FALL 2026
Customer Success Report

Security Awareness Training Software Category

Security awareness training software is designed to educate individuals within an organization about various aspects of cybersecurity. This software aims to enhance employees' awareness and knowledge regarding potential security threats, best practices for maintaining a secure digital environment, and the importance of adhering to security policies.

Security awareness training is a proactive approach to mitigate risks associated with cybersecurity. This typically includes modules or courses that cover topics such as phishing awareness, password security, data protection, social engineering, and overall cybersecurity hygiene.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“The PDC is what really stands out for us. We’ve had demos of Knowbe4 and Proofpoint, and other solutions that tell us they can do the same thing that the PDC does, but they don’t have somebody who is analyzing the new emails that come in the way the PDC does. We have not found another solution that does that.”

LEADER
GLOBAL FOOD COMPANY

“Partnering with Cofense offers us reliable, much needed protection for our clients from the increasing threat of phishing attacks. The quick deployment process, multi-tenant console, managed SOC service, and their commitment to supporting MSPs, are just a few of the many benefits of working with them.”

WARREN FINKEL
MANAGING PARTNER, ACE IT SOLUTIONS

“Cofense makes life easy for me. My Cofense copilot and I have really matured our program over time, and in the last 3 years, we’ve soared it’s really a collaborative effort.”

INFORMATION SECURITY AWARENESS LEAD
GLOBAL MANUFACTURING COMPANY

“Cofense PhishMe was highly successful in conditioning the company’s employees to recognize phishing attempts.”

“Tripwire Enterprise is a vital tool for us—it helps us maintain a more secure and controlled environment. It enables us to be very efficient in our analysis and remediation of change-related issues, and with the time we save we can optimize other areas. Without Tripwire there's no way I can monitor changes or installed patches. It allows us to execute change in a very structured and disciplined manner, and to immediately identify anything that doesn't conform to the policies and rules that we've put in place.”

SENIOR SECURITY AND NETWORK ENGINEER
LEADING FINANCIAL SERVICES SOLUTIONS PROVIDER

“The DD VLM-Pro solution has made a real difference for us at Austin Travis County Integral Care. The assistance provided by our DD PSA ensures that our IT teams can focus on those vulnerabilities that present the most threat to our critical IT assets. Additionally, Security GPA® makes it easy to report on the progress we continue to make in securing our networks and protecting our patient's healthcare information.”

DAVID EVANS
CHIEF EXECUTIVE OFFICER, AUSTIN TRAVIS COUNTY
INTEGRAL CARE

“By using Fortra's Classifier Suite, the information classification process became simple and our users have the accountability (identifying, classifying and labeling data / information) for information security of the information assets they own. By involving our users in data classification they became more data-aware, with a greater understanding of our policies and the value of our organization's data.”

ALEXANDROS ZIOMAS
CHIEF INFORMATION OFFICER, ALLIANZ

“We trust Fortra VM. We were decommissioning and breaking down systems daily, and the Security GPA helped us identify and prioritize any new issues.”

ABOUT HOXHUNT

Hoxhunt is a human risk management platform that combines AI and behavioral science to create and assign individualized learning paths that drive true behavior change and (measurably) lower human risk. Gamified micro-trainings teach end-users to detect and report advanced phishing attacks. Automated workflows help operations teams respond quickly, with limited resources. Security leaders gain outcome-driven metrics to document reduced cybersecurity risk.

102

TOTAL CUSTOMER REFERENCES

**VIEW ALL
REFERENCES**

FEATURED TESTIMONIALS

“Phishing is a relevant threat to OT environments, since it can be the first step where threat actors gain access to the OT environment. The consequences could be of course devastating. With Hoxhunt, we have a constantly developing service that requires low-maintenance efforts from the internal team. In cybersecurity, we don't normally get positive feedback from our end users. However, Hoxhunt is an exception to the rule. It's...”

ANTTI PALOKANGAS
CHIEF INFORMATION SECURITY OFFICER, AHLSTROM

“The Hoxhunt reporting button gives us visibility into what kinds of phishing emails are in the system. Before Hoxhunt, we didn't know what kinds of spam and phishing emails our users were getting. We trained users to delete suspicious emails. But now, with Hoxhunt, it's a game changer because we tell employees to report all suspicious emails. This gives us visibility into ongoing real phishing campaigns so we can react with activities like URL...”

TOBIAS HAUSER
HEAD OF INFORMATION SECURITY, VICTORINOX AG

“Hoxhunt is a part of our training and is in the whole organization. Through experience, and especially through the failures we make in training, it gives a good possibility to discuss why we moved forward with a link. It's discussed not only between white collars, but also with blue collars. Hoxhunt enables this journey by challenging us as individuals and as a team to be alert to the risk.”

MADS KIILERICH
PLANT MANAGER, AHLSTROM

“I'm so confident in our staff now with Hoxhunt that if people ask me how many cybersecurity officers I've got, I say '2000.' I know that everybody is going to be reporting threats and doing their job. We're flipping that human layer from being the biggest weakness to the biggest strength.”

“Carbonite Availability is more robust and more intuitive than any other tool that Microsoft or other vendors may have.” Best of all, he doesn’t worry about losing data. I just don’t feel comfortable using anything else.”

DOMINICK DELIO
VICE PRESIDENT, AUCTION ANYTHING

“Webroot has a footprint that is orders of magnitude smaller than our previous endpoint protection product, and it catches so many things our other security missed.”

DAVID BLAKE
CHIEF TECHNOLOGY OFFICER, SWAT SYSTEMS

“Clients look to us for peace of mind and OpenText’s Cybersecurity solutions help us protect our clients every single day and meet cyber insurance requirements.”

BRIAN WILKEY
CHIEF OPERATING OFFICER, DIGITAL BOARDWALK

“Being able to automatically block malicious scripts, especially from Emotet, is a game changer for us and our client base.”

FEATURED TESTIMONIALS

“CybeReady’s solution does exactly what it promises: provide an autonomous solution for all cyber security awareness needs at a click of a button. Their data-driven automated platform is well received by IT and Information Security teams who are low on resources and want to find an effective and easy product to cover their organizational awareness training needs.”

CHIEF EXECUTIVE OFFICER
LEADING CYBER SECURITY RESELLER

“Cybeready’s solutions can significantly reduce the human resource in terms of configurations, follow-ups, and reporting regarding the phishing campaigns and the micro-learnings. The dashboards and the available information gathered from the campaigns are very valuable and allow us to draw conclusions and make the right decisions.”

ZSOMBOR GYETVAI
OPERATIONAL IT SECURITY TEAM LEAD, WIZZ AIR

“CybeReady’s autonomous awareness training solution has proven to be very valuable for our customers. The setup is fast and easy, and they have great support team members who are always available to any question. We get awesome feedback about the users’ availability to spot and avoid phishing attacks without IT effort whatsoever.”

SALES EXECUTIVE
MAJOR SECURITY INTEGRATOR COMPANY

“We’ve been using CybeReady’s phishing simulation and learning program for the past five years, and recently added CAB, to cover all other security awareness training topics. We appreciate the solutions’ effectiveness and ease of use that allows us to train 9,500 employees every single month in their native language with no IT effort.”

FEATURED TESTIMONIALS

“CybSafe really brings home the challenges of maintaining good security behaviours at home and in the office, but it also makes it easy to turn those into ongoing habits. We’ve seen really high engagement in security for the first time.”

SUTHIDA JANTHAWONG
CLINICAL AFFAIRS ASSOCIATE, PERSPECTUM
DIAGNOSTICS

“CybSafe has allowed us to identify changes in security behaviour and respond accordingly. We now see and understand aspects of our human cyber risk that we simply couldn’t get from training & phishing.”

STEVEN PENDLETON
CHIEF INFORMATION SECURITY OFFICER, BMT

“Staff have been commenting that CybSafe content is “interesting”, “informative” and “thought-provoking” whilst being more “real” than other programmes they’ve engaged with.”

INGRID ROSTRON
BURSAR, REDCLIFFE SCHOOL

“CybSafe has provided exactly what we need to manage our human risk, and has given us the space to develop other areas of our cybersecurity strategy.”

“Using Threat Intelligence, we always look for possible data leaks tied to our employees and supply chain. This helps us stop any security breaches almost as soon as they happen. This forward-thinking strategy helps us spot which of our employees might be at risk. From there, we make a plan. This might involve staff training, making people use Multi-Factor Authentication...”

LAURA BALE
CHIEF INFORMATION SECURITY OFFICER, EUROPEAN BANK

“Our collaboration with Keepnet Labs in minimizing the threat of callback phishing is more than a strategy; it's a bold statement of our unwavering commitment to digital security and trust. By arming our team with the advanced skills needed to outsmart these threats, we're enhancing our defenses and redefining internet safety standards for our customers. By empowering...”

MICHEAL SMITH
CO-FOUNDER, LEADING TELECOMMUNICATION COMPANY

“We partnered with Keepnet to revolutionize our cybersecurity culture. By implementing tailored cybersecurity training to our global teams, we bolstered our security culture. This demonstrated our commitment to a proactive, employee-focused approach to cyber resilience.”

DAVID ANNABLE
CHIEF EXECUTIVE OFFICER, FRANKLIN FITCH

“Since integrating with Keepnet Labs, we've seen a dramatic 89% reduction in cyber insurance payouts. This isn't merely a financial win; it stands as a testament to our commitment to client security and the trust they place in us.”

OLIVER ABNEY
CHIEF INFORMATION SECURITY OFFICER, PROMINENT EU INSURANCE COMPANY

ABOUT PHISHED

Phished is on a daily mission to predict and prevent cyber incidents. With the aid of their smart and fully automated AI-driven platform, they train your employees to become a real Human Firewall for your organisation. Through a holistic combination of personalised simulations, training sessions, active reporting and threat intelligence, they guarantee permanent behavioural change. They also give you access to an organisation-wide Phished Behavioural Risk Score ® (BRS) to monitor your ever-evolving security status. This reduces the risk of cyber incidents measurably, both in the workplace & at home. Start building your Human Firewall...

FEATURED TESTIMONIALS

“Phished appealed to us because it offers a platform covering all aspects of cybersecurity: the Phished Academy focuses on awareness, the simulations and evaluations train users to handle real threats, and suspicious emails are reported through the report button. It's much more efficient to work with just one platform. Switching between tools for monitoring, training, user evaluation, etc., is too time-consuming and has minimal impact.”

HUBERT ADGIÉ
HEAD OF INFRASTRUCTURE AND NETWORK, ACCES
INDUSTRIE

“Phishing awareness is an essential part of every cybersecurity strategy for every company. Phished helps our clients excellently in creating this awareness, for every user.”

BAS BRUYNINCKX
INSIDE SALES CONSULTANT, AURELIUM

“Now with Phished everything is fully automated. Employees receive consistent, frequent, personalized training which is truly paying off.”

CARLOS ASENJO
HEAD OF IT INFRASTRUCTURE, REDEXIS GAS

“From one in three phished employees, we reached our target of consistently achieving a phishing score below 10% after just two months.”

BJORN VAN REET
CHIEF INFORMATION OFFICER, KINEPOLIS
