LeafLink Advertising has provided us with the tools needed to reach both potential leads as well as current customers with messaging around new product launches and new state launches. Advertising has also helped us to increase brand awareness and to stay top of mind while dispensaries shop on LeafLink.

JULIA BRIGHT
DIRECTOR OF MARKETING, WANA BRANDS

We use LeafLink as a purchase order management tool, primarily because of the exposure in the market. In Missouri, all the retailers in the state already buy on LeafLink, so we don't have to convince them to use an untested platform.

DAVID CRAIG
VP OF MARKETING, ILLICIT

We were frontloading all of our inventory purchases and our vendors were expecting us to pay on net terms. But some products don't sell quickly enough to recoup the cost, and that makes paying on net terms difficult.
