

# **Construction Management Software Category**

## Construction Management Software Category

Construction management software aids the construction management team as all managers have access to the data at all times via their computer or phone. They can immediately see if the construction cost is on budget, if the work is on time, and information regarding employees, subcontractors and suppliers as well as building licenses and regulations. This helps to make informed decisions about the project and its progress based on facts.

The construction manager will be responsible for all stages of construction management which could involve design, dealing with the planning authorities, buying the stock, building the team, getting construction contracts drawn up, overseeing the work, keeping on top of the construction cost and signing off the construction.

# Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

## CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

## MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

## COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

## Award Levels

### MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

### ABOUT B2W SOFTWARE

SOFTWARE

B2W Software empowers and inspires heavy civil construction companies to win more work and complete it more profitably. The company's unified ONE Platform keeps people, workflows and data connected in real time and includes specialized elements to manage estimating, scheduling, dispatching, field tracking and equipment maintenance as well as data capture and analysis. A common source for operational data ensures accuracy and efficiency, and data flows logically across the platform in real time. This creates differentiating opportunities for construction companies to collaborate across workflows and optimize performance. B2W is privately owned, headquartered in Portsmouth, NH and has focused exclusively on software solutions for heavy civil construction sectors since 1993.

### Featured Testimonials

“Track links the information from estimates to our field tracking process automatically, eliminating the added work and inconsistencies of reentering data and managing disconnected systems. We can now monitor and report on virtually any aspect of a job in comparison with the estimate and respond quickly. The potential for field supervisors to complete daily records electronically will give us even more immediacy and efficiency.”

ALEX KALMAR  
CONSTRUCTION ACCOUNTING SUPERVISOR, STEED AND EVANS

“Whether it be training, bid preparation, importing/exporting, soliciting for quotes, or system administration; time savings are realized throughout all processes with B2W Estimate. Time savings translates to increased bid accuracy, higher productivity, less user stress, and ultimately money savings.”

ALAN FARRINGTON  
VICE PRESIDENT OF CONSTRUCTION, SHERWOOD COMPANIES

“B2W has really been a great fit. Not only do they understand construction in terms of the job site, but they also understand it in terms of what life is like in the back office. They understand the solutions need to be as easy to install and support as they are to use.”

JASON TSCHETTER  
M. A. MORTENSON COMPANY

#### ABOUT BLUEBEAM SOFTWARE, INC.

Bluebeam Software, Inc. pushes the boundaries of innovation, developing smart, simple markup and collaboration solutions for design and construction professionals worldwide. Since 2002, Bluebeam Software, Inc. has made desktop, mobile and cloud-based solutions for paperless workflows that leverage PDF to enable a common data environment, improve project communication, and streamline processes across the entire project life cycle. Trusted by over 1 million individuals in more than 100 countries, Bluebeam's solutions advance the way technical professionals work, manage and collaborate on projects digitally.

### Featured Testimonials

“The ability to work in Sets in Bluebeam Revu 11 is going to revolutionize how our teams work in PDFs. The ease of navigating a set of drawings will now take away a lot of excuses on why we can't use paperless drawing sets. The new page labeling and bookmarking tools are a prime example of how Bluebeam listens to their end user and implements new features based on that feedback.”

KRIS LENGIEZA  
DIRECTOR, VIRTUAL DESIGN AND CONSTRUCTION, STILES CORPORATION

“The construction industry can be a dangerous place. Revu, as a platform, was key for communicating risk. A key part of on-site health and safety management is making sure everybody understands any residual risk involved. Revu and its powers to very quickly edit information you are given meant I could markup and highlight risks very, very clearly.”

RUTH JOHNSON  
PRINCIPAL STRUCTURAL ENGINEER, RAMBØLL

“Bluebeam improves communication and reduces paper usage and shipping so much that the software pays for itself in just one submittal process. It used to take us at least eight days and twelve overnight packages to receive, review and respond to paper construction submittals. Now that we have Bluebeam, we're able to respond in as quickly as three days, and we've easily cut shipping costs in half.”

GARY HISEL  
SENIOR DESIGN MANAGER, GRAY CONSTRUCTION

“Bluebeam's specialized PDF technology is ideal for major construction projects where many partners and contractors are involved. Bluebeam's intelligent PDFs allow for superior document control, distribution and management, accelerating project lifecycles and simplifying project closure and archiving. Clients will receive higher quality deliverable at a lower cost.”

#### ABOUT JONAS CONSTRUCTION SOFTWARE

Jonas Enterprise is an intuitive, integrated solution for contractors that has been present in construction and service management for over 25 years. The application offers service, accounting, and operations project management capabilities for businesses of all sizes. The software manages the business activities of firms in a variety of construction trades such as handling the mechanical/HVAC, electrical and plumbing trades. The software also contains extensive functionality to handle the general contracting trade. Jonas Enterprise offers an executive dashboard that enables managers, owners or other senior executives to quickly view customer's performance, supplier obligations, department profitability, and more. Organizations can also use payroll direct deposit feature to ensure all the employees are paid on time. Users create a file through ...

### Featured Testimonials

“Jonas Premier meets all of our needs. From the boss to the accounting, to estimating and to me - we rely heavily on Jonas to keep us all connected. Top quality product! It's a really great product; it's user-friendly, intuitive, and very easy to use.”

RAVEN  
CENTRON ENTERPRISES LLC

“Premier is really helping with job cost reporting, profitability [and] communication from the accounting department to the project management team.”

BOYD LONG  
PRESIDENT AND CEO, TURNER LONG CONSTRUCTION

“Premier software is modern and up-to-date with the business changes & challenges. It has allowed us to better manage our costs in our construction department with better reporting.”

CEZARINA  
KILLARNEY CONSTRUCTORS, INC.

“Before we had eMobile, we were using a lot more pen and paper, which was definitely less efficient. Now, since implementing Jonas eMobile, our techs are able to complete jobs from the field and no longer have to return to the office to drop off their paperwork on a weekly basis, which has really allowed us to have access to more timely information.”

#### ABOUT PLANGRID BUILD

Plangrid is construction productivity software used on more than 500,000 projects around the world. The company provides contractors and owners in all construction verticals the tools to collaborate effectively and collect and manage project information throughout the project's construction and operations lifespan. Plangrid aims to increase team productivity by: streamlining document management and control, providing collaborators with easy access to all project information from any device, and enabling seamless collaboration. This leads to building the most comprehensive record set for the entire construction and operations lifecycle and consistently delivering on time and on budget.

### Featured Testimonials

“A huge influence as to why we went ahead and decided to adopt Plangrid enterprise-wide was its adaptability and ease of use in the field. When you have someone who's been a builder for 20 years or so, and you put a new piece of technology in their hands, you certainly don't want them to spend significant time learning how to use it. Beyond that, as Plangrid continues to innovate additional experiences and features, we're looking forward to leveraging them.”

BRENT CRANMER  
VICE PRESIDENT OF TECHNOLOGY AND VIRTUAL DESIGN AND CONSTRUCTION, ISEC, INC

“Plangrid allowed us to mark up drawings in the field and attach pictures to easily convey issues back to the office!”

ERIC W. GOSS  
DANT CLAYTON

“Being able to send photos to the drawing office team, plus document issues, assign and show the exact area to be repaired has made the team more productive as they say a picture is worth a thousand words and these automated words have been a huge productivity saver.”

ANDREW DECKER  
CONSTRUCTION MANAGER, BSA | ALLSTAFF

“With Plangrid, they could take photos, upload them on site and add new comments to the plans at speed. It meant issues were very quickly done and dusted. Overall Plangrid really helped us make closing out easier and faster.”

NANCY SWEENEY  
QUALITY MANAGER, GLENVEAGH PROPERTIES

### Featured Testimonials

“Procore's software is inclusive and it's very reliable. It has features that we couldn't get in other construction project management software, such as allowing us to integrate a Microsoft Project schedule file and keeping that schedule updated over the web. These features allow us to improve our service to our clients, and that's not a little thing.”

GERRY HOLLAND  
CHIEF ESTIMATOR, BBE

“Procore provides software that is currently at the forefront of project management for the construction industry and displays a desire to continue to develop tools that improve how the industry manages projects.”

CRAIG YOUNG  
WORK HEALTH SAFETY ENVIRONMENTAL QUALITY MANAGER, GRINDLEY

“It speaks volumes for anybody who's done coordination—to be able to export a report very quickly, including snapshots, locations, and who is responsible for each item. It drastically reduces follow up time. Not to mention all the data analytics behind due dates and whose court items are in and when things are reassigned and what's elevated to an RFI so you can quickly see the status of what's truly open versus has been addressed versus it's in the architect's court.”

JUSTIN PORTER  
CONSTRUCTION TECHNOLOGY AND INNOVATION (CTI) DIRECTOR, TRUEBECK CONSTRUCTION

“Overall, the software is extremely user-friendly and has an amazing support center with detailed instructions and videos and how to use each function and tool.”

[VIEW ALL REFERENCES](#)

### Featured Testimonials

“The construction delivery team used the full range of Viewpoint For Projects storage facilities i.e. documents, drawings, photos, specifications etc. The big plus was having access to the project 24hrs hours a day. This allowed team members to upload information outside working hours off site. The system also provided a very useful audit trail of when information was released, accessed or approved.”

GLADSTON MATHESON  
PROJECT MANAGERS, NATURAL HISTORY MUSEUM

“One of the features I like a lot in Field View is that you don't have to be on Wi-Fi at all times with it. So, we're able to just go out to the job site, pull up a drawing, being able to select a room from the set of drawings, and just putting a task to either a deficiency or punch-list item.”

PAT VOGEL  
PROJECT ENGINEER, KINSLEY CONSTRUCTION

“The system helps reduce costs directly between the contractors and the buildings team. Not having to send in all certificates back and forth by post and eliminating the need to send out weighty envelopes of information to the ABM's every week represent considerable savings. It will also cut out the need to photocopy every certificate for our files.”

JENNIE SMITH  
HEAD OF MAINTENANCE, MITCHELLS & BUTLERS

“Viewpoint Construction Software®'s functionality and overall service will be a better fit for our business. To be honest, the demonstration went so well, we were skeptical that the product could be as good as was demonstrated, but after conducting a thorough reference review, we were happy to find that everything we were shown was validated by current customers.”

#### ABOUT E-BUILDER

e-Builder Enterprise is the leading provider of fully integrated, cloud-based construction program management software for top facility owners and companies that act on their behalf. The company's flagship product, e-Builder Enterprise, improves capital project execution resulting in increased productivity and quality, reduced cost, and faster project delivery. Since 1995, e-Builder's technology leadership and construction industry focus has provided thousands of global companies, government agencies, and healthcare and educational institutions management in billions of dollars in capital programs with solutions to improve the planning, building and operating life cycle. The company is privately held and headquartered in Fort Lauderdale, Florida.

### Featured Testimonials

“We needed a system that would allow us to work smarter, not harder; a program that our architects, contractors, inspectors and staff could easily use to provide a collective repository for project tracking and collaboration. Since utilizing e-Builder, we can easily, and with confidence, prepare and submit reports to the District's Bond Oversight Committee, thus providing greater transparency into our program.”

CATHY ALLEN  
CHIEF OPERATIONS OFFICER, SACRAMENTO CITY UNIFIED SCHOOL DISTRICT

“With e-Builder, project costs and schedules are always interrelated. We have accurate forecasts, thus avoiding costly surprises.”

MICHELLE DODROE  
DEPUTY DIRECTOR OF ENGINEERING AND ENGINEERING TECHNOLOGY, THE CITY OF FORT SMITH

“The e-Builder Project Management Information Solution has exceeded our expectations from kicking the project off with the Professional Services team to training and roll out. e-Builder has been a true partner, and having the ability to custom develop processes around our organization 'as needed' is invaluable.”

DAN OLSON  
CONSTRUCTION SYSTEMS ANALYST, SCHOOL DISTRICT OF OSCEOLA COUNTY

“I love that everyone on the team can communicate easily with ProjectSight. I also like that you can see everything in real time, so everything is up to date. It makes the project [go] smoother and faster.”

#### ABOUT ASSIGNAR

# Assignar

Assignar is a cloud based compliance, asset and workforce management platform for highly regulated industries. Developed from first hand experience and the need to solve the challenges within a fast growing construction service provider, Assignar rapidly gained interest from stakeholders in other highly regulated industries. Assignar delivers its customers increased efficiency, transparency and significant management cost savings.

## Featured Testimonials

“The support we get from Assignar is good. We can reach out over email, live chat or phone. Assignar answers straight away. Now that we use Assignar, it's much easier to manage jobs. Everything is linked within the platform. We've gotten rid of cross referencing and double data entry. There's no back and forth between the site and the office, everything is one place, accessible to everyone. All our guys have caught onto the app as well, and they're very happy with it.”

MAYBERRY CONSTRUCTION

“As an Operations Manager, I am on my phone 24/7, so with Assignar I can go on my phone and nominate which forms each person needs to fill out on what day, conduct site audits and inspections and contact traffic controllers and supervisors without rushing back to the office to get important site documents.”

BRUCE MCKENZIE  
OPERATIONS MANAGER, EAST COAST TRAFFIC CONTROL

“Implementing software in our business has been a game-changer, especially with the recent situation. The platform allows our office staff to work remotely to ensure the health and safety of our employees. The staff can easily relay scheduling information through the mobile app to our field workers, who work in small crews. In a time where many other companies are having to close their offices or reduce staff, we are actually thriving.”

JASSEN SMIGAY  
VP OF OPERATIONS, DACS

“With the implementation of Assignar we had the opportunity to review our processes, master data, reporting, structure, etc. and improve quality and productivity while reducing the time to invoice our customers.”

DAVID  
SYSTEMS MANAGER, WORKZONE TRAFFIC CONTROL

### Featured Testimonials

“BIM 360 is the backbone of the project. From safety checklists to management inspections, from material checks to the administration of suppliers, everything is done through BIM 360 Field.”

JEROEN HORLINGS  
PROJECT MANAGER, HFB

“The investment was a no-brainer as the enhancements made Autodesk BIM 360 an even more valuable construction management platform. It removed previous barriers to model entry, such as having specific software knowledge and desktop access. Now, all stakeholders across the construction lifecycle can easily access powerful 3D visuals and data that is complete and up-to-date.”

CHRISTOPHER BAZE  
BIM MANAGER, HAWAIIAN DREDGING CONSTRUCTION COMPANY

“We are understanding, preparing, and improving projects. BIM lets us rely more on faster and lower-cost lean construction techniques, like prefabrication and just-in-time delivery of material.”

HARMEN BIJLSTRA  
BIM MANAGER, VAN WIJNEN

“Autodesk BIM 360 Glue has been proven on the construction side. I see a lot of potential on the design side as well. Autodesk BIM 360 Glue helps save time for both architects and contractors and time is money.”

WESLEY KING  
ASSOCIATE PRINCIPAL ARCHITECT, NICHOLS, MELBURG & ROSSETTO ARCHITECTS

#### ABOUT BRIDGIT

Founded in 2014, Bridgit is a software company focused on developing mobile and web-based solutions for the construction industry. Later that year, Bridgit launched a punch list and inspection management platform, Bridgit Field. In 2019, Bridgit launched a new construction resource management software, Bridgit Bench. General contractors and subcontractors across North America are using Bridgit Bench to simplify project planning and allocation processes. Bridgit has raised over \$15.7 million USD in equity financing, with capital from investors such as Autodesk, BDC, EDC, IAF, Salesforce Ventures, Sands Capital, and Stand-Up Ventures, among others.

### Featured Testimonials

“Managing resources has always been a challenge for most construction companies. Now we have Bridgit Bench. Bridgit Bench has saved us a lot of time, in terms of managing our resources, the sort and search features, and how we can allocate our teams by position, and so forth. It's a great software, great customer service, and an awesome tool for us.”

REGGIE MORGAN  
CHIEF OPERATING OFFICER, DEANGELIS DIAMOND CONSTRUCTION INC

“Managing over 350 employees in one region, we needed powerful forecasting and utilization insights at the click of a button. With Bridgit Bench, we've been able to track project changes remotely and create predictability around our future workforce plans. Bridgit Bench is further advancing workforce utilization for the construction industry, particularly in today's rapidly-changing environment.”

JOE JENKYN  
DIRECTOR OF EMPLOYEE RELATIONS, KATERRA

“At ARCO/Murray, we place a high value on technology and tools that add value and help us deliver the best client experience. The Bridgit app streamlines our punch list process and provides significant time savings, while also enhancing our communication with subcontractors.”

JOSH PRZYBOROWSKI  
DIRECTOR OF BUSINESS DEVELOPMENT, ARCO CONSTRUCTION COMPANY

“With Bridgit Closeout you have an evolving list, which is very helpful when you're at the stage where there could be potential warranty issues. Instead of emailing our owners or the architect they can log in to Bridgit Closeout and review the project in near real-time.”

NICK VAN DEN BERG  
ASSISTANT SITE SUPERINTENDENT, BUTTCON

#### ABOUT CMiC

As an industry pioneer, CMiC delivers complete and unified ERP and field solutions for construction and capital projects firms. CMiC's powerful software transforms how firms optimize productivity, minimize risk and drive growth by planning and managing all financials, projects, resources, and content assets—from a Single Database Platform™. With customers throughout North America, CMiC serves one-quarter of ENR's Top 200 Contractors and hundreds of small and mid-sized construction firms, from general and specialty contractors to heavy/highway and project owners.

82

## Total Customer References

[VIEW ALL REFERENCES](#)

### Featured Testimonials

“We save hours by no longer needing to track down resources because we can see what everyone is tasked with—with a click of a button. Also, we no longer have to call 4–5 different people and wait hours—or days—for their response. CMiC's Resource Planning module took a process that once took days down to minutes.”

BJ VAN ORMA  
ERP STRATEGIC DIRECTOR, JE DUNN CONSTRUCTION

“CMiC has laid the foundation for us to effectively use the data passing through our company on a daily basis. Business intelligence has been—and continues to be—a top priority for us. CMiC helps us leverage our data to make well-informed decisions at all levels of the company—from executive to project management.”

LUIS BERUMEN  
PROJECT MANAGER, BARTLETT COCKE GENERAL CONTRACTORS

“As we worked through the process of reviewing different products, we realized that CMiC Cloud was the only true Software-as-a-Service (SaaS) solution for a company our size, eliminating the need for purchasing and maintaining a hosting server. We wanted all users to have a single point of access. For a company with an outsourced IT group—like NMC, CMiC Cloud was the most logical solution, giving us the outcomes we wanted.”

MICHELLE EASTMAN  
CFO, NORTH MECHANICAL CONTRACTING & SERVICE

“Before partnering with CMiC, operations were highly fractured and siloed, with significant variation between individual offices and job sites. CMiC has brought everything under just one umbrella, forced a lot of good discussions within the company, and facilitated a hastened change toward centralization across regions and offices at Pankow.”

### Featured Testimonials

“Cosential is a huge time-saver when all I have to do is make one change to a project on my dashboard and it populates all the associated records within Cosential. It keeps me focused on my pipeline instead of data management.”

CHRIS JACOBS  
SENIOR MARKET DATA ANALYST, JE DUNN CONSTRUCTION

“One of the best things about Cosential has been the top-notch customer service. We are always able to get help from a real person and from someone that is extremely knowledgeable. Any issues we've raised have been dealt with immediately or in a timely fashion with good feedback in the interim on the status of the solution. Awesome customer service.”

ROGER T. SMITH  
VICE PRESIDENT, HOWELL CONSTRUCTION

“My favorite part of Cosential is the dashboard widgets and reporting. Cosential allows us to ensure all our departments can share and compare data points easily and make it easy for our executives to evaluate our business development and marketing efforts.”

ANTHONY RUSS  
RESOURCE COORDINATOR, CONSIGLI CONSTRUCTION

“Cosential makes wide-spread adoption easy by bringing our teams and their data together. Now we are able to execute project pursuits without leaving the tools our BD teams are most familiar with. Cosential's New Business Development Experience is a game-changer, enabling us to move fast, drive predictable revenue, and be more strategic all while ensuring our entire firm is on board.”

#### ABOUT FIELDWIRE

**FIELDWIRE**

Construction companies of all sizes use Fieldwire to power clear communication on over 750,000 projects worldwide. With its easy-to-use mobile application, Fieldwire saves each user 1 hour every day by enabling more efficient information sharing onsite. Fieldwire's key features include plan viewing, task management, issue tracking, reporting, and more — all accessible from one place. Fieldwire is venture-backed by top investors in the industry and is already transforming the way dispersed teams communicate and collaborate on projects. Fieldwire is the easiest way for construction companies to stay organized on the jobsite.

#### Featured Testimonials

“We are excited to see Forms on Fieldwire. Efficiencies in formatting, online, and mobile access have given our field and project management staff the tools to keep on track.”

NICK WIENOLD  
ASSISTANT PM, BEAR CONSTRUCTION COMPANY

“Utilizing Fieldwire has created an intuitive, quick, and easy way for us to track every step of furniture installations, with the added benefit of collaborating in-house and sharing with other team members.”

SAMANTHA SCHONEGG  
INTERIOR DESIGNER, RATIO

“Project owners especially love Fieldwire because they can reference it like a digital library. We can instantly share plans with clients and they can review from anywhere now that they have connectivity to the internet.”

CAITLIN HAYCOCK  
OFFICE COORDINATOR, BURNHAM NATIONWIDE

“Fieldwire is easy-to-use but at the same time very advanced. Fieldwire is not limited to punch list use only, it's a versatile tool that allows you to track any item on your project.”

[VIEW ALL REFERENCES](#)

### Featured Testimonials

“We're happy to have FOUNDATION because they know costing and construction. And, Payroll4Construction.com is great because we can track employees on a certain job, on a certain day, and for how long. That's extremely helpful for unemployment compensation.”

DAWN BARZD  
OFFICE MANAGER, BARWIS CONSTRUCTION

“It is exactly what we need being in the construction business. It is so easy to get all sorts of reports we need, to create documents (invoices, etc.), and to get support when needed.”

SANDRA COLUMBO  
DIRECTOR OF OPERATIONS, ALTERNALITE ELECTRIC INC.

“I can read a report and pinpoint exactly what's going on in a job. It's just so key when you can't be physically out at a jobsite that could be 100 miles from another. These reports let me know in advance if we're headed into an issue, and you can't put a value on that. FOUNDATION makes that possible for me.”

SANDRA MICHAEL  
VICE PRESIDENT, PROIETTO COMPANIES

“In general, I like the way everything in FOUNDATION ties together very well. The service module is designed well. I love the dynamic filtering so you can see which dispatches are available where, with who and what — it's a very powerful feature. Yeah, I'd say I found it very easy to get used to and to get our new service manager and dispatcher to use them. I think the service module is a great addition.”

#### ABOUT HCSS

Since 1986, HCSS has been developing software to help construction companies streamline their operations. Today, they are recognized as a pioneer and leader in their market, serving thousands of construction companies across the nation. Year after year, they continue to innovate, refine, and expand their products as the industry evolves. HCSS' mission is to help customers dramatically improve their business through innovative, high-quality software and exceptionally helpful service while providing a great life for employees.

#### Featured Testimonials

“There's no more writing it all down. Everything is flowing really nicely with what they're giving us and what GPS is showing on our reports. We print the report and give it to accounting, and they can do the billing and payroll directly from that.”

TOM ALVERSON  
LEAD ESTIMATOR, CASPER CONSTRUCTION

“The support team at HCSS is very helpful. They are always kind and professional. It is so refreshing to work with a support team that KNOWS how to fix the issues and do it quickly. In all the years I have worked with HCSS, they have never NOT been able to solve an issue. Thank you for making it a joy to have an issue and know a resolution will be found.”

JENNIFER M.  
RIETH RILEY CONSTRUCTION CO.

“It allows us to look at the leading indicators that the industry is really pushing now. Rather than gathering information after the fact and trying to hindsight things, all that information is there in real time for us to use. We can classify it and use our time to get some leading indicators, rather than using that time just to gather information.”

LUKE PLOESSL  
VICE PRESIDENT OF HEALTH AND SAFETY, J.F. BRENNAN COMPANY, INC.

“HCSS products have certainly created a lot better efficiency. HeavyBid was easy to implement because we had estimators who were already computer savvy. Once we got past the little challenges in implementing the other products, it just opened up a whole new reality as far as what you can do and how quick you can see it.”

KEVIN NUNEZ

MICHAEL O'TOOLE  
SENIOR ASSOCIATE, WSP

“Not only does Newforma project cloud provide tangible contract administration time saving benefits but it also results in harder to measure payback like eliminating lost, damaged and destroyed project documents.”

SHAW CONSTRUCTION

“When both the architect and general contractor use Newforma software we've seen significant productivity gains in the execution of the project. We've won new business targeting architects who also use Newforma.”

THE PARENT COMPANY

“One of the best features is the ability to photographically record design defects on site, which can then be issued instantly to the contractor or client through the web-based Info Exchange.”

MUHAMMED IBRAHIM WARDA  
ARCHITECT AND COORDINATOR, ARCHITECTS 61

#### ABOUT RAKEN

Raken provides innovative mobile technology to streamline field workflows for construction workers. Raken's "digital toolbox" connects the field to the office with daily reports, production tracking, time cards, toolbox talks, project insights, photo management, and more. Thousands of the world's top construction companies use Raken to solve their field reporting needs.

### Featured Testimonials

*“Raken is a one-stop shop for time, comments, and photos. It definitely improves what you know about what's going on with all the jobs, plus it's easy to use.”*

PAT REDINGER  
OFFICE MANAGER AND ESTIMATOR, STONWERK

*“Raken is real information. It's simple but at the same time so adaptable that all of our subcontractors can use it.”*

JOHN ALBERT  
FOUNDER, UNIFIED BUILDING GROUP

*“This is the the fastest, best, most user friendly app out there. I can see why it was voted the number one Construction app on the market.”*

MARTY MASTERS  
RENEWABLE ENERGY SYSTEMS AMERICAS

*“Raken and Egnyte save us a whole bunch of time and money, and that's the two keys of construction right now. Time and money.”*

IGOR CHARSOV  
SENIOR FIELD ENGINEER, LEVEL 10 CONSTRUCTION

### Featured Testimonials

“ConstructionSuite handles all of my company's daily work duties from critical path to change orders to vendor information to daily project tasks. The estimating section is by far the best I've used in the past ten years, and I've tried many. I can do everything from reports to extremely detailed estimating without fear of forgetting an item, and then I can import the final estimate into QuickBooks.”

TIM LASSITER  
PRESIDENT, HOUSTON REMODELING

“As a home builder, I need tools that help leverage my time as much as possible. UDA ConstructionSuite speeds the process of drafting specifications, writing contracts, estimating, scheduling and other document creation. And, the QuickBooks Integration enables me to quickly generate QuickBooks estimates and purchase orders as well as monitor project costs. With UDA ConstructionSuite, all my project-related documents are organized in one place, assuring that everyone in my office has access to and is working with the same source documents.”

GEORGE E. DAILY  
OWNER, A&E HOMES

“I'm a General Contractor in California, and I've been using ConstructionOffice since 2002. The Estimating tools are great. At the end of the project I can see how much money I made, or the other way around. My estimates are a lot more accurate than they used to be, and I'm faster, too. The ConstructionOffice integration marries the estimate and the schedule together, so you can share information. It really saves me a lot of time. I can't do without ConstructionOffice.”

ROGER CROMWELL  
PRESIDENT, CROMWELL ENTERPRISES

“UDA ConstructionSuite™ has helped us improve the functionality of our business on many levels. Our estimate team is able to quickly and efficiently prepare comprehensive cost estimates which are easily understood by prospective clients. Our project management team utilizes the platform to seamlessly share documents between team members, monitor budgets, manage scheduling and more.”

#### ABOUT ESUB

eSUB is the leader of web-based project management and document control software designed specifically for subcontractors in the construction industry. Built on thirty-plus years of expertise, eSUB's easy-to-use, software-as-a-service helps self-performing contractors increase standardization, accountability, and productivity. Today, thousands of users trust eSUB's platform to manage project communication and collaboration on construction projects worldwide.

### Featured Testimonials

*“eSUB has helped our business stay organized and have all project data in one location. It keeps all documents and correspondence in one location for a project so it can be easily accessed anywhere. From project start up to closeouts, it allows everything to be tracked and easily referenced.”*

COATES ELECTRIC

*“eSUB's Service and Training was very smooth because they understood our way of doing business – the subcontractor way of doing things, which is very different from needs of General Contractors. eSUB's extensive capabilities, such as the correspondence Toolbox, are designed exclusively for subcontractors. The overall ease of use of eSUB is intended for all types of users (Accounting, Project Management, Executives, and Field Workers), which makes adoption manageable.”*

CARMEN CARBONE  
DIRECTOR OF BUSINESS DEVELOPMENT, KASPER ELECTRIC

*“Working with all the knowledgeable employees at eSUB has been fantastic. Everybody in client success is truly top notch. Our primary support contact at eSUB has been extremely helpful in working to get me up and running since I joined EVC after they had already purchased eSUB. eSUB is designed for subcontractors, and having an easy-to-use Web-based interface and mobile application is a huge plus that gives us the ability to ensure all users (new and existing) are getting consistent and standardized training and quick to high productivity.”*

TRAVIS FLORA  
PROJECT/SAFETY COORDINATOR, EAGLE'S VIEW CONSTRUCTION

*“eSUB replaces manual processes with digital delivery workflow (preview, submitted, approved, etc.) to keep projects on schedule and efficiently increases employee productivity by 10-25%, per week.”*

RENEE MCENTEE  
LEAD PROJECT COORDINATOR, ECKSTINE ELECTRIC

### Featured Testimonials

“Maribel Scarnecchia. She is the reason I sought out ComputerEase to replace my company's old computer system. And of course, ComputerEase lives up to its name. I've used other systems - Oracle, Timberline, Peachtree, etc. Nothing is as complete, as integrated and as simple to use as ComputerEase. ComputerEase is the best software I've ever used. The ability to drill down into reports for detail, the job costing, equipment tracking, service management, all make this the software any construction company should have. You won't be disappointed and your people will thank you for switching.”

DONNA  
RANDALL MECHANICAL

“It is user friendly and easily maneuvered. Just about anything you want to do or can think of doing can be done in CE. I like the "shortcuts" that make entering/typing much faster. I'm all about shortening key strokes.”

SHELLIE  
TWC CONCRETE SERVICES

“It's very easy to understand. Most accounting steps are automated, taking the thinking out of it for non-accounting trained users. I can't think of anything that I dislike about ComputerEase. I believe that compared to other construction software, ComputerEase is much more user friendly.”

KAHTLEEN  
CRAFTSMAN ELECTRIC

“CE is pretty much easy to use in every function, but the payroll has helped me save a tremendous amount of time by having the FE out in the field for our employees. I also really like the document control, where all documents can be created in the field or in house and be updated in the system. I like that there is a transmittal/correspondence log.”

DIANNE  
LYNDCO

### Featured Testimonials

“JOBPOWER is so easy to install and use. The various reporting capabilities are great and there are lots of valuable accounting and job features. Technical support phone calls are returned promptly.”

MELODY ABRAHAMSON  
COMMERCIAL INDUSTRIAL BUILDERS, INC.

“JOBPOWER is great! It works well with all of the functions we must perform such as installing and servicing elevators, paying companies for medical equipment and keeping track of inventory!”

SHANNON SPARKS  
ROMAR ELEVATORS INC.

“JOBPOWER is the best construction accounting software I have ever used! It is user friendly, trouble-free and customized to the needs of the construction industry. JOBPOWER makes my job much easier.”

DOROTHY JONES  
GRINDER & HAZLIP CONSTRUCTION, INC.

“JOBPOWER gives my construction clients the information they need to manage job cost and gives me the information I need to assist them in their management decisions and in reviewing their accounting records.”

## Featured Testimonials

“ LetsBuild makes our progress reports more efficient by automatically merging all photos and points. As a result, we do not have to waste time manually making the links. Furthermore, LetsBuild gives us a clear overview of the remaining points. ”

OOSTELBOS VAN DEN BERG

“ Daily follow-up used to be a major pain on site. LetsBuild will allow our foreman and construction manager to always be on top of things and have direct access to the expertise of our planning and QHSE teams to support them without any unnecessary admin. ”

REMY ROBIJNS  
HEAD OF QUALITY-SAFETY-ENVIRONMENT, CIT BLATON

“ Our architect office has been using LetsBuild for one year and we continually discover new opportunities. A major advantage is that you have all documents and plans with you in digital format on a tablet – no more carrying heavy ring binders on site. In addition, all documents are constantly accessible via the cloud. The layout of the reports can easily be changed according to the phase of the project: intermediate reports, site reports, lists upon completion, personalised lists etc. An indispensable tool in these times of rapid communication. ”

SARAH STAESSEN  
ARCHITECT, A2D ARCHITECTS

“ With LetsBuild, you get an overview of the project at the office, instead of you going out to inspect every single activity that is going on, which takes a lot of time. From where I sit, I can estimate when a specific task needs to be done, I can adapt the plan accordingly, and every worker has an updated version. ”

SHOUKAT NAEIMI  
PROJECT MANAGER, HOFFMANN

## Featured Testimonials

“RedTeam Software has allowed us to have a place to consolidate all of our construction data and also the security to know it is backed up to the cloud. The entire team has embraced this software and can see the status of any project at any time. It has become an important part of our business for everything from bids to accounts payable to budgeting. The support team has also been really top-notch. They clearly have a vested interest in their product and care about us being able to use it successfully. This support has been very much appreciated as we integrated this tool into our day to day operations.”

KERRI ROSSI  
BUSINESS MANAGER, HABITAT SEMINOLE-APOPKA

“RedTeam offers the best all around solution for our core business needs, from Pre-Construction to Project Closeout. It's intuitive, collaborative, and accessible from anywhere.”

CHRIS ROLLINS  
CHIEF OPERATING OFFICER/SR. VP, WILLIAMS COMPANY

“As a general contractor, it allows us to be extremely organized and provide our customers and potential customers with an organized project overview the moment they request it. Many customers are very impressed with the reports and performance overviews that we've prepared and presented using RedTeam.”

CAITLIN LEIBFORTH  
ACCOUNTANT/PROJECT COORDINATOR, REMSING CONSTRUCTION

“First, the staff is fantastic. They are always there to help. The software itself, well I couldn't do what I do without it. Everything about your project is in one place. Being able to access RedTeam from anywhere is a huge plus and works out great for my guys in the field.”

MARY DEGUZMAN  
CCS CONSTRUCTION LLC

#### ABOUT RELATICS

Relatics is a web-based platform used by projects in the construction and civil engineering industry for requirements management and systems engineering. It frees the project of numerous spreadsheets and isolated applications. As a result, Relatics has proven to regain project control, reduce project risks, and decrease failure costs. Relatics is used by governments, contractors and consultancy firms for buildings, roads, bridges, tunnels, railways, canals, dams, ports, airports and dredging.

## Featured Testimonials

“As a client, we have formulated contract requirements that we need to have verified to ensure we are doing things right, the ‘how’. In addition, we have to keep track of whether we are still doing the right thing, the ‘what’. That’s validation. Relatics is a very versatile tool that contains a lot of information, making critical documents, milestones, and decision-making transparent. In the tailor-made dashboard we can easily check statuses and report back to management and other stakeholders.”

MAIKEL BALSTER

VERIFICATION AND VALIDATION MANAGER TECHNICAL INSTALLATIONS, RIJNLANDROUTE

“Systems Connect’s interface teams and most of the stakeholders we work with were already familiar with the Relatics platform and liked working with it. It was clear we should offer the same Relatics environment for hazard information, keeping all essential interface project information in a single secure location, while at the same time having better data presentation and management options.”

MICHELLE HO

SYSTEMS CONNECT

“For example, when excavating we check for deviations every 50 meters. Colleagues used to keep track of this on forms, which were later copied at the office. Now, control data is entered electronically and processed immediately. This very much speeds up the process and reduces the chance of errors. For that, it does require that all parties bring enough discipline to the job. Everyone who works with Relatics has to enter the information accurately and consistently.”

SJAAK OVERSLUIZEN

PROJECT SUPERVISOR, GKB REALISATIE

“New people often ask me for a login code. Project members experienced that the structure of Relatics helps organize their own work and to cooperate more efficiently, for instance by adding and sharing certain reports. Before, reports were often kept in separate lists and shared individually. Because information is now clearly and centrally stored and easily accessible for all project members, it decreases the risk of errors. Moreover, it helps assure the continuity of the project.”

SANDER ROESINK

PROJECT MANAGER, MAX BÖGL
