18 CUSTOMER SUCCESS REPORT

CONSTRUCTION MANAGEMENT SOFTWARE CATEGORY

CONSTRUCTION MANAGEMENT SOFTWARE OVERVIEW

The construction industry is a complex business as each project has its own set of construction management needs. Construction management software can help from the initial idea through to costing, constructing and completing by using different software such as construction estimating software, bidding software, accounting software, home building software and construction project management software.

The main purpose of construction management software is to control and determine the quality, time, and cost of a project. Planning, control, and coordination are all key components of construction management. With this type of software in place, users are able to specify project plans and objectives, implement various operations and maximize their resource efficiency, as well as develop effective means of communication that could mitigate potential conflicts.

CUSTOMER SUCCESS SCORING METHODOLOGY

The FeaturedCustomers.com Customer Success score is based on data from our customer success content platform, social presence, as well as additional data aggregated from online sources and social media properties. Our ranking engine applies an algorithm to all of the data collected to calculate the overall Customer Success score. The overall Customer Success score is a weighted average based on 3 parts:

Content Score is affected by the following:

1. # of vendor generated customer success content pieces (case studies, success stories, testimonials, and customer videos)
2. Content quality score generated from all customer success content
3. % Change in Content over past 6 months
4. Number of employees (based on social media and public resources)

Social Score is affected by the following:

1. # of LinkedIn followers
2. # of Twitter followers
3. # of Facebook likes
4. Number of employees (based on social media and public sources)
5. Engagement across all platforms

Company Score is affected by the following:

1. Number of employees (based on social media and public resources)
2. Vendor momentum based on web traffic and search trends
3. Employee satisfaction and engagement (based on social network ratings)
4. % traffic increase to your Customer References
5. Lower Funnel SEO Key Term Rankings

CUSTOMER SUCCESS AWARDS

Market Leader (86 - 95)

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

Top Performer (80 - 85)

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Leader.

Rising Star (70 - 79)

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

Frequently Asked Questions

Describe who the software is best for - their role(s) within what kind of companies.

The software is designed for both specialty contractors and general contractors. The controllers, general managers, president, owner, and general staff members within the company would utilize the software.

How does this software benefit them?

The software benefits companies by automating processes, having everyone on the same page, reducing manual entries, improving cash flow, enhancing customer service, providing detailed reports for quicker decisions, and much more.

What makes Jonas Construction Software a leader in this space?

Jonas Software is a leader in the industry as they have been around for 25 years and truly understand both the construction and service industries. The functionality in the software is unparalleled. The software is developed completely in house, and while Jonas can integrate with other third-party systems, they understand the importance of having a solid product at its core. The balance between Job (Project) and Service Management cannot be found in any other systems on the market today.

What kind of features can customers expect to see in the near future? And longer term?

Jonas Software is always looking to improve the ease-of-use and make the software more user friendly, as they understand the importance of a simple, yet powerful solution. In the near future, Jonas will be releasing a cloud project management solution, which will allow all project managers to complete Time Entry, RFI's, Submittals, PO's, and Change Orders directly from the field. In addition, for 2019 they will be building out a drawing management system and releasing a new update in document management to include Optical Character Recognition.

What kind of training/education is offered?

Jonas offers both onsite and online one-on-one training, as well as group training. Additionally we host annual 3-day conferences where customers can join learn from all our experts in person.

Describe the implementation process and timeline.

The implementation timeline is about three to four months, while the process can vary based on the needs and requirements of the company.

What are the support options? List all.

24/7 emergency and unlimited support.

B2W SOFTWARE

MARKET LEADER

ABOUT B2W SOFTWARE

B2W provides specialized software for heavy civil construction management. Companies use B2W Software to bid on large-scale infrastructure and commercial projects, plan and manage operations, maintain large fleets of equipment and leverage business intelligence. B2W Software empowers and inspires heavy civil construction companies to win more work and complete it more profitably. The company's ONE Platform includes applications to manage estimating, scheduling, field tracking, equipment maintenance, data capture and business intelligence. A common source for operational data ensures accuracy and efficiency, and data flows logically across the platform in real time, creating differentiating opportunities for clients to collaborate across workflows and optimize performance.

TRUSTED BY:

Dallas 1 Construction Services   GERBER CONSTRUCTION   LANDMARK CONSTRUCTION   PACE CONSTRUCTION   SHERWOOD COMPANIES

"Great location, coursework and activities. The course layout was very good, and the ability of the presenters to adapt the course to answer questions from the users made it even more useful. I plan to attend every time it is on the east coast."

Adrian Galloway
Ripa & Associates

"B2W Software saves us a great deal of time in putting bids together, and has allowed us a greater level of consistency in preparing our bids. After I created my resource database, it took no time at all to start bidding on jobs. One big strength is that I am able to double-check item unit prices very simply, without having to rely on past history."
Sean Donohoe
The DDS Companies

"We used the comparison method in B2W Estimate and were able to understand that this was the key to this part of the job. We decided to do the foundation work ourselves, and won the job because of this decision."

Francis Beaujault
Chief Estimator, Pomerleau

"Even a few die-hard spreadsheet supporters we had in that division were won over by Estimate."

PlanGrid

ABOUT PLANGRID

PlanGrid is construction productivity software used on more than 500,000 projects around the world. The company provides contractors and owners in all construction verticals the tools to collaborate effectively and collect and manage project information throughout the project's construction and operations lifespan. PlanGrid aims to increase team productivity by: streamlining document management and control, providing collaborators with easy access to all project information from any device, and enabling seamless collaboration. This leads to building the most comprehensive record set for the entire construction and operations lifecycle and consistently delivering on time and on budget.

TRUSTED BY:

AECOM   COMCAST TECHNOLOGY SOLUTIONS   Gensler   NORDSTROM   NVIDIA

"Assurance that the team is using the most up-to-date plans is a huge benefit. It is much easier to keep plans updated, posting RFIs, issues and redlines than the old-fashioned way with paper."

Jenny Schnackenberg
Project Executive, Power Design

"After 27 years of having paper documents in the field, in carts, or print shacks, PlanGrid has saved me hours a day by not having to go to back and forth to retrieve documents. Now I can spend more time in the field and less time in the office trailer."
David R. King
Former Project Superintendent, Hoar Construction

"It's simple for people in the field to use, and plans download to your device so you're not reliant on connectivity."

Randy Lucchesi
Lead Project Engineer, Granite Construction

"PlanGrid keeps the entire team connected to the most up to date plans, while saving money and time."

DEXTER + CHANEY

TOP PERFORMER

ABOUT DEXTER + CHANEY

Dexter + Chaney is the leader in cloud-based construction ERP software and developer of Spectrum® Construction Software. The company has been providing complete construction management software for more than 35 years. From the office to the field, from accounting to project management, Dexter + Chaney software is used by more than 1,100 companies. Their clients come from all segments of the industry—heavy/highway and utility, general contractors, electrical, mechanical, and specialty subcontractors—and are companies of all sizes, from locally owned subcontractors to some of the world's largest construction firms.

TRUSTED BY:

ALL TYPE ELECTRIC   CASCADE DRILLING | TECHNICAL SERVICES   GARCO   SCOTT BUILDERS INC   YALE MECHANICAL

"It's like having the best of all worlds—solutions geared to better manage all of the different facets of our business."

Terry Oakes
Wilson Electric's CFO, Wilson Electric Services Corp.

"[Dexter + Chaney] always seemed to be enhancing their software with new functionality and feature sets."
Jim Morrison
Chief Financial Officer, Garco Construction

"Just this past summer, I reviewed draw requests from 35,000 feet in the air on WiFi on a flight to China over Siberia. Spectrum allows us to be flexible and travel with our data at our fingertips wherever we are. That's powerful."

Michael Brown
Managing Principal, The Coles Bay Group, All Type Electric

"We're just scratching the surface of Spectrum's project management capabilities, right now. I'm excited at what Dexter + Chaney has done with this and what it will be able to help us do in the future."

Dallas Williams
General Manager, Scott Builders

bridgit

TOP PERFORMER

ABOUT BRIDGIT

Construction shouldn't be so complicated. With Bridgit's construction management software, you can streamline your projects,from pre-con to completion. Create a site quality plan with Bridgit Quality. Manage the punch process and on-site work with Bridgit Tasks. Unlock your site's data with Bridgit Insights.

TRUSTED BY:

ANDERSEN CONSTRUCTION — **ARCO MURRAY** | DESIGN BUILD — **minto** — **HODGES & HICKS** GENERAL CONTRACTORS — **MULTIPLEX**

"I'm probably saving at least 20 hours or more of our time and our superintendent's time. People aren't walking around with folded up punch lists where they have 300 items, but only 10 of them are theirs."

Andrew Sills
Project Manager, Hodges & Hicks General Contractors

"Bridgit has been a great addition to McKay-Cocker's tool belt! The software is an efficient tracking tool that takes the burden off the project team by providing an app easy enough for even the least tech savvy to use (it takes two minutes to learn!)."
Sandra Feenstra
Project Coordinator, McKay-Cocker Construction

"I was able to pull up the unit to see all of the logged issues in Bridgit Closeout, and then better decide which route I needed to take in fixing the deficiencies."

Jordan Davidson
Installer, Midnorthern Appliance

"It was interesting to work with a software that said: 'We're going to do punch lists and we're going to focus on being the best. We'll help set up everything, and make it easy and customizable for the project team."

Kyle Darnell
Divisional Manager of Senior Living and Multi-Family Group, ARCO Construction Company

FOUNDATION
software

TOP PERFORMER

ABOUT FOUNDATION SOFTWARE

Foundation Software offers FOUNDATION mobile®--a Web-based application that works in allows users to enter and review timecards, job data and field notes remotely. Finally, the brand-new Service Dispatch mobile lets service technicians receive notes and directions about their dispatches, log time, record materials used, send back notes and more! FOUNDATION is also available on the cloud as FOUNDATION SaaS ("software as a service").

TRUSTED BY:

"Because FOUNDATION runs on a Microsoft SQL database, we knew the integrity of the date-sensitive data was ensured. We also liked the user-friendly format, the complete integration between modules, and how it easily integrates with external interfaces."

Dale Winters
Vice President and Assistant General Manager, HTH Companies

"We like to track quantities and estimated vs. actual costs of our self-performed work. FOUNDATION for Window's flexibility in job cost reporting and ability to easily tie into outside software, such as Excel, were deciding factors in making the change."
Rick Pavelick
CFO, Landau Building

"It's rare I come across a vendor I'm so pleased with. I'm pleasantly surprised by how well Foundation runs its company. My dream is that my company can leave that kind of impression."

Ryan
President, VEI Solutions

"I had pages of questions and they answered all of them. I told my boss, 'We've got to have this."

ABOUT OXBLUE

Since the founding of OxBlue, in 2001, they have maintained exclusive focus on the needs of the construction industry. OxBlue approach has always been to hold themselves to the highest standard by providing a turnkey solution — connection, every piece of construction camera hardware and all service comes included in a straightforward price. OxBlue recognizes the value of a diverse workplace, and we are committed to being an Equal Opportunity Employer.

TRUSTED BY:

It has proven to be a very efficient way to communicate project status to the overall project team as well as to the public. We did research on webcam systems and selected OxBlue because it was the easiest to understand and implement. We're really pleased with the product.

Lorenzo Garrido
Deputy Construction Manager, Parsons

The interface is easy to navigate, and it's Web-based. I need flexibility, and I get it with the OxBlue system. Today, that flexibility extends to mobile devices. When I'm traveling, I can use my iPhone to easily pull up a project without having to open up a computer. I can pull out my smartphone and know exactly what's going on everywhere. OxBlue…

Marty Gilbert
Director, Walmart Energy Team, Walmart

"Because our investment and executive teams are based here in Atlanta, those guys don't get a chance to view the progress of our company's construction ventures in real time. They are typically limited to the review of progress reports. OxBlue images provide a great way for the team to see their investments come to fruition, right from their desk."

Gary Womack
Noble Investment Group

Sixteen years ago, when we renovated our business school, we captured time-lapsed photos of the project. This time around, we contacted our internal IT people. The camera they offered us did not have time-lapse capabilities, so we wanted to find a more advanced technology. Older technologies included an IP address where you could view…

ComputerEase

TOP PERFORMER

ABOUT COMPUTEREASE

ComputerEase is the leading provider of Construction Accounting and Project Management Software for Contractors. This all-in-one software is easy to use and works the way a contractor works. By investing in the brightest programming minds, ComputerEase has crafted a fully-integrated Job Costing, Accounting and Project Management solution along with field-to-office integration. More than 6,000 contractors trust ComputerEase to run their business every day.

TRUSTED BY:

"FieldEase has allowed us to eliminate a payroll position and a service department administration assistant."

Scott Teepe, Jr.
Project Scheduling Coordinator, TP Mechanical Contractors

"The recent updates have been fantastic (adding spell check, pop ups when updates are added, etc)."

Tiffany Hollis
Facilitator at Riverside Electric, Riverside Electric inc

"CE is pretty much easy to use in every function, but the payroll has helped me save a tremendous amount of time by having the FE out in the field for our employees. I also really like the document control, where all documents can be created in the field or in house and be updated in the system. I like that there is a transmittal/correspondence log"

Jessica
Acadiane' Renovations

"It is user friendly and easily maneuvered. Just about anything you want to do or can think of doing can be done in CE. I like the "shortcuts" that make entering/typing much faster. I'm all about shortening key strokes."

ABOUT HCSS

Since 1986, HCSS has been developing software to help construction companies streamline their operations. Today, they are recognized as a pioneer and leader in their market, serving thousands of construction companies across the nation. Year after year, they continue to innovate, refine, and expand their products as the industry evolves.

TRUSTED BY:

"There's no more writing it all down. Everything is flowing really nicely with what they're giving us and what GPS is showing on our reports. We print the report and give it to accounting, and they can do the billing and payroll directly from that."

Tom Alverson
Casper Construction

"That was easy. Answered on the second ring. I expected a computer to answer and I was kinda shocked after I realized I was talking to a live person. Almost didn't know what to say. I was listening for a series of option buttons to push starting with the option para Espanol, oprima dos. Top notch support!!!"
Stan Allen
Ed Bell Construction

"The GPS has an asset ID number, and those are all unique. We set those up only to realize that we couldn't find one of the dumpsters. It was sitting at an oil field location, and no one ever reported that it was out there. So even installing the GPS actually helped us find equipment."

Jordan Kessel
GPS/IT manager, Baranko Bros. Inc

"The only thing we rely on our IT department for now is to provide Internet access. Any tech support issues we have, we call in and HCSS solves them right away."

Jim Richard
Estimating Manager, James Construction Group

APROPLAN

ABOUT APROPLAN

APROPLAN is the construction management software that lets you keep track of your progress and collaborate with your team. Get work done in the office and on site. Save up to 75% of your time on each construction project.

TRUSTED BY:

A2D bam BPC exquando the content professionals FRANKI

"APROPLAN makes our progress reports more efficient by automatically merging all photos and points. As a result, we do not have to waste time manually making the links. Furthermore, APROPLAN gives us a clear overview of the remaining points."

Jean Paul van der Torre
Senior Project Manager, Oostelbos Van den Berg

"To best advice our clients in the area of document management systems, Exquando is continuously keeping itself up-to-date on any developments for such platforms. We find Aproplan particularly interesting thanks to its ease of use, its quick and simple set-up, and its almost immediate return on investment."
Marc Ansoult
Managing Director, Exquando

"We are highly satisfied with the (APROPLAN) Support (team). This is one of the reasons why we keep working with APROPLAN and not with other similar apps. APROPLAN listens; APROPLAN looks for solutions. This is really their biggest strength."

Franco Dennis
Production Manager Buildings, BAM Contractors

"Since I started using APROPLAN, task management has become "a piece of cake". The traditional 3 steps have now become part of a single interface. In addition to managing the construction site, APROPLAN is improving task monitoring as informing subcontractors about any problems we are running into or might run into has become easier.…

Builder MT
MANAGEMENT TECHNOLOGY

ABOUT BUILDERMT

For the home building industry at large, BuilderMT (a MiTek® company) provides highly-customizable workflow and building-process-management software that works in tandem with leading accounting systems and other wireless and jobsite productivity tools, such as CRM and warranty management. For 20 years, BuilderMT systems have been purchased by more than 1,000 home builders and cumulatively used as a desktop workflow tool by upwards of 10,000 home building professionals.

TRUSTED BY:

FUSIONHOMES   Garman Homes   GRAYHAWK HOMES, INC.   VERIDIAN HOMES   VINTAGE HOMES LLC

"It has saved us a great deal of money already, Our cost for BPM was around $30,000, and we soon paid for the software platform with just this VPO process, and we have plans for several additional BPM processes in the works."

Philip Robichaud
Information Technology Manager, Morrison Homes

"Now, with the power of those models, and the data they contain, coupled with BIM Pipeline's estimating capabilities, we will be able to process 680 starts with just three people in estimating and purchasing and two in drafting."
Matt Robbins
CAD & Estimating Manager, Allen Edwin Homes

"Builder MT is an amazing product and has everything you could ever need in a construction software system. Depending on the size of your company it may be more than you need. If I'm not mistaken, more Builders use Builder MT than all the other construction software companies combined so there is lots of support."

Nathan Lambert
Director of Purchasing, SEDA Construction Company

"We can now generate reports specific to customers and properties without having to sift through countless reports manually. We can handle requests in a more streamlined fashion – and our customers are happier."

eTakeoff

ABOUT ETAKEOFF

eTakeoff's speciality is an electronic Quantity Takeoff. There are thousands of contractors in every construction trade who use eTakeoff daily to boost their productivity by as much as 15 times over paper takeoff! eTakeoff incorporates sophisticated Assembly capabilities and even has a patented symbol search feature (Auto-count), yet it is one of the easiest to use Takeoff tools on the market. Software Advice awarded eTakeoff an Industry Award, stating it is "one of the best-designed construction takeoff UIs on the market." The combination of productivity gains and ease of use prompted McGraw Hill to select eTakeoff for their Construction Dodge Plan Rooms.
