Fundraising Management Software Category

It's a difficult task to manage a nonprofit organization, especially the fundraising part. Institutions with manpower limitations can find it hard to set up campaigns, manage donors, and handle documents to ensure all things are in order. Fundraising management software can be helpful in this case as they give you the needed features to automate routine tasks. You can bid goodbye to old-fashioned methods like utilizing spreadsheets and carrying out door-to-door awareness campaigns.

Today, nonprofits use fundraising software solutions, social media, and emails to operate effectively. These tools enable your organization to launch new campaigns, gauge your efforts' progress in real time, and provide easy payment options to your supporters. Fundraising management software's automation features help to minimize workload and the overhead expenses of implementing campaigns.

“We chose FundRaiser Professional because it met our specifications perfectly; it was priced fairly, the service department was extremely responsive and we had a good feeling after talking to friendly company personnel. As a direct result of using FundRaiser Professional, we have increased contributions because of the efficiency with which we can process gifts and acknowledge them. We recommend FundRaiser to any organization that is seeking good value in an exemplary data management product.”

“I have used FundRaiser in my work with a couple of different nonprofits, and I always come back to them because the software brings a great deal of organization and focus to our work. I also feel like I have a personal relationship with the folks at FundRaiser, which makes working with them a fun experience. Their prompt return of calls, attention to detail and willingness to work outside the box adds up to unparalleled customer service.”

“FundRaiser will play a huge role in that upcoming appeal. The brick mailing will include elements typical of any fundraising mailing (letter with donation tear-off form, return envelopes, donation receipts, and 'thank you' letters) plus brick-order forms. As always, we'll track all resulting giving and correspondence in FR. Additionally, we'll again be driving donors to Word FM's website to order bricks online, and our brick-order site will still link to Donor Portal for payment. We're glad we set it up that way.”
