Customer References

FEATURED TESTIMONIALS

“Knack is awesome, and has been a great match for my skill set. I’m familiar with databases and their structure, but am not a coder, and Knack has provided a very intuitive way to build a database and an interface for it. I also really like that I could build from the ground up, instead of having to force my data and business processes into a predetermined format like the CRM software I looked at.”

ADAM ROGERS
NCSU LIBRARIES

“Knack allowed us to quickly deploy a database app that has reduced the typical time to create a new customer down from 30 minutes to less than 10. We can prototype very quickly with Knack; I love the ease at which I can generate forms and tables.”

MARK SIMS
GNL STORAGE

“I just wanted to give you some feedback on a great app and fantastic service. I’ve used your tool to build a repository and customer portal for genetic data of elite and upcoming athletes. We’d previously worked with a developer and coder who after 6 months had been unable to finish our project. In frustration I turned to Knack and built a working system in 4 days with no coding experience. We have now gotten our business back on track thanks to Knack. Keep up the great work!”

SCOTT LONGDON
DNAEX

“I’ve got to tell you guys how great a job you’ve done on this app. It’s simple, clean with a decent learning curve. I’m almost to the point I could teach it after less than a week working on it a couple of hours a day. The feature set is very well thought out. I can tell as far as the ‘user experience’ you’ve been there. Thank you and I look forward to additional features in the future.”

ABOUT ONEBLINK

OneBlink is both a developer of software tools, and a provider of hosted/managed services that de-risk and accelerate the development of custom mobile and app style solutions. Their growing company is in need of an experienced and resourceful North American Business Development Executive to develop and implement growth opportunities via existing and new partner relationships.

FEATURED TESTIMONIALS

"The key requirement was that the solution work offline. If a person is in the middle of nowhere standing on a large slab of red dirt, we wanted them to be able to take a photo, fill in forms and eventually, send off the information so that when they come back into the office, all the work is done. That’s where we knew real cost savings would materialise."

ERROL KEYT
CHIEF FINANCIAL OFFICER, GEORGIU GROUP

"We have been able to dramatically improve the customer service experience for booking services like clean-ups. The feedback has been very positive from all parties involved not just the customers. There was a lot of effort put into the development and we learned a lot from the users that has helped us to improve the App. But we won’t be stopping there – we have got a lot of great ideas that we want to build into future versions to make the customer experience even better."

PETER FITZGERALD
GROUP MANAGER ROADS AND WASTE, CUMBERLAND CITY COUNCIL

"By ordering from the device the information is captured on-site, in realtime. The business has upfront visibility of all costs. It gives us better control and better reporting. We can provide managers with a running percentage of incremental costs on the job."

FELICITY NUTTER
GROUP BIS MANAGER, PORTER DAVIS HOMES

"What attracted us was that they were able to offer us the full mobility solution – a smart application integrated with our existing business systems and an ongoing support network for the system, staff and end users. This provides the benefits of improved business processes without needing to have the time or technical resources in house. The team have repeatedly been able to find clever solutions to some of our complex business processes."

ABOUT PMG

PMG platform is highly configurable, making prototyping, deployments, upgrades and updates faster and easier. Each implementation differs in scope, but many clients have turned to PMG after unsuccessfully trying to deliver complex process solutions using other platforms and systems. PMG is a better alternative to large scale platforms that require teams of specialty developers and are often expensive and time consuming to implement. And it’s far more robust than simplistic low-code app development alternatives that can’t handle complex business processes or scale for enterprise deployment.

Featured Testimonials

“Humana is focused on innovation, and to do that, we’re looking outside the healthcare space for successful business strategies we can own. Using PMG’s low-code platform, we cut our time from customer application to enrollment in our level-funded premium offering from 12 days to two days in just four weeks. By adopting automation, we’ve gained a distinct competitive advantage.”

HUMANA

“PMG successfully assisted us with automation of our process in an effort to centralize filing proof of claims to improve employee productivity.”

MIKE CULPEPPER
EXECUTIVE VICE PRESIDENT/CHIEF OPERATING OFFICER, 1ST FRANKLIN FINANCIAL

“Not only has PMG simplified onboarding, they’ve improved our visibility. The entire process occurs in one workflow.”

MICHAEL LAWRENCE
SENIOR BUSINESS PROCESS RE-ENGINEERING PROFESSIONAL, PARSONS

“We’re ecstatic about the increases in efficiency, but my favorite benefit has been simple stress reduction. If there’s ever a snag on a claim, we are able to track branch and department tasks and call the responsible party. PMG ended the guessing game and all unnecessary email and phone calls along with it.”

**Featured Testimonials**

“We made the decision to move our account quickly in order to be able to align it with our fiscal and production years. We looked at over a dozen products and found TeamDesk to be far superior in power, functionality and price. What we did not expect was the incredible service we have received from your support staff. Both Slava and Mila have been fantastic. They have responded to our questions within minutes of submitting them. This is unheard of in most companies today. I can honestly say that our new database would not be ready for the 2017 fiscal year without their assistance.”

ARTHUR W. KELLY
OWNER, PEAK SAILS NORTH AMERICA

“It’s not just a cloud database. In the organization that I lead, TeamDesk has helped us to automate a large part of our Business Intelligence processes, being able not only to store the information that we manage internally and of our clients, but to integrate it with other cloud systems and giving much more value to that information.”

PATRICIO BUSTOS
CHIEF OPERATING OFFICER - DIRECTOR, REGIONAL SERVICES, BELLTECH

“[The] TeamDesk database is efficiently handling our job records, contacts, team collaboration, invoicing, IT records and sales records. Its flexibility makes me confident that it will cope with any new ideas we come up with.”

LYNNE MANZO
OFFICE MANAGER, MACARTHUR VALUATIONS

“TeamDesk is very simple but also incredibly flexible to meet our business needs. We use the software to manage all business contract relationships, company accounts and sales pipeline.”

ABOUT TRACKVIA

TrackVia®, the leading low-code application platform, helps companies build workflow applications that increase on-time performance and reduce costs all while improving quality. TrackVia offers business leaders the most efficient and cost-effective way to build powerful, customized applications that are business led and IT approved. Companies like Stearns Lending, Honeywell, and Brinks rely on TrackVia to drive the digital transformation of their critical processes.

Featured Testimonials

“It's just so much easier when data and information is all in one place. TrackVia’s platform makes it so easy to create and modify an app. If you have Excel & Access knowledge - you can build what you want in TrackVia without any code.”

BILL MANNABERG
SR. MANAGER OF PROCUREMENT, OPERATIONS, AND FUNCTIONAL EXCELLENCE, HONEYWELL

“The TrackVia platform is easy to use and the team has provided excellent service in helping us build a custom, mobile native application. With TrackVia we have vastly improved project visibility, reporting, and analysis.”

RANDY BATCHELOR
OPERATIONS CONSULTANT, RP CONSTRUCTION SERVICES

“TrackVia has improved the accuracy of our data. In the past it was a chore for our coordinators to document issues in real time. Now, they can just open the mobile app or website, check a few boxes and they are done.”

MICHAEL FITE
BUSINESS INTELLIGENCE ANALYST, LIFELINE OF OHIO

“TrackVia ultimately gave us what we needed, how we needed it, and within the aggressive timeframe that we had. To build an enterprise-grade, mobile business application within weeks was very impressive. We simply could not find any other solution with the flexibility and power of TrackVia.”

DAVID H. MAGE
DESIGN MANAGER, CONSTRUCTION SANTÉ MONTRÉAL
