Customer Success Report

Procurement Software Category

Procurement software assists enterprises to automate their purchasing work. It allows organizations to manage most of their procurement activities online, including producing and sanctioning purchase orders, choosing and ordering goods, receiving and matching invoices and orders, and making payments. Procurement units can use this solution to organize order shipments for full capacity, or to interact with suppliers bidding for orders. Main benefits of procurement systems are the ability to utilize economies of scale, better coordination with vendors, and decrease in effort and time needed to manage purchases.

“Precoro is a great system for growing organizations that want a procurement tool outside of their finance system. It can handle the entire p2p cycle. There were limitations when we initially became users. Still, many of those have been addressed, such as better budgeting capability and more flexible approval workflow to allow specific configurations for document custom fields or locations. With these improvements in place, we have a reliable spending tool.”

JACQUES DU TOIT
BUSINESS SYSTEMS MANAGER, INSECT TECHNOLOGY GROUP

“Overall, we have had a great experience. The Precoro team has been very responsive which helped us with implementation in a short amount of time. The team helped us develop workaround solutions in those few cases where the system did not exactly match our needs. For the price point, this is a great tool and has definitely helped us create the operational efficiency we were looking for.”

BILL JUDSON
VICE PRESIDENT OF FINANCE & ADMINISTRATION,
GREATER PALM SPRINGS CONVENTION & VISITORS BUREAU

“They [Precoro Team] understand us, want to grow with us and work with us. We can count on each other. We are an organization that works with companies for many years, and we do not like to change vendors every 2-4 years [...] We think that the trust relationship is very profitable for both sides; it's a win-win.”

SHMULIK ALMASI
GROUP CHIEF FINANCIAL OFFICER, PASSPORTCARD

“The onboarding was really easy. The support from Jane and you [Russ] was great, and also the tips you have given to us on how to do the things or which part of the process to use — it was really helpful.”
