

Passwordless Authentication Software Category

FALL 2026
Customer Success Report

Passwordless Authentication Software Category

Passwordless Authentication replaces passwords with more secure mechanisms for user verification, such as biometrics, security tokens, or one-time codes delivered via mobile devices. Passwordless Authentication strengthens security by reducing the risk of password-related vulnerabilities such as phishing and credential stuffing. It also enhances user experience by eliminating the need to remember and manage passwords, leading to streamlined and more accessible authentication processes.

Passwordless authentication aligns with modern security standards, offering a robust solution for organizations aiming to strengthen their cybersecurity posture. In summary, Passwordless Authentication enhances security, improves user experience, and aligns with contemporary cybersecurity best practices.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

MARKET LEADER

ABOUT 1PASSWORD

1Password remembers your passwords for you — and helps you make them stronger. All your secrets are secure and always available, safe behind the one password that only you know. Trusted by more than 100,000 businesses to protect their data, 1Password gives you complete control over passwords and other sensitive business information. As an integral layer of the Identity and Access Management (IAM) stack, 1Password protects all employee accounts – even those you aren't aware of. Give employees secure access to any app or service and safely share everything you need to work together – including logins, documents, credit cards, and more – while...

ABOUT VERIDIUM

Veridium is a leader in single step - multi factor biometric authentication, designed to safeguard enterprises' most critical assets. The software provides frictionless, highly secure user experience of authenticating transactions and verifying ID by replacing the vulnerable password with biometric authentication. Passwords are flawed. Backed by their memberships with Mastercard Start Path and Sovrin, it is their mission to forget passwords forever.

FEATURED TESTIMONIALS

“Our commitment to giving people control over their money again requires the latest technology and biometric authentication solutions. With 4 Fingers we guarantee an easy-to-use and safe banking experience in which users have access to real-time data.”

ALI NIKNAM
CEO AND FOUNDER, BUNQ

“Priority Zero is Identity and Access Management. Because, if the identity is gone, hackers have an easy game to penetrate. And there is our standard - worldwide - Veridium.”

RALF SCHNEIDER
GROUP CHIEF INFORMATION OFFICER, ALLIANZ
INSURANCE PLC

“Passwords are the main method to control access to information. They don't work very well. Everybody forgets them. People write them down on Post-It notes. They get stolen in breaches. They get stolen in phishing scams.”

MARTIN MCCOURT
FORMER EXECUTIVE VICE PRESIDENT, GEMALTO

“Passwords are the easiest approach for attackers. People tend to use passwords that are easy to remember and therefore easy to compromise.”

FEATURED TESTIMONIALS

“With YubiKey, strong security policies are possible because it is a product specially made for security. Even if a YubiKey is lost, it does not become a security incident because no sensitive data is contained on the YubiKey itself.”

TAKAO YOSHIDA
GENERAL MANAGER, CUSTOMER SUPPORT
DEPARTMENT, NETWORK SECURITY DIVISION, SCSK
CORPORATION

“From previous companies, I was used to having MFA as part of my normal day-to-day process, whether it be a mobile application or some form of hardware. So for us, it was really about catching up. It was important to add extra layers of security, and MFA was part of that.”

BEN DONNELLY
SENIOR PROJECT MANAGER, RWS

“I recommend signing up for YubiEnterprise Delivery, Yubico's service that ships YubiKeys to your employees anywhere in the world while giving you and your finance team a single invoice.”

DEVDATTA AKHAWA
HEAD OF SECURITY, FIGMA

“When it comes to security, Yubico is a no brainer.”

ALEXANDRE HAMEZ
TECH LEAD, EASYMILE
