

IT Asset Management Category

IT Asset Management Category

IT Asset Management (ITAM) software is used to manage all elements of hardware and software used by an organization. It allows enterprises to implement business practices that include IT assets across the firm's business units. You can combine ITAM with risk, contractual, inventory, and financial management processes to efficiently handle the lifecycle of these assets, including tactical decision making.

ITAM software helps to collect detailed software and hardware inventory information which is utilized to make informed decisions on purchases and how assets are leveraged. Precise IT asset inventory assists businesses to more effectively use their existing assets and avoid needless asset buys by re-utilizing current resources. ITAM also allows enterprises to reduce the expenses of unknowingly developing new IT projects on unknown or outdated infrastructure foundations.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ▢ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▢ Customer reference rating score
- ▢ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▢ Total # of profile views on FeaturedCustomers platform
- ▢ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▢ Social media followers including LinkedIn, Twitter, & Facebook
- ▢ Vendor momentum based on web traffic and search trends
- ▢ Organic SEO key term rankings
- ▢ Company presence including # of press mentions

COMPANY SCORE

- ▢ Total # of employees (based on social media and public resources)
- ▢ Year-over-year change in # of employees over past 12 months
- ▢ Glassdoor ranking
- ▢ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT ASSET PANDA

Asset Panda, the most powerful, yet simple to use free asset tracking software in the world, enables clients to track their valuable assets exactly how they want, and from the mobile devices they already carry. The platform may be accessed either online or via free mobile iOS and Android apps that sync with the cloud. The apps include a mobile barcode scanner, so there's no need to purchase a separate handheld barcode scanner. Users can add voice notes, videos, documents or photos to the asset's information.

Featured Testimonials

“Overall, your software has helped us more easily track items such as our small tools and GPS equipment. The software is very user-friendly and if something is not easily discovered a quick email to support solves the problem. In fact, customer support has been great; they always get back to me with answers. I'd highly recommend Asset Panda to other general contractors!”

ANTHONY KINNER
IT MANAGER, SHELLY & SANDS

“There are many aspects of Asset Panda that have improved our tracking processes. The customization of the software has been especially useful. We have been able to tailor the software to our exact needs and how we need it to work for us. From a cost savings standpoint, we are creating our packing lists in a much more timely manner and that's impacting the bottom line in better and more accurate asset listings so that we know where our equipment is at all times.”

JODY WILLIAMS
COMPUTING AND WEB INFRASTRUCTURE GROUP, NATIONAL CENTER FOR ATMOSPHERIC RESEARCH (NCAR)

“Most useful for us has been the ability to quickly search for equipment. Before, all of our assets were listed in separate spreadsheets. After collating this information and having Asset Panda upload it all, we are now able to locate equipment much faster. And registering new equipment is much faster thanks to the ability to scan barcodes with the mobile app.”

DAVID BEECH
IT SUPPORT OFFICER GRIFFITHS, ALUN GRIFFITHS (CONTRACTORS) LTD

“There is no other solution like Asset Panda. It can be completely customized, which sets it apart. Customization, coupled with the ease of use, has made Asset Panda the best asset management software that I have ever encountered.”

ABOUT DEVICE42

DEVICE42

Device42 is the most comprehensive agentless discovery system for Hybrid IT available today. Device42 can continuously discover, map, and optimize infrastructure and applications across data centers and cloud, providing accurate views of your IT ecosystem. Device42 intelligently groups discovered workloads by application affinities, dramatically reducing the effort required to create move groups, capturing all communications. Customers in more than 60 countries including Global 2000 clients and Systems Integrators use these capabilities as they manage and modernize their IT infrastructure and application landscapes and adopt DevOps practices.

[VIEW ALL REFERENCES](#)

Featured Testimonials

“Device42 was obviously built with the hybrid and cloud-only environments in mind, and if you run a hybrid or cloud-only datacenter, Device42 is a great choice. They also offer stellar support, and really value customer feedback & requests - We knew they were the right choice when they offered to let us pilot their Agent Based Discovery, and we couldn't be happier with the results.”

APPDIRECT

“Trying to manage IT inventory without an agentless auto-discovery tool that stores accurate device data in a centralized database is very difficult. Manually managed lists are burdensome and quickly become out of sync with the actual environment. Once the data is discovered, having a place to manage discovery and configuration data together is invaluable. Device42 does all that and more.”

CIO
INTERNATIONAL FINANCIAL DATA SERVICES

“The discovery process is a very complicated task that requires a great deal of trust between Dell EMC and its clients. Device42 software has been such a huge help in enabling us to do more than some clients have even wanted to keep it for future use in-house. We have a great partnership with Device42 and have been able to work out a way to make that happen. It's good for the software supplier, Dell EMC and, most important, our clients.”

PAUL DINICOLA
SENIOR CONSULTANT, DELL EMC

“Trying to manage IT inventory without a tool that stores accurate device data in a centralized database is very difficult. Manually managed lists are burdensome and quickly become out of sync with the actual environment. One of the keys that sold us on Device42 is that it's “fast” in every way. It's easy to get information in and out, easy to install, support is fast, the user interface is fast, the purchase process was fast, and the software itself was fast to learn - We don't like wasting time, and with Device42, no time was wasted.”

“The FlexNet Manager solution has given us an automated process in which we can track license usage more accurately and maintain control over our EDA purchasing decisions.”

DAN GRIFFITH
MANAGER, EDA BUSINESS RELATIONS AND ASSET MANAGEMENT, FREESCALE SEMICONDUCTOR

“Flexera Software's FlexNet Connect solution enabled us to release our Thomson Reuters Eikon product with best-in-class software update capabilities that gives our customers peace of mind that their real-time financial desktop software will be up-to-date and operational 24/7.”

ANDREI BORSARU
THOMSON REUTERS

“In the specific area of I.T. tracking, the best solution I've seen lately is Flexera, which helps companies of every size get a handle on their hardware, understand their ongoing operations and exposures, and then figure out what needs to be done to rationalize and ultimately optimize the whole messy I.T. sprawl.”

HOWARD TULLMAN
EXECUTIVE DIRECTOR, ILLINOIS INSTITUTE OF TECHNOLOGY

“Flexera's App Portal and FlexNet Manager Suite have enabled us to proactively maintain license compliance, streamline service delivery and significantly improve the user experience. The new AZ SoftwareStore has delivered annual labor savings of nearly \$2 million. Simplification has really driven results and delivered valuable time and cost savings back to the business.”

ABOUT FRESHSERVICE

Freshservice is a cloud-based IT service desk and IT service management (ITSM) solution that leverages ITIL best practices to enable organizations to focus on exceptional service delivery and customer satisfaction. With its intuitive and simple UI, Freshservice is easy to configure for use in various business functions like HR, facilities, marketing, finance. Freshservice is the Winner of SDI's Best Implementation of an ITSM Solution Award 2017, and ranked the best software for mid market IT teams in G2 Crowd.

Featured Testimonials

“The reporting in Freshservice has been very valuable. It helps show where we are spending the most time on certain incidents and explore root causes. The collaboration on tickets is amazing. Being able to communicate within the department and not having to reassign tickets is amazing.”

WILLIAM CAREY UNIVERSITY

“The Box integration is fundamental to our service desk. We sync all the files on our server with Box and directly connect to Box from our tickets. Freshservice has helped us save time as well as space – we collaborate a lot more efficiently with our clients now.”

MIPSMEDIA

“The Freshservice mobile app has cut down a lot of time for us and we like to be mobile when we're away from the desk. Freshservice is a fantastic product that we're happy to have chosen as our ITSM solution.”

TONY CASEY
MANAGER OF INFORMATION TECHNOLOGY, MOTORAMA

“From an IT perspective, Freshservice is well aligned with our global IT structure and has helped us attain maturity in managing our IT services. It has also been instrumental in aligning our teams located across different countries and bring complete visibility into our global IT operations.”

Featured Testimonials

“SysAid truly is the number one helpdesk resource for IT admins, from ticket logging to self-service account unlocks - it has it all. But not only that, SysAid listens to its customers.”

JONATHAN PURVIS
IT MANAGER, KEFRON

“By using SysAid we've saved Crawshaw Academy 65% of its costs associated with the previous Managed Service. You have no idea how much organizational value it has added, both for IT and other administrative departments. And we can now respond to 50% of calls via remote control, meaning real-time support in classrooms without disrupting learning.”

CRAIG BOYLE
ICT NETWORK MANAGER, CRAWSHAW ACADEMY

“Ease of use is a key factor for us. With SysAid, it's straightforward to establish a workflow from ticket creation to resolution. We are now able to provide a better service for our staff across 5 campuses.”

JOHN LISTER
TECHNICAL DIRECTOR, WAKEFIELD GRAMMAR SCHOOL FOUNDATION

“SysAid is an excellent IT management software that has tons of features that make my job as an IT manager easier. The ticketing system is easy for our end users and the asset management makes tracking equipment a breeze. We also benefit from the ability to remote into our end users' machines. To have all of this rolled into one package is extremely helpful.”

ABOUT TOPDESK

TOPdesk founded in Delft, the Netherlands, over 25 years ago by 2 students who wanted to make a difference. Their goal was to help others improve their customer service – with software that is simple and easy to use. Since then, the organization grown from 2 employees to 750, and from a single small office to over 15 branches worldwide. They might be large, but they have never stopped believing in their core values: listening to the customer's needs and giving employees the trust, freedom, and responsibility to do great things.

Featured Testimonials

“Our relationship with TOPdesk is very good. It is not only about money and there is a lot of care and attention. I know that whenever I've got a problem or an issue I can reach out and someone will sort it out for us in no time. With TOPdesk, there is always someone who will check in and call us from time to time to see how we are getting on. They don't just leave us completely alone; I can come and visit, especially now that TOPdesk opened another office in Manchester. Everyone is very approachable.”

UYI UHUNMWAGHO
SERVICE DESK MANAGER, ARTS COUNCIL ENGLAND

“TOPdesk is very friendly and helpful. They implemented TOPdesk quicker and easier than expected. TOPdesk consultants led the set-up, devised a detailed daily plan and laid out every task clearly. They are the most hands-on company that I've worked with in 10 years. We've never had a deployment go as smoothly.”

DEREK GALIPEAU
SUPERVISOR OF TECHNICAL SERVICES & SUPPORT, DISTRICT SCHOOL BOARD OF NIAGARA

“We were very impressed with the people at TOPdesk as they listened to our needs and supported us every step of the way. With their help, we managed to tailor the Incident Management and Problem Management processes to meet the university's requirements.”

MARK WETTON
HEAD OF THE SERVICE MANAGEMENT, THE UNIVERSITY OF EDINBURGH

“Because the IT department was already pleased with TOPdesk, the Facilities department also implemented the system. Every day, trolleys stacked with food and beverages are boarded onto the planes. And when a stewardess finds out that she has almost run out of refreshments, she passes this information on to us. We even use TOPdesk to register the distribution of our work clothes. We have various types of uniform, so it's important that everybody receives the right ones. Now we have fully automated this process in TOPdesk.”

ABOUT AXIOS

ITSM & ITOM SOFTWARE

Axios is recognized as a world leader by leading analysts and their global client base, with a 100% focus on service management technologies. Axios's enterprise ITSM software, assyst, is purpose-built to transform IT departments into profitable business-focused customer service teams. assyst adds tangible value to each client's organization by building on the ITIL® framework to help solve their business challenges across the organization. In 2014, assyst was accredited for all fifteen PinkVERIFY™ ITIL® processes, and was the first technology vendor to do so within a single solution.

Featured Testimonials

“Using assyst has allowed us much more flexibility and eased the editing of customer records, attaching files and adding screenshots. Capturing all parts of the customer interaction is vital for a successful help desk.”

TERENA CROSS
SUPPORT CENTER SUPERVISOR, MOHAWK

“The assyst process workflows allow us to implement the solution right across the business, and as we grow we can add more and more automation, giving us the visibility of resources required to fulfil the services. This enables us to save time and money, or use resources elsewhere.”

ROBERT HERRING
MANAGER OF SERVICE MANAGEMENT, MMG

“M.video has benefited from a unified, scalable, easy to upgrade ITSM platform which enables performance and management of IT services for businesses based on process approach. assyst allows M.video to manage quality according to SLAs with internal and external IT services providers.”

YURY NAPORKIN
MANAGER, M.VIDEO

“Assyst has provided us a user-friendly experience for ourselves and the end user in tracking shopping cart enquiries within transactional procurement. As manager of the team it enables me to easily see the work at hand and what should be prioritised as well as keep all communications for each enquiry in one place.”

Featured Testimonials

“We really liked that we could use Ivanti Service Manager out of the box. We are implementing ITIL processes, and Ivanti provided a good framework to start. We didn't need to tweak the workflow if we didn't want to.”

CANDICE JACKSON
IT SERVICE DESK MANAGER, TOTAL WINE & MORE

“With Ivanti, I could see straight away that we were purchasing a very powerful and configurable tool, and the 'out of the box' processes available with Ivanti mapped well with our implementation designs. Our partnership with Ivanti will play an important role in keeping thousands of IT users operational and our IT teams happy.”

JOHN IRELAND
DIRECTOR OF CUSTOMER SERVICES, UNIVERSITY OF OXFORD

“Providing services to an organization with over 300 decentralized networks would be nearly impossible without a solution like Ivanti Automation to streamline troubleshooting and ongoing management processes.”

ANDERS LINDVIK
BUSINESS MANAGER, NEISA DENMARK

“Ivanti LANrev provides the information we need as a brand to guide purchasing decisions, updates, and refreshes. We can see what is installed where, who needs which version, what needs more RAM, and what is in need of repair or retirement, resulting in cost transparency. The asset inventory capabilities were a big win for us; we now have the visibility we need to guide IT strategy.”

ABOUT LANSWEEPER

Lansweeper

Lansweeper develop and support their software which builds and leverages a system of record in any IT environment. Managing IT has never been a bigger challenge. Hardware, software, and users can be anywhere at any time, making IT environments extremely dynamic and often complex.

Featured Testimonials

“Lansweeper has become the number one solution in our IT department. The software is rock stable, easy to use and holds lots of information accessible through an easy-to-use reporting tool.”

KLAUS HILLEBRANDS
IT MANAGER, CHAMBER OF COMMERCE OF NORTH RHINE-WESTPHALIA

“I would definitely recommend the highlighted features. In order to get the most out of Lansweeper, Thomas indicates that "the willingness to review the diverse reports is key. Any IT professional is likely to find a report that they weren't expecting to be in the software.”

THOMAS KISALA
TECHNICAL SERVICES DIRECTOR, AASYS GROUP

“The moment we get a call concerning a malfunctioning device, the first thing we do is comb the Lansweeper event logs to look for a possible cause. Via the Lansweeper platform, we can see exactly how long a user's system has been up and running. If it's been up for a month, the solution could be as simple as a reboot. These insights change our problem-solving strategies and bring us quick wins.”

MASSIMO HEYNDERICK
NETWORK ADMINISTRATOR, BROTHERS OF CHARITY

“Lansweeper played a vital part in that project. It allowed us to know how many PCs we had at every single site and what their age profile was. Based on that information, we set up a detailed rollout of the new operating system. We also had information about every last logged-on user, so we knew exactly which employees in which departments would be affected by the project.”

Featured Testimonials

“The most flexible help desk software ever written. If you can think it, it will do it. InvGate support is phenomenal. "No" and "it can't" are not in their vocabulary. New feature development never ends. We have asked and they have created. One of the best choices we have ever made.”

JEFFREY UCHTMAN
NETWORK & SYSTEMS ADMINISTRATOR, COLUMBUS PUBLIC SCHOOLS

“The biggest differentiator was the level of customization offered by InvGate to suit our specific needs in the field of education.”

MARTIN NUÑEZ
SERVICE DESK MANAGER, HARMONY PUBLIC SCHOOLS

“A solid, easy to use Help Desk system. InvGate Service Desk has allowed us to streamline operations from a mess of undocumented work from multiple channels to a single system. The GUI has an attractive and intuitive design. InvGate releases improvements on a regular, frequent schedule, and their development team takes improvement suggestions and integrates them into the product.”

TIM BONSOE
IT NETWORK OPERATIONS MANAGER, CEFCU

“The ability to customize the product to handle whatever situation our business has is a major pro. It provides a better visual experience for our agents and end users compared with our previous product. It allows the agents to better tell what is happening with a quick view of the dashboards and the tickets assigned to them so they know what they need to work on.”
