

Low-Code Development Platforms Category

FALL 2024
Customer Success Report

Low-Code Development Platforms Category

Low-code development platforms enable companies to create software quickly without the need for deep coding expertise. The solutions offer base-level code, integrations, and scripts to empower businesses to prototype, build, and scale applications without needing to develop complex infrastructures. Even non-developers can use these programs to build applications rapidly with customized functionality and workflows.

Some tools are meant for developers and need coding for functionality, and there are others that offer element design libraries. Many platforms can interpret data from spreadsheets or databases, and swiftly create apps to access and handle info. Low-code development platforms are different from no-code solutions because they permit more advanced functionality with customized code instead of a drag-n-drop interface. However, they are a step below fully integrated development tools because they do not offer features to build complete apps from scratch.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“During these challenging times, KPMG and Appian share the same vision on helping employees safely reenter the workplace. Appian’s low-code automation can help companies rapidly leverage digital innovation to keep up with evolving business models, all while trying to keep their employees safe.”

MARCUS MURPH
PRINCIPAL, KPMG LLP

“I thought low-code was going to be something difficult to grasp, but as we’re maneuvering, we see that low-code is easier for configuration. And it’s expandable, it’s scalable. It’s going to raise the bar in terms of projects and how they need to run. It established some best practices for us.”

JASMINE ROBINSON
PROJECT MANAGER, TEXAS DEPARTMENT OF PUBLIC SAFETY

“Unlimited bots for a fixed price is a compelling proposition by itself. That proposition combined with Appian’s low-code automation platform is the reason we are excited about Appian RPA.”

THYSSENKRUPP

“The low-code, rapid deployment, and easy-to-tweak nature of the Appian platform has leant itself well to the requirements of technology-savvy capital markets firms.”

“Thanks to the low-code modality, collaboration and understanding between the business team and central IT is a success, along with agility in development and continuous improvement. We are delighted with the results of our digital transformation, now we have our processes integrated with AuraQuantic. We manage everything on the AuraQuantic Digital Platform.”

LEONARDO HENAO RENDÓN
VICE PRESIDENT OF OPERATIONS, INFOTIC S.A.

“The transition to remote work was effortless with AuraQuantic. The tool's low-code features and agility empowered us to rapidly adapt to the changing business world while ensuring efficiency and maintaining our competitive edge.”

SANTIAGO F. ESPINEL
CHIEF EXECUTIVE OFFICER, ATIS KETCHUM

“Thanks to AuraQuantic we have managed to standardize processes, reduce operating costs and improve customer satisfaction. AuraQuantic accelerates time to market and helps the company achieve higher ROI in less time.”

JANIA ALBORNOZ
HEAD OF PROCESSES, IBR LATAM

“For our day-to-day business, we require tools that not only improve processes but also enable efficient policy and claims management. The AuraQuantic suite has allowed us to meet all our policyholders' demands.”

FEATURED TESTIMONIALS

“Having one software system that works for you, one that allows customization and adjustment, is great! Being able to tailor it to our specific business needs is my favorite thing about Creatio. We love to experiment and innovate, and Creatio allows us to do just that. Whether it's trying out new processes or integrations, it offers the potential for exploration and growth.”

LUKE ANGUS
SALE MANAGER, NAMU TRAVEL GROUP

“Creatio platform makes us more flexible, and it easily scales as our organization grows. The no-code technology allows us to train our CRM business analysts to build processes. It's not a Pandora's box for coders only. Business people also have their say in solution development. The no-code platform has helped us significantly accelerate our time to market.”

TOMASZ CIBOREK
GROUP SALES OPERATIONS DIRECTOR, ASSECO ASEE

“Customization with no-code makes system enhancement super easy. I go to the process designer, drag and drop what I would like to use, choose whatever object applies to the particular case scenario, configure the sequence of the steps and start process execution. There is always some solution that no-code can give us, so we love it!”

ANDREW THOMPSON
TECHNICAL SPECIALIST, UPWARD SPORTS

“Creatio no-code CRM platform enables us to increase the productivity of our team, use customer data to improve customer interactions, and deliver operations excellence.”

PATRICK BRUNET
WEB DEVELOPER DIRECTOR, THIBERT INC.

ABOUT LANSA

The leader in low-code and modernization for IBM i and cross-platform enterprises. Whether it's powering most of Vegas' vacation bookings, driving one of the largest automobile manufacturers' supplier fulfillment processes, or empowering a large ice cream company to reach its customers outside of the store—LANSA powers the applications behind virtually every industry. With 8,000+ customers worldwide, LANSA helps enterprises modernize and streamline application development so they can keep doing what they were built to do: exceed customer expectations.

386

**VIEW ALL
REFERENCES**

FEATURED TESTIMONIALS

“LANSA suited our needs best. The LANSA rapid application development platform had a long track-record with many customer references and successful projects. We could use it to develop both web and rich-client applications. Also, although LANSA was a clear leader on the IBM i platform, it didn't lock us in. We could deploy LANSA-developed applications on Windows and other platforms as well.”

BUDDY EVANS
DIRECTOR, GLOBAL I.T. APPLICATIONS DEVELOPMENT & SUPPORT, HYSTER-YALE

“With RAMP, we can still use the underlying business logic or code in our current database files, yet, within the LANSA framework, we can also run the new code. So, we now have an application that's running new LANSA code and legacy code within the same interface.”

TERRY OSBURN
CSS DEVELOPMENT MANAGER, CONTROL SYSTEMS SOFTWARE LLC

“Visual LANSA met all of our objectives. The powerful repository both significantly improved productivity and reduced QA with better quality of code. Visual LANSA's thin client architecture significantly reduced machine load compared with ODBC based tools.”

SAM XYDIAS
DEVELOPMENT MANAGER, NELLER

“With LANSA we can create green-screen, Windows, XML and browser applications from a single set of source code. Everything we write is 100-percent LANSA, so now we are not locked into a specific platform or database.”

FEATURED TESTIMONIALS

“Magic xpi provides us with a wide range of functions and an attractive licensing model. With Magic’s low-code approach and the tools provided, we can now connect different IT systems and accelerate processes faster than ever before. The Magic logic is simple and intuitive to use, completely eliminating the need for tedious learning of new codes. This frees up valuable time which is used for new digitization projects.”

INGO GERBER
SENIOR SYSTEM ENGINEER AND RESPONSIBLE PROJECT
MANAGER, JANOSCHKA

“The Magic xpi integration platform was a strategic decision for us. With its code-free approach and multiple extension options, it is the heart of our IT. As an agile company, it enables us to successfully implement our new digital business model and it strengthens our resilience.”

CHRISTIAN ENGL
ASSOCIATE DIRECTOR IT PRODUCT & OPERATIONS,
NEW FLAG

“We found that Magic xpi provided us with a reliable, robust and agile solution that is easy to support and scale up. The ease of use within Magic xpi’s code-free environment made the complexity of our business process integration easier to architect and implement.”

SOO-JIN BEHRSTOCK
CHIEF INFORMATION OFFICER, KOOS MANUFACTURING

“The Magic xpi Integration Platform has enabled us to synchronize the data of the various global CREED Information Systems. Intuitive and powerful, the tool has accelerated the implementation of the new ERP, helping to stabilize our fast-growing environment.”

FEATURED TESTIMONIALS

“With this low-code development platform it’s possible to build applications much times faster. Because Mendix works with visual modelling rather than programming, everyone can make an active contribution to building an application. Many components are also reusable in Mendix, so that time-to-market is shortened significantly.”

THOMAS THUNNISSEN
PROJECT MANAGER OF INNOVATION, HEIJMANS

“The major advantage of Mendix is that a new application can be developed at top speed, by making use of visual models instead of code. As a result, the business has insight into the application logic and structure during the process, and is (and feels) involved in the realization.”

JANICE JIE
HEAD OF RESERVATIONS, EURAIL.COM

“The Mendix platform offers us speed and agility as well as a lower cost/risk exposure versus traditional code-based application development. We can build, deploy and manage solutions ourselves from within our business team.”

JANET KEELING
GLOBAL HEAD OF ASSOCIATES CUSTOMER SERVICE,
TNT BUSINESS SOLUTIONS

“Low-code platforms like Mendix make building applications so much faster and so much easier. I truly believe that in the future, low-code platforms will be ubiquitous.”

ABOUT MICROSOFT POWER APPS

Microsoft
Power Apps

Power Apps is a service that lets you build business apps that run in a browser or on a phone or tablet, and no coding experience is required. Power Apps combines visual drag-and-drop concepts from PowerPoint with Excel-like expressions for logic and working with data. If you're new to app building, Power Apps provides templates and sample data that you can use to quickly build an app, and then you can customize the app to better suit your needs. With some experience and creativity, you'll soon be developing your own apps from scratch. If you're a seasoned developer, you can take advantage of the advanced functionality and truly innovate. If you can imagine it,...

FEATURED TESTIMONIALS

“I'd say the number one thing that I've received from everybody is like, wow, this is really easy to use. And, you know, I brought it up to people, you know, I have a lot of friends in Philadelphia. I would continue to recommend it to other companies because I do think that it's very easy to use, and you know, again, the flexibility and just being able to do whatever your company needs to do within the software is such a game changer. It's great.”

JIM CALVARESE
DIRECTOR OF FACILITIES, MELMARK NEW ENGLAND

“Mainly the fact that it [Kissflow] is customizable and flexible to our needs. You can remove and hide fields if we don't need them. In other software, it's not so intuitive. The way they look, and then a lot of fields. Maybe you don't need to fill it in, but they're still there. But then it scares the people that have to learn how to use it. So it has to be simple for everyone.”

LISA LIN
PROCUREMENT LEAD, NUMA

“I really liked the flexibility of Kissflow Procurement Cloud. You guys can adjust to any changes and modify the form according to our needs, including adding extra approvals. We can just make any changes when possible, which other systems lacked in comparison. Pricing was a big factor too.”

ANA SERNA
PROCUREMENT AGENT, CHILD DEVELOPMENT ASSOCIATES (CDA)

“[Kissflow] is easily customizable and is very user-friendly. I am able to visualize the workflow and develop it in Kissflow easily. And the development time, compared to other solutions, is less.”

ABOUT ONEBLINK

OneBlink enables Public Sector Agencies and Regulated Entities to accelerate their rollout of new digital safety, compliance, audit and inspection processes. As Australia's best no-code platform for non-coder business users to build their own digital forms, workflows and data integrations - subscribing organisations become more responsive, more self sufficient and therefore better able to keep pace with a changing landscape. Unlike other no/low-code products, OneBlink has stretched the boundaries of solutions achievable without needing to manage a line of...

FEATURED TESTIMONIALS

“We have been able to dramatically improve the customer service experience for booking services like clean-ups. The feedback has been very positive from all parties involved not just the customers. There was a lot of effort put into the development and we learned a lot from the users that has helped us to improve the App. But we won't be stopping there - we have got a lot of great ideas that we want to build into future versions to make the customer experience even better.”

PETER FITZGERALD
GROUP MANAGER ROADS AND WASTE, CUMBERLAND
CITY COUNCIL

“What attracted us was that they were able to offer us the full mobility solution – a smart application integrated with our existing business systems and an ongoing support network for the system, staff and end users. This provides the benefits of improved business processes without needing to have the time or technical resources in house. The team have repeatedly been able to find clever solutions to some of our complex business processes.”

RUSSELL RIEPSAMEN
PROJECT COORDINATOR, FORESTRY CORPORATION OF
NSW

“We liked OneBlink because it gave us a solution that respected our older audience and the devices they tend to use, but it also gave us the ability to engage the youth segment.”

KYM AUST-HOWLETT
GENERAL MANAGER COMMERCIAL, NSW WARATAHS

“Working hand in hand with OneBlink to develop a solution specific to our schools' needs was very important to us.”

FEATURED TESTIMONIALS

“We are really pleased with the result. The main benefit is a consistent follow-up on all of the deductions for accounts receivables. In the food business, it is not so much a question of collecting the monies, more a problem of clearing the deductions that customers take off the invoice. We now have a process that tracks changes, from the time the deduction is received to the time it is closed. AgilePoint ensures that employees follow-up on customer commitments made during the resolution of deductions. Moreover, I can also measure that cycle time, allowing ongoing optimization.”

KEVIN BROWN
CHIEF INFORMATION OFFICER, DAISY BRAND

“Building apps on AgilePoint has allowed me to be more focused and more proficient. I can leverage AgilePoint as the one interface to work with other key technologies. AgilePoint has taken me from creating a few apps a year to dozens. It's definitely achieved our goal of rapid development.”

JONATHAN FUNK
CITIZEN DEVELOPER, THE SALVATION ARMY

“AgilePoint has allowed us to modernize and streamline our existing internal processes by replacing paper forms with electronic form-based applications. This has resulted in a substantial improvement with customer service, employee productivity, and quality of data collection!”

CINDY XIONG
TECHNICAL BUSINESS ANALYST, CENTURY COLLEGE

“ISOSL choose AgilePoint software to build workflows in order to diminish the amount of paper flows, to accelerate decision process. The ROI is rapid because paper work is costly.”

PHILIPPE MEYERS
DIRECTOR INFORMATICS DIVISION, ISOSL

FEATURED TESTIMONIALS

“Learning just one tool (GeneXus) we were able to create custom native mobile applications integrated to SAP S/4 Hana. It generates the code for iOS, Android and Java for web automatically, following the Fiori UX Guidelines without additional effort. And it deploys and maintains everything in SAP Cloud Platform also automatically. We are 10 times more productive, with the same, small team.”

GUSTAVO ROSSEL ODRIOZOLA
MANAGER, INVENZIS

“The main advantage of GeneXus is productivity: it offers a small learning curve and fast programming times, generating code for several languages. This tool is very important for the company, because instead of programming skills, developers only need to learn how to use it to develop web, desktop and mobile applications.”

ALMIR FIRMINO
TECHNOLOGY DIRECTOR, DECISÃO SISTEMAS

“Using technically-savvy business analysts to program in GeneXus and given the amount of “heavy lifting” GeneXus does through code generation, we estimate that GeneXus saves us more than 70 percent of the normal development and testing effort experienced on other government systems development projects.”

MICHIGAN DEPARTMENT OF TREASURY

“GeneXus enables the system to be entirely customized by its users in a short period of time, providing quick development and implementation times.”

ABOUT PMG

PMG platform is highly configurable, making prototyping, deployments, upgrades and updates faster and easier. Each implementation differs in scope, but many clients have turned to PMG after unsuccessfully trying to deliver complex process solutions using other platforms and systems. PMG is a better alternative to large scale platforms that require teams of specialty developers and are often expensive and time consuming to implement. And it's far more robust than simplistic low-code app development alternatives that can't handle complex business processes or scale for enterprise...
