

Building Access Control Software Category

FALL 2026
Customer Success Report

Building Access Control Software Category

Building access control software is a digital card access control platform that can be used to manage entry into a building's exterior doors as well as areas in the interior. The system provides convenient and quick access to authorized persons while keeping out unauthorized people.

To gain access to a building, users can use an electronic access card which is uniquely encoded. This access card is the size of a regular credit card and you can easily carry it in your purse or wallet.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

2026 Customer Success Awards

MARKET LEADER

ABOUT BRIVO

Brivo is the global leader in cloud-based access control and security platforms for commercial and multifamily properties. Their mission is to provide Simply Better Security solutions that improve user experiences for property managers, tenants, employees, and visitors. With over 20 million users and 1,500 authorized dealers, their SaaS platform has been unifying the security experience across access control, mobile credentials, video surveillance, identity federation, visitor management, intercoms, and elevator control since 2001. Hundreds of software partners and end users use their APIs and SDKs to extend their solutions to unique vertical market...

FEATURED TESTIMONIALS

“All of our call centers and distribution centers use Brivo today. The remote management capabilities of the integration with Active Directory has been a huge win. We've been able to run a highly efficient operation by having the security team able to focus on their core responsibilities instead of managing a database.”

JOHN OWAD
DIRECTOR OF LOSS PREVENTION, URBAN OUTFITTERS, INC

“Ultimately, Brivo's services encompassed everything we were looking for including a userfriendly dashboard, flexibility in adding products to each account and having a reliable service contact in case we ever need any support.”

DANIEL BERTOCH
CO-FOUNDER, ARCHES VACATION RENTALS

“If a location is experiencing theft in a specific area like the Redlands airport was, the access administrator could examine the logs and through a process of elimination determine the identity of the culprit.”

TOM FUJIWARA
REDLANDS MUNICIPAL AIRPORT MANAGER, AIRPORT TIGHTENS SECURITY COMPANY

“Brivo really makes a difference in improving the management of this very busy, diverse property.”

SUMMER JRIDI
GENERAL MANAGER, NORTH BETHESDA MARKET

FEATURED TESTIMONIALS

“Our great experience with ButterflyMX is directly a product of working with Gyaltsen! Introducing a new tech-savvy product to our old tenement buildings was no easy task. But he helped us get set up on ButterflyMX, answered many questions, and has even gone above and beyond with troubleshooting as we go. Great communication, excellent response time, and amazing customer service. Thank you, Gyaltsen!”

NATALIA
NAVI PROPERTIES

“The ButterflyMX team made training super easy to comprehend and also to use. The system is very user-friendly and will give our company and residents peace of mind. Kristin did our training and set up. She was very attentive to our specific needs and made the training enjoyable.”

THE ATRIUM

“When parents tour the property, we show them ButterflyMX as both an amenity their children can use to easily access the property as well as a security feature to prevent unwanted guests from entering.”

YVONNE TOMESEK
SENIOR PROPERTY MANAGER, PEAK CAMPUS

“We use ButterflyMX at our community and love it. We love the support we receive from Jordan Zolan---they have been incredible and the fastest to provide answers, always within minutes of any requests.”

URBANA FLATS

ABOUT DOOR

DOOR is a Building Intelligence company redefining how buildings operate. By combining premium hardware, intuitive software, and automated services into one streamlined system, DOOR helps properties think ahead, reduce overhead, and quietly improve life inside. Headquartered in St. Louis, DOOR supports owners, operators, and residents across residential portfolios and purpose-built communities.

FEATURED TESTIMONIALS

“AvalonBay’s partnership with DOOR has unlocked real value through our deployment of Latch products in many of our communities. It has expanded touring hours, created maintenance efficiencies, and supported our operations evolution, creating a seamless, secure experience that makes day-to-day tasks easier for residents and management alike. As we look to the future of rental housing, partnerships like this are essential in building smarter, more connected communities.”

DAVID MADRID
VP OF INNOVATION & VENTURE, AVALONBAY
COMMUNITIES

“While we were initially interested in the Latch system to provide our residents with a better access experience and the ability to share access, we also realized that the same could be applied for prospective renters. We’re giving the potential tenant the opportunity to walk the property and view specific units on their own time and in a way they feel comfortable.”

MARCEL WISZNIA
PRESIDENT, WISZNIA | ARCHITECTURE & DEVELOPMENT

“Latch not only made it easier for resident entry but also for building staff to manage who gets access to what. Sharing access with a click of a button makes our team much more efficient and saves us from the unnecessary costs of managing physical keys. Replacing keys is a thing of the past, and this flexibility opens a new door for us.”

LINDA EARLY
PRESIDENT, BROOKFIELD PROPERTIES

“Latch has eliminated the need for the concierge to be present for deliveries. Delivery services can simply use Latch to ensure safe and secure package delivery on any day of the week, including Sundays.”

FEATURED TESTIMONIALS

“We identified that user habits are changing: today, most people use their mobile phone or even a smartwatch to manage their daily lives. That's why incorporating mobile credentials into digital wallets was the natural step to offer a more agile and secure experience, while still providing alternatives for those who prefer to keep a physical card.”

SALOMÓN SHABOT
GENERAL DIRECTOR, BURÓ PROPERTY

“With HID FARGO Connect, things are faster. The printers are punching out 200 cards in a day ... And there are efficiencies in terms of using our teams' time more effectively. But the overall wraparound benefit is that the combination of all these things is making the experience better for students.”

BRENDAN MOSELY
DIRECTOR — CAMPUS LIFE, UNIVERSITY OF AUCKLAND

“We wanted a modern system which is safe, secure and easy for everyone to use, the HID solution also has built-in functionality which we can leverage over time, meaning we've invested in 'future-proof' equipment which will last us long term.”

COLIN STEBBING
HEAD OF PRECINCT SERVICES, UNIVERSITY OF DUNDEE

“Access to the university was quite complex. The security guard had to register each student with their physical ID, which created very long lines of vehicles, especially at the beginning of classes, causing students to arrive late.”

ESTEBAN RIZZO ORMAZA
PRESIDENT OF STUDENT COUNCIL, UNIVERSIDAD INTERNACIONAL DEL ECUADOR

FEATURED TESTIMONIALS

“Sport is such a great vessel for storytelling, for getting people together to really have genuine experiences with each other, and even for understanding the world. I'm a scientist myself, and a tool like motion capture can really explain to someone why they behave in a certain way, in a way that they've never really been able to see before. And it's that 'aha' moment of being able to dive into the data with someone and tell them something about themselves which they didn't know.”

JONATHAN SHEPHERD
HEAD OF PERFORMANCE, PING

“We were figuring out the best way to use that in our planning. Due to the osteogenic effect of mechanical stimulus on bone cells you're going to get a larger effect very early on in the bone-loading, then the curve starts to flatten somewhat. So we were seeing how to most effectively load for optimal bone cell response through her running or by applying a jumping load in the gym.”

CHRIS BECKMANS
PHYSIOTHERAPIST, SQUAREONE TECHNOLOGIES

“The Vicon setup on the ice replicated the in-lab configuration on a larger scale. This included extra safety measures, such as added weights to tripods for greater stability, and suspended cable bridging over the skating ice path, plus special gloves to type on the computer in the cold. It worked out really well.”

PHILIPPE RENAUD
RESEARCH ASSISTANT, THE ICE HOCKEY RESEARCH GROUP

“Here at Loughborough, we specialize in human/equipment interaction. We want to better understand how humans are using our equipment and then tailor that interaction for them.”

ABOUT VIZPIN

VIZpin is a SaaS platform that uses your smartphone's Bluetooth to control remote devices - without needing a local network connection. Their Entegrity product line includes access control, smart locks, intercoms, and visitor management. They also offer APIs, SDKs, and custom hardware/software development through their OEM program, so you can build your own custom cloud services and apps.

FEATURED TESTIMONIALS

"We rolled out VIZpin one building at a time, so I wasn't inundated with requests for access, but when I introduce it at each school, I simply give a personal demonstration using my phone and then walk teachers and staff members through the app download process."

STEVE BURGESS
DIRECTOR OF FACILITIES, YPSILANTI COMMUNITY SCHOOLS

"We love VIZpin and our members love it, too! It has been really great to be able to see who has accessed the gym and what time, as our old system did not have that feature. It's also awesome that we can easily grant them access without having to meet up with them in person."

LORI SCHULTE TRENKAMP
OWNER/MANAGER, 24 HOUR TOTAL FITNESS

"VIZpin was the clear choice for Advent because it is intuitive and significantly more economic to deploy."

KEVIN GIRIUNAS
CO-FOUNDER, ADVENT COWORKING

"I selected VIZpin because of the convenience it offers my residents and management."

MANUEL CHAPA
OWNER, SANTA ANNA APARTMENT HOMES
