

# Identity & Access Management Software Category

## Identity & Access Management Software Category

Identity and access management (IAM) software enables you to define and manage the roles and access rights of individual network users, and control the circumstances in which users are given or denied those rights. These users may be staff members (employee identity management) or consumers (customer identity management).

In short, IAM software gives access to company IT assets to relevant users in the proper context, from user onboarding to a system to permission sanctions and finally user offboarding as required in a timely manner. With an IAM platform, admins can alter a user's role, monitor their activities, generate reports on the activities, and implement ongoing policies.

# Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

## CONTENT SCORE

- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

## MARKET PRESENCE SCORE

- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

## COMPANY SCORE

- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

## Award Levels

### MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT CYBERARK

CyberArk is the only security company laser-focused on striking down targeted cyber threats, those that make their way inside to attack the heart of the enterprise. Dedicated to stopping attacks before they stop business, CyberArk is trusted by the world's leading companies -- including 30 of the Fortune 100 -- to protect their highest-value information assets, infrastructure and applications.

Featured Testimonials

“CyberArk Privileged Account Security really is a great, all-round solution – not only does it manage, secure and monitor our privileged accounts, it also allows us to maintain compliance with a number of regulations, such as Sarbanes Oxley, which is hugely beneficial to us.”

KARON DAVIES  
GLOBAL SECURITY PRIVILEGED ACCESS MANAGER, BT

“We've found CyberArk can centrally manage, collect and report on privileged access activity for us. With Policy and Architecture teams on our side, we're collaboratively designing controls and evolving policies — bringing them into close alignment to drive internal adoption, and potentially, better protect the organization.”

JOEL HARRIS  
MANAGER, NATIONAL AUSTRALIA BANK

“We have thousands of privileged accounts managed by CyberArk. We have taken care to ensure that people only have the level of access that is needed. We deny by default, then allow based on needs, granted by approval.”

MIKE BRANNAN  
DIRECTOR, INFORMATION TECHNOLOGY, NATIONAL GYPSUM COMPANY

“From a security perspective, using CyberArk is the best approach because there is now only one source/point of connection. We no longer have to manage multiple points of access. With CyberArk in place, we've simplified the process of managing security.”

MARCOS HENRIQUE IGUTTI  
INFORMATION SECURITY MANAGER, FS

ABOUT FORGEROCK

ForgeRock®, the fastest growing identity relationship management vendor in the world, is building secure relationships across the modern Web. Focused on using online identities to grow revenue, extend reach, and launch new business models, ForgeRock's Open Identity Stack powers solutions for many of the world's largest companies and government organizations. Founded in 2010, ForgeRock's leadership team brings 80 combined years of experience in the software industry and includes open source icons and innovators, with investors from three of the leading global venture capital firms – Accel Partners, Foundation Capital and Meritech Capital.

Featured Testimonials

“We selected ForgeRock as our technology partner because of their understanding of identity and access management in today's global and mobile economy. Open Identity Stack is the relationship management solution that was essential in creating a highly secure, scalable, and latest generation e-commerce platform for our diverse network of customers and extensive business operations.”

ASHISH JAWADIWAR  
VICE PRESIDENT, CHIEF INFORMATION & DIGITAL OFFICER, AXALTA

“We selected ForgeRock as our IAM technology partner because of their success in delivering the Open Identity Stack in an easy-to-deploy, highly scalable approach to enterprise, cloud and mobile environments. To us, ForgeRock understood what it meant to create a modern, best-in-class Web experience for our large and exceedingly diverse customer base.”

GREG KALINSKY  
SENIOR VICE PRESIDENT AND CHIEF INFORMATION OFFICER, GEICO

“We now federate all protocols with ForgeRock Access Management, managing the single sign-on process for internal users for all applications. To access resources, users simply enter their login details on the IMD portal, and ForgeRock Access Management provides access to all the relevant resources for their individual profile.”

ROBERT VON BISMARCK  
STEMS ADMINISTRATOR, INTERNATIONAL INSTITUTE FOR MANAGEMENT DEVELOPMENT

“The ForgeRock Identity Platform focuses on IAM and CIAM use cases supporting on-premises, cloud, and hybrid delivery models. Another area of ForgeRock's strength is IoT support APIs that can associate identities for smart, constrained and edge devices. ForgeRock is amongst the leading-edge vendors in the IAM space and should be considered in product evaluations.”

### Featured Testimonials

“We use Okta to decide who gets access to certain apps, data, or systems. With Okta, we know who is requesting access, and whether or not they're using a device we can trust.”

CURTIS SALINAS  
SENIOR DIRECTOR, STRATEGIC PLANNING & OPERATIONS, SLACK

“Okta was a game-changer for us. Having an authentication platform that you can easily integrate with greatly accelerates the underlying system you're trying to build.”

WARREN MCNEEL  
SENIOR VICE PRESIDENT OF IT, T-MOBILE

“We have been able to deploy more than 120,000 users across 60 countries in less than six months. Our partnership with Okta was essential to get that done.”

CLAUDE PIERRE  
CHIEF INFORMATION OFFICER, ENGIE

“Now, each customer has a single identity. We give them tailored customer experiences, but that doesn't mean they need three different user IDs and passwords.”

ABOUT ONELOGIN

# onelogin

OneLogin is a cloud-based Identity and Access Management (IAM) provider for the modern enterprise, with an industry-leading SSO and identity-management solution. Over 2,000 enterprise customers trust OneLogin to secure and manage identities in cloud, legacy and hybrid environments.

## Featured Testimonials

“I love being able to assign applications to OneLogin Groups because it allows me to control access to each application via Active Directory. And if someone leaves the company, I can turn off access to all apps at once. That’s both good security and good housekeeping.”

HIEG KHATCHERIAN  
MANAGER OF INFORMATION SYSTEMS, VISION CRITICAL

“OneLogin helps Hailo stay PCI Compliant by centralizing access control and traceability across our corporate intranet, public cloud applications and social media accounts. I can protect privileged access to DevOps infrastructure like Amazon Web Services by providing team members with access to dev and production accounts, but without ever having to disclose any usernames and passwords.”

KEVIN SANDOM  
SENIOR LINUX ADMINISTRATOR, HAIL

“OneLogin is a unified access management platform that allows clients to have centralized access and meet the changing needs of your business securely, reliably, and simply. Weidenhammer has chosen OneLogin as a strategic partnership because security is at the front of every conversation and solution we provide clients. OneLogin provides a layer of security that helps to prevent endpoint breaches, and we know that this is one of many areas our clients are concerned with securing.”

DON DOUGLAS  
MANAGER – PLATFORM SOLUTIONS, WEIDENHAMMER

“It’s a matter of minutes to onboard and provision users. We simply create user accounts in OneLogin with the relevant access privileges and they are deployed into our G Suite environment seamlessly.”

ABOUT PING IDENTITY

Ping Identity is the leader in Identity Defined Security for the borderless enterprise, allowing employees, customers and partners access to the applications they need. Protecting over one billion identities worldwide, the company ensures the right people access the right things, securely and seamlessly. More than half of the Fortune 100, including Boeing, Cisco, Disney, GE, Kraft Foods, TIAA-CREF and Walgreens, trust Ping Identity to solve modern enterprise security challenges created by their use of cloud, mobile, APIs and IoT.

Featured Testimonials

“With PingFederate in place, our customers are thrilled to have smooth, secure SSO access to the support sites they use each day for product updates, self-service support and reporting.”

 ALLAN RIXEN  
HEAD OF IT, PALO ALTO NETWORKS

“To become truly student-centric, our IT department had to provide secure and seamless anytime, anywhere, any-device access to university resources. PingFederate helped us accomplish exactly that.”

 ERIK VIENS  
EXECUTIVE VP OF TECHNOLOGY AND CIO, ACADEMY OF ART UNIVERSITY

“Ping provides the perfect modular components we need to realize our customer identity and access management vision. The flexible CIAM platform allows customers to have a secure, unified profile and set of credentials to access all of their various services.”

 STEPHANIE KESLER  
ENTERPRISE ARCHITECT AND TECHNOLOGIST, GCI

“PingID not only met all of our security requirements, but on top of that, our users really liked it. We had a hundred people pilot it with zero issues. We could tell that this was going to be the right product.”

ABOUT SAILPOINT TECHNOLOGIES

SailPoint, the leader in enterprise identity governance, brings the Power of Identity to customers around the world. As the fastest-growing, independent identity and access management (IAM) provider, SailPoint helps hundreds of the world's largest organizations securely and effectively deliver and manage user access from any device to data and applications residing in the data center, on mobile devices, and in the cloud. SailPoint innovative product portfolio offers customers an integrated set of core services including identity governance, provisioning, and access management delivered on-premises or from the cloud (IAM-as-a-service).

Featured Testimonials

“With IdentityIQ, we now have an established set of processes in place to manage identities and access rights as we add new internal users, new applications, and as we invite external users into our application.”

 EMMANUEL DAVID  
SECURITY ARCHITECT, AXA

“By using roles to request, approve and certify user access privileges, BNSF will be able to simplify its user administration and compliance processes. SailPoint IdentityIQ will allow us to enforce and verify role-based access across our critical enterprise applications using a streamlined, automated approach.”

 BART BOUDREAUX  
DIRECTOR, TECHNOLOGY SERVICES, BNSF RAILWAY

“With SailPoint, we can automatically review access for all our users in one place, instead of opening up each application separately. We’ve also been able to reduce the time it takes to provide system access by 80%.”

 BART LUDWIG  
MANAGER, IDENTITY & ACCESS MANAGEMENT, FINNING

“SailPoint’s market leadership is why we partnered with them on our identity governance program. Their expertise and guidance connecting our global users safely and securely has been invaluable.”

ABOUT CORE SECURITY

Core Security, a HelpSystems Company, provides intelligent, actionable insight about who and what is most vulnerable in your IT environment—enabling you to be proactive in your security approach. With the right combination of security risk management solutions, you can intelligently protect what’s most important to your business. Secure valuable data, assets, and applications in your organization. Core Security provides leading-edge cyber threat prevention and identity governance solutions to help you prevent, detect, test, and monitor risk in your business.

Featured Testimonials

“Compliance and the protection of sensitive information are critically important to our Medicare Advantage operations, so building a strong Information Security program has been key for Cigna-HealthSpring.”

ANDY FLATT
SVP AND CIO, CIGNA-HEALTHSPRING

“What won it for Core Security was the solution’s ease of implementation and simplicity, combined with the fact that it offers so much functionality behind the scenes.”

PAUL WILLIAMSON
PROGRAM MANAGER FOR GATEWAY, WEST MIDLANDS POLICE

“By automating the provisioning process, WellSpan was able to drastically reduce time to access from months to mere minutes. The time and cost savings of provisioning 40-60 new hires and de-provisioning ten to 20 terminations per week are more than significant.”

WILLIAM GILLESPIE
VP AND CIO, WELLSPAN

“[Security Auditor] reminds me of any policy exceptions every day, so nothing slips through the cracks. We’re doing more with less, and we don’t want to go looking for the problems, we want them to come to us. [Security Auditor] accomplishes that for us.”

ABOUT FRAUD.NET

Fraud.net is a leader in AI-powered enterprise risk intelligence. Their award-winning fraud detection platform helps digital businesses to quickly identify transactional anomalies and pinpoint fraud using artificial intelligence, big data and live-streaming visualizations. Over 3 billion customer data records were stolen in 2018 and the number of breached records is expected to reach 5 billion in 2022. As businesses digitize their operations at unprecedented rates, they also create vulnerabilities. As a result, cybercrime is projected to grow 400% between 2017 and 2022 when the associated cost to business globally is expected to reach \$8 Trillion. Contact them today to discuss a strategy best suited for your organization.

Featured Testimonials

“Fraud.net’s solutions and teams far surpassed our expectations, delivering tangible value within 90 days. We gained \$100mm in new sales, reduced fraud by 30%, and enabled our team to operate more effectively and efficiently. Their platform is indispensable. And their 3rd party data integration simplified reviews, leading to valuable savings in time and money. Their expertise is unmatched.”

ONLINE TRAVEL AGENCY

“We had only been using a handful of datapoints to flag suspicious transactions, so the ease with which we could gain access to hundreds of additional datapoints has been the best feature for us. The rules engine and dashboard is clean and concise, helping us make much better decisions and much faster than in the past. Took a little time to understand some of the data for it to be meaningful for us, and for us to write rules with it. Highly recommend trying it out. It’s been a no-brainer for our business. Fraud.net allowed us to add a multitude of checks and rules to help us catch more fraud and confidently approve more questionable orders. Quick ROI.”

DIGITAL VENDOR

“Using this on the backend with some of our properties and it’s been very helpful. The amount of data available can be overwhelming, so make sure you work with reps to understand and get the best use out of it for your needs. Give them a call and see what they can uncover for you to help your business. We work in publishing and ecommerce so are concerned about the source, quality and validity of our web traffic. Fraud.net helps us identify good and bad traffic, device authentication and malicious bots, helping us with various business, technical and operational issues.”

ONLINE VENDOR

“The traffic and device data that Fraud.net provides is excellent, as well as alerts on bot and suspicious website visitors. Some of the information was hard to decipher at first, but they’ve added more detailed explanations to help out. Our advertisers require authentication of traffic and fraud.net does a great job of that.”

ABOUT HID GLOBAL

HID Global is the trusted source for innovative products, services, solutions, and know-how related to the creation, management, and use of secure identities for millions of end-users around the world. The company's served markets include physical and logical access control, including strong authentication and credential management; card printing and personalization; visitor management systems; highly secure government and citizen ID; and identification RFID technologies used in animal ID and industry and logistics applications.

Featured Testimonials

“Having looked at several logical access solutions that are currently available on the market, Crescendo was the only real option for the college. Crescendo allowed us to use the same card for physical and logical access control, it is compatible with Windows and has a straight forward set-up.”

SATEL NAIK
TECHNICAL SERVICES MANAGER, CITY COLLEGE COVENTRY

“HID Global's products have been used for setting up the entire access control system. Our clients are satisfied with HID Global's products in terms of its brand awareness, system stability and product functionality.”

WANG WEI
PROJECT MANAGER, BEIJING SPORT UNIVERSITY

“For access control, HID Global was the ideal choice as it offered a high level of security, functionality and the interoperability that we required.”

EMMANUEL LÁZARO
MAINTENANCE TECHNICIAN, NORVENTO

“With the new lock and mobile access model, I didn't have to worry that keys to my office might be lost or distributed to unauthorized people, and I could more easily keep track of who was coming and going.”

ABOUT IDENTITY AUTOMATION

Identity Automation has focused on intelligently automating provisioning, access, and account management from the start. They've never stopped improving, making their solutions even more powerful and seamless for organizations of all types and sizes. Today, RapidIdentity is the most powerful and complete IAM platform available, managing millions of identities for more than 675 organizations worldwide. RapidIdentity addresses not only web single sign-on needs, but also fully automated lifecycle management and provisioning for ALL users, integrated privileged access management, delegated identity administration, password management, comprehensive multi-factor authentication, and more.

Featured Testimonials

“With RapidIdentity automating the majority of our access and identity processes and governance, our IT team can focus on other pressing priorities, knowing that nothing will fall through the cracks and our system is more secure.”

RANDAL PHELPS
CHIEF TECHNOLOGY OFFICER, EAST SIDE UNION HIGH SCHOOL DISTRICT

“When we saw that RapidIdentity could link data from our internal systems, populate Active Directory, and automatically create accounts with the right destination systems and security accesses, we just said wow.”

STEVEN HOYLE
DIRECTOR OF IT SERVICES, LINCOLN COUNTY SCHOOLS

“Every Identity Automation technician was highly professional, kept us up-to-date on the project's status and roll-out, and provided a high-quality workflow solution, on time and on budget.”

DANIEL CORTEZ
SYSTEM ADMIN GROUP MANAGER, HOUSTON COMMUNITY COLLEGE

“The first time our students log into the RapidIdentity Portal, they get single sign-on access to their applications, textbooks, and course materials. It's now a secure, hasslefree experience for students.”

ABOUT LOGINRADIUS

LoginRadius started out in 2012 with the goal of helping companies better connect with their online customers. Since then they've grown to meet the diverse Customer Identity needs of their clients—empowering them to become a global leader in Customer Identity and Access Management. They work passionately to help thousands of businesses worldwide simplify Customer Registration and Identity Management.

Featured Testimonials

“LoginRadius’ ability to integrate a vast number of enterprise solutions made us feel confident that they could handle our specific needs, including the integration with ExactTarget. The deployment of the solution was smooth, and the timeframes were upheld with continued support. Overall, we were incredibly satisfied with our experience with LoginRadius, and would recommend them to anyone seeking to have their customer identities managed in a secure and reliable manner.”

KEITH MASON
HEAD OF ONLINE PLATFORMS, BAUER XCEL MEDIA

“LoginRadius’ understanding of identity management in the complex digital space is uniquely complementary to our core requirement. We approached the CIAM giant to build a robust healthcare data protection program where patient information and admin accounts remain secured and are only accessible by the authorized person.”

MATT CURYLO
CREATIVE DIRECTOR & DIRECTOR OF UX, BROADCASTMED

“Methodical and customer-focused, LoginRadius was the perfect partner for the company-wide, integrated, tailor-made solution we needed. Excellent communication, comprehensive documentation, and a very professional approach; LoginRadius is the team for the job.”

RALPH BECKER-HEINS
CHIEF EXECUTIVE OFFICER, SAFEBRIDGE

“We wanted to make sure the identity provider we chose would meet all the North American and European privacy laws, so that our user data was secure and safe. We also wanted the system to be highly available, and could scale to the extent in which we are planning on growing our user base. LoginRadius met all our requirements on performance, scalability, security, and features that we needed in our system.”

#### ABOUT OMADA

Omada is a market-leading provider of IT security solutions and services for identity management and access governance enabling organizations to achieve compliance, reduce risk exposure, and maximize efficiency. Omada’s solution empowers enterprises to manage identities across heterogeneous IT-systems and is acclaimed for its business-centric approach and high adaptability.

“For various reasons Omada has been chosen as the solution to address our identity and access management needs. The main reasons for choosing OIS include its intuitive user interface, direct connectivity to Active Directory as well as automation of lifecycle processes such as employees and contractors joining the company, leaving, or changing departments. The Omada Identity Suite and its comprehensive recertification features allow us to map our demands at the very early stage of the product implementation. Omada offers the most suitable tools to align with our processes when it comes to implementing processes such as role modelling and role-based user rights management.”

LOTHAR KLOSE  
HEAD OF DEPARTMENT, IT USER SERVICE, BARMENIA VERSICHERUNGEN

“The solution has brought about immense savings for the Ministry when it comes to controlling our identity management processes. The Omada Identity Manager solution has reduced the complexity and workload involved in order to coordinate tasks and progress.”

MARTIN NIELS PEDERSEN  
IT MANAGER, MINISTRY OF ECONOMIC AND BUSINESS AFFAIRS

“Omada gives us the opportunity to automate our user and authorization management in the long run and to realize efficient, transparent processes for our employee administration. All our staff will benefit from the implementation of standard processes and an increased IT security.”

ULRIKE SCHLUTT  
PROJECT MANAGER, CUSTOMER SERVICE CONSTRUCTION MACHINERY, LIEBHERR

“Omada’s consultants have delivered a great solution and beneficial advice based on their best practice experience in solutions for identity and access governance.”

ABOUT ONE IDENTITY

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Their solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Featured Testimonials

“Identity Manager checked all the boxes. We deployed the solution in a phased approach, with Phase One establishing the core provisioning, workflow and attestation paradigms for our core systems—Active Directory, ERP and ITSM. Phase Two expanded those capabilities to additional systems.”

VOLKER KLEMM  
PRODUCT MANAGER—IDENTITY AND ACCESS MANAGEMENT, OTTO GROUP IT

“Cloud Access Manager enables us to control the access of cloudbased applications through our existing identity management solution. Users can log on to Cloud Access Manager and then go to Salesforce, without having to authenticate to Salesforce. And if we disable a user in AD for some reason, the next time they click a button in Salesforce, they're logged out.”

WAYNE SMILEY  
SENIOR IS PROJECT ENGINEER, DELL

“One Identity Manager provides the tools we need to control and manage all of the roles and security permissions we have to deal with. Its level of flexibility and governance across our very diverse identity landscape is ideal for us.”

MOHAMMAD FAYAZ  
IT APPLICATIONS MANAGER, CANADIAN UNIVERSITY DUBAI

“Thanks to One Identity's Safeguard for Privileged Sessions, Bouygues Telecom has a tool for controlling administrators' access to network equipment while meeting the regulatory requirements for traceability.”

ABOUT SECUREAUTH

SecureAuth Corporation, creators of the groundbreaking SecureAuth Identity Provider™ (IdP) solution for the borderless enterprise, was co-founded by CEO Craig Lund and CTO Garret Grajek in 2005. SecureAuth IdP turns any enterprise into an identity provider capable of enforcing 2-Factor Access Control in a single, cost-effective solution. Fueled by the cloud and mobile phenomenon and the security requirements these disruptive computing platforms require, SecureAuth has experienced an accelerated rate of growth.

Featured Testimonials

“For more than two years, we’d been beating on vendors’ doors trying to get them to integrate strong authentication with Juniper’s SSL VPN. No one would do it. With SecureAuth, in a matter of two weeks we went from initial talks to a pilot. Each time we asked for additional features, they delivered – usually within a day or two.”

TODD GREENE
MANAGER OF INFORMATION SECURITY, CAROLINAS HEALTHCARE SYSTEM

“Our idea of how long it would take to get an authentication solution in place completely changed when we started working with SecureAuth. We were delighted when we realized it would take hours, not days or weeks.”

CHAD HOGGARD
MANAGER, INFORMATION SECURITY ARCHITECTURE, SEATTLE CANCER CARE ALLIANCE

“[SecureAuth] worked with not only our main Citrix-based application, but all other types of different applications, from VPN to web reverse proxy to cloud-based SaaS apps. It was a home run in every category.”

MATT JOHNSON
MANAGER OF SERVER ENGINEERING, HOUSTON METHODIST

“The ability for us to utilize the enhanced functionality of SecureAuth in order to provide better user experience in terms of ways to authenticate, ways to fingerprint someone, really was an easy cost justification when we talked about how do we secure that data considering it is our intellectual property.”

ABOUT MY1LOGIN

My1Login is a European leader in protecting against enterprise cyber security threats through its Identity and Access Management solutions. The trend towards SaaS has moved Enterprise identities outside the traditional corporate infrastructure, exacerbating the challenges of identity sprawl, password fatigue, resets and compliance adherence. My1Login's next generation Identity and Access Management solution enables organisations to overcome these challenges by providing a single user identity for employees, improving productivity and eliminating security threats.

Featured Testimonials

“My1Login’s IAM solution enabled us to solve a range of challenges, from cyber security risk and improving efficiency within the business, to reducing the time our IT team would spend on non-core administrative work.”

STEVE LONSDALE
IT MANAGER, RIBBY HALL VILLAGE

“My1Login solved this challenge in full. It provided employees with access to all their business systems by only having to remember one strong set of credentials. Our staff can now sign into their various business accounts without having to know the individual passwords. For additional security My1Login’s clever ‘white-list’ feature is used to restrict access and only allow them to log into their My1Login accounts when at work.”

ANDY MCKENNA
MANAGING DIRECTOR, BEST RECEPTION

“My1Login enabled us to eliminate a number of password-related security risks with granular audit trails around identities and application access. We also now have a much clearer picture of Shadow IT systems in-use. There are definite benefits to both security and speed of access to applications. My1Login has helped us identify around 600 business applications in-use and 100% of these are now integrated with My1Login’s IAM solution, providing Single Sign-on for these apps that is seamlessly linked to users’ AD profiles. I personally use it all the time and my users love it.”

CALLUM MCLEAN
HEAD OF INNOVATION AND DATA, NATURAL POWER

“The biggest benefit for us is the secure storage of passwords, and therefore the secure storage of our clients data - a critical factor for us. Being in finance, security and compliance are a top priority for us and My1Login has addressed all our concerns in this area of our business. Although we took it seriously in the past, and had developed a secure system (as best we could), My1Login is a big step up from that we feel 100% confident about password security. As we grow, My1Login is a solution that can grow with us.”

ABOUT UBISECURE

Ubisecure is a leading Identity & Access Management (IAM) software, IDaaS, and Identity API provider with a focus on Customer, Partner & B2B identity management scenarios. The company is also a GLEIF accredited, and now the fastest-growing, Legal Entity Identifier issuer. Their vision is to simplify and secure the automation of interactions through the three key identity domains; individuals, organizations and things at varying strengths of authentication and levels of assurance.

Featured Testimonials

“With Ubisecure's identity platform our customers can use a single identity to acquire and use our brokered cloud applications. Extensive support for IAM standards in the Ubisecure identity platform helped us standardise the integration between our IAM solution and the cloud services.”

PAULA AL-SOUFI
BUSINESS DEVELOPMENT MANAGER, DNA TELECOM

“I have worked in Identity Access Management for 13+ years and met many IAM providers. Ubisecure is exceptional in being a dedicated Customer IAM provider, so I'm really excited to bring Ubisecure's services to the Danish market.”

ILANGUAK OLSEN
OWNER & SENIOR CONSULTANT, IQO.DK

“The Ubisecure training days really showcased a well-rounded introduction and deep-dive to the IAM world. A room full of people with different skill sets were clearly capable of following the topics. Great initial touch on the subject, followed by specialized talks and actual code examples really demonstrated the know-how of Ubisecure in the IAM environment.”

MATHIEU DEVOS
INTOPALO

“IAM Academy was a very informative and clear course, particularly the hands-on labs which provided practical knowledge of installing, configuring and troubleshooting Ubisecure's digital identity technology. The trainers, Sami and Oscar, had excellent knowledge around the topics and remained flexible to the group's needs.”
