

Auto Body & Repair Software Category

FALL 2022
Customer Success Report

Auto Body & Repair Software Category

Auto body & repair software offers tools that can be used by automotive technicians to manage office tasks and car repair processes. Car service businesses like collision repair, inspection, and body shop firms can utilize this solution to manage vehicle databases and monitor information such as job estimates, maintenance schedules, repair history, various diagnostics, ordering parts, and repair mapping.

Auto repair software offers functions to manage automotive maintenance and repair processes including repair instructions, job scheduling, parts inventory, and customer databases. The system can automate tasks, track vehicle and customer histories, and link you to maintenance databases and leading parts dealers. It also provides specific features for auto repair shops, including point of sale (POS), invoicing, vehicle history and tracking, VIN decoding, service writing and estimating, and inventory and auto parts sales management. Apart from auto repair shops, this software can also be leveraged by boat shops, small engine repair shops, motorcycle shops etc.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“We purchased RO Writer from AMS (Automotive Management Solutions) about 4 months ago. The entire experience has been excellent and exceeded my expectations. The software itself is very robust and reliable. After the initial onsite installation and training they followed up every week for a month to address any questions or issues we had. The staff are super knowledgeable and friendly. I was pleasantly surprised by the level of service we received. The folks at AMS are not only expert in the RO Writer software, they are also expert in the automotive repair industry...”

MICHAEL PAUL
OWNER, THE PLAINS SERVICE CENTER

“I've been using R.O. Writer now for 2 months. I'm very impressed with all the features it has, and what it can do for you as a shop owner and with the day to day business. I went to the classes that AMS offered, which were very helpful. I strongly recommend attending them. They were very informative and it helped to be able to have a work station that was your own shop to practice on. I'm thankful Terri gave that extra push for me to take an extra look at what R.O. Writer can actually do for you.”

REBECCA HUMPHREYS
OWNER, AQUIA CAR CARE CENTER

“If you have R.O. Writer, you need to use AMS and their knowledgeable people to get the most out of R.O. Writer. The user and owner in person classes in NC are amazing and you learn things that you can immediately use at the shop to make money. You can call and get help very quickly. Customer service is great. And the Facebook User Group is a must have for you and all the...”

TIM SMITH
AMERICAN & IMPORT AUTO REPAIR

“We have been on R.O. Writer for almost 2 years now. This is the most efficient and easy to use software there is. From your daily counter use to profit reports it will do it all. So happy we chose this software for our shop. And if you have any questions the help line is only a phone call away.”

ABOUT AUTOSERVE1

AutoServe1 provides a customer-centric workflow to allow dealerships & aftermarket service repair shops to communicate with their customers using actual photos of problem parts, educational animations, and real-time communication with remote customers. This helps auto service centers increase sales per vehicle-visit by more clearly explaining the benefits of repairs required on a customer's vehicle and mitigating the lack of trust. It also facilitates faster decisions, improves work flows, and decreases costs from traditional paper-based inspections.

33

[VIEW ALL REFERENCES](#)

FEATURED TESTIMONIALS

“It's simple and easy to use. AutoServe1 lets us be completely transparent to the customers which is a huge thing in this industry. To the customer it lets them see everything that's going on with their car and eliminates all speculation. In our area, since we are close to a lot of colleges, AutoServe1 works really well to help us communicate with the parents of the kids who are bringing in their cars. The parents are all over the country but we can send them the pictures and videos by email and text about what needs to be fixed and they can make the decision to go ahead.”

JASON MARSH
SERVICE MANAGER, AZAR AUTOMOTIVE

“With AutoServe1 our customers see what the technicians see and can be involved in the process of choosing the repairs for their vehicle. I don't have to sell them. They tell us which jobs they want to get done. Using AutoServe1 integrated with both my Hunter alignment gear and my shop management system, Protractor, my average ticket price went through the roof. After the first month it was up over 34%.”

ALAN BEECH
OWNER, BEECH MOTORWORKS

“AutoServe1 helps our shop prove integrity and improve communication with the customers. Data is data. All communication is direct and objective.”

EMILY CHUNG
OWNER, AUTONICHE

“The difference with AutoServe1 is that before, people might have ignored repair recommendations. Now they can see a picture and understand that it's serious.”

ABOUT FULLBAY

Based in Phoenix, Arizona, Fullbay revolutionizes the operations of heavy-duty repair shops and internal fleet maintenance departments to create more efficient, focused, and faster organizations. The company provides a turn-key platform that connects every function of the business in real-time from any location to improve workflow and create transparency in operations. Founded in 2014, Fullbay focuses on delivering operational excellence, preventive maintenance solutions, and inventory management optimization to its wide variety of customers. The company also operates Fullbay Cares, which is dedicated to giving back to the essential workers of...

FEATURED TESTIMONIALS

“Before Fullbay, we were not keeping proper track of time. They would forget to bill for things like getting the truck started and bringing it into the shop. We have a two hour minimum for service calls. [Before Fullbay] I would just charge them for the minimum because I thought that was how long the job took me. When I started clocking in and out of jobs, I realized that sometimes jobs took me 2.15 or 2.25 hours. I started to pay attention to that in Fullbay.”

KIRK BUCHAK
OWNER AND MANAGER, COPPERTOP TRUCK REPAIR

“My favorite part is the dashboards charts with the profit by dollars and profit by percentage and sales. When you put in the proper information, you can use that as your go/no-go gauge as to whether I spend on this, do I improve on that, or do I go out and get more business.”

ADICA FLEET SERVICES

“Before Fullbay, we had someone that would have to enter the invoices manually and enter the job cards manually. Now, we are able to receive the invoice in Fullbay and then have it flow over into QuickBooks.”

KYLE CREEDEN
BUSINESS MANAGER, C&W MECHANICAL

“Now with Fullbay, I can go on there and see exactly what they are working on or what jobs they are clocked into. I have three locations, so now from my one location I can monitor how much work each location has.”

FEATURED TESTIMONIALS

“With TruckSeries I like being able to type in the VIN number and easily scroll through the options it gives me. If I want to look at specific parts of the drive train, electrical system, charging system, starting system, and DPF systems, I don't have to crawl through pages and pages. I can zero in on what I need and toss the rest aside. That's what makes it easy for me. And time is money in this business. I believe it's the only system out there that's reliable, and has everything I need in it. I wouldn't trust...”

QUINCE GRAVEEN
DIESEL MECHANIC, AMERICAN DIESEL

“There are many features of the Mitchell 1 Manager software that stand out. The creation of canned jobs and building parts kits make completing an estimate or repair order a breeze. This feature takes the guesswork out of creating the order and is a great time saver. We have also found that the reports are extremely useful in giving a clear picture of the business — where the profits are highest and where adjustments need to be made. Mitchell 1 software has enabled us to stay ahead of the quickly...”

SAMUEL W. CONCELMAN
OWNER, GLENSHAW AUTO SERVICE

“ProDemand saves me a lot of time and effort — it's awesome. I can quickly find the information I need to write my estimates with accurate labor times and parts pricing. Our techs use the repair information and wiring diagrams, and everything is right there where they need it. Searching in ProDemand is self-explanatory, so it's easy to find component locations to diagnose and repair...”

CHUCK CERCONO
CO-OWNER, FOX'S AUTOMOTIVE SERVICE & REPAIR

“The first car I entered into SureTrack is a car we've been having a problem with. I immediately found information on SureTrack that was not available from other sources. A few years ago I truly thought you had to have an O.E. scan tool to fix new cars. You've proven me wrong and it's nice to see from an independents shop's view. Thank you very much.”

“The ability to access customer data, inventory data, and accounts receivable across all 6 of our retail locations is huge. HITS BPOS helps us operate all our stores on the same page without needing local servers. Being hosted also gives us peace of mind that our data is safe and automatically backed up. We also use HITS Tirelink for our distribution center. We don't know where we'd be without HITS!”

DON
MANAGER, ALYESKA TIRE

“HITS Software is more than just a billing or inventory program, it has become a integral tool in our business. HITS is continually improving with added functionality, ease of use, and integration to our local wholesalers. And, with Customer Service that treats you more like family than a customer, HITS is the best choice for our business!”

REGGIE
OWNER, FRANKLIN & SON, INC

“With 3 warehouses, keeping track of inventory and receivables is critical. The software's credit management capabilities enable us to efficiently manage receivables and our dealers really like having real-time access to our inventory and the ability to order on-line.”

CINDY
BOOKKEEPER, JONES INTERSTATE TIRE

“HITS Software meets all of our business needs. Any issues we run into, which are few and far between, they are always there for us. We really appreciate all the great support we've received the last 20 years since starting with HITS.”
