

# **Construction Management Software Category**

## Construction Management Software Category

Construction software aids the construction management team as all managers have access to the data at all times via their computer or phone. They can immediately see if the construction cost is on budget, if the work is on time and information regarding employees, subcontractors and suppliers as well as building licenses and regulations. This helps to make informed decisions about the project and its progress based on facts.

The construction manager will be responsible for all stages of construction management which could involve design, dealing with the planning authorities, buying the stock, building the team, getting construction contracts drawn up, overseeing the work, keeping on top of the construction cost and signing off on the construction. Construction management software is, therefore, an effective tool to manage a project in the construction industry from conception to completion.

# Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

## CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

## MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

## COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

## Award Levels

### MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

## Featured Testimonials

“B2W Track brings us to a place where we can get real-time productivity information. We're cutting out mistakes and double entry, increasing our productivity both in the office and the field.”

DAN MCGREW  
GRIFFITH COMPANY

“We improved equipment uptime to 95% with B2W Maintain. That's money in the bank.”

BEN TUCKER  
BARRIERE CONSTRUCTION

“B2W opened our eyes to new possibilities and made it obvious that a full, unified platform was what we really needed.”

DAN VALLENCOURT  
VICE PRESIDENT, VALLENCOURT CONSTRUCTION

“The difference between B2W Estimate and Excel is night and day. Now, one estimator accomplishes what it took two people to do before.”

LARRY BUTLER  
PRESIDENT, TRAFFIC AND LIGHTING SYSTEMS

#### ABOUT BLUEBEAM SOFTWARE, INC.

Bluebeam Software, Inc. pushes the boundaries of innovation, developing smart, simple markup and collaboration solutions for design and construction professionals worldwide. Since 2002, Bluebeam Software, Inc. has made desktop, mobile and cloud-based solutions for paperless workflows that leverage PDF to enable a common data environment, improve project communication, and streamline processes across the entire project life cycle. Trusted by over 1 million individuals in more than 100 countries, Bluebeam's solutions advance the way technical professionals work, manage and collaborate on projects digitally.

311

## Total Customer References

[VIEW ALL REFERENCES](#)

### Featured Testimonials

“Being able to digitally track the actual individual who is inputting the information - who did what, who signed off on an item and when has dramatically improved quality control and tracking capabilities.”

DAVID STONE  
INTEGRATED CONSTRUCTION MANAGER, MORTENSON CONSTRUCTION

“Bluebeam's specialized PDF technology is ideal for major construction projects where many partners and contractors are involved. Bluebeam's intelligent PDFs allow for superior document control, distribution and management, accelerating project lifecycles and simplifying project closure and archiving. Clients will receive higher quality deliverable at a lower cost.”

CARLOS MORGNER  
PRESIDENT & CEO, MANAGEMENT, MORGNER CONSTRUCTION

“Bluebeam software has simplified my work, making it easy to mark up plans and documents as if they were on my desk using a pen and marker. No more scanning marked up documents! I just click a button and the revised document is sent via email to my team. It has been the most valuable tool I have come across in a long time. If you are not using Bluebeam, you are not keeping up with our industry.”

PATRICK MCGARRY  
MANAGER, CIVIC PROJECTS, CITY OF CARLSBAD, CALIFORNIA

“Our Regional Engineers continue to rave about your software. They love being able to share drawings electronically with the use of PDF files. We also love the capability of being able to print to the Bluebeam PDF printer. That feature had proved very useful from some other software programs.”

TAD WIRMEL

## Featured Testimonials

“Buildertrend allows us to take information and jump it into QuickBooks. That level of button-push efficiency didn't exist before. As a result, we can work on higher value things and improve our business performance.”

STEVE LESEM  
CHIEF OPERATING OFFICER, RISINGER BUILD

“Now that the team is using Buildertrend and updating the daily logs in real-time, customer calls and emails have decreased by 90 percent after using Buildertrend for a year.”

JOHN BURKE  
OWNER, PARAMOUNT FENCE

“My favorite feature is the Customer Portal. Our clients do actively use it. They ask us questions about photos as well as the schedule. And the payment process and being able to see the approved selections is easy for them.”

THERESA MYERS  
WAMHOFF DESIGN|BUILD

“Today, the number of homes that we're able to complete has more than doubled.”

#### ABOUT CMiC

As an industry pioneer, CMiC delivers complete and unified ERP and field solutions for construction and capital projects firms. CMiC's powerful software transforms how firms optimize productivity, minimize risk and drive growth by planning and managing all financials, projects, resources, and content assets—from a Single Database Platform™. With customers throughout North America, CMiC serves one-quarter of ENR's Top 200 Contractors and hundreds of small and mid-sized construction firms, from general and specialty contractors to heavy/highway and project owners.

90

Total Customer References

[VIEW ALL REFERENCES](#)

## Featured Testimonials

“It's vital to make sure costs are allocated accurately and appropriately on every project. CMiC is a game changer considering we manage over 100 project assignments every year that all follow the same construction management process.”

CHRIS EBY  
PRINCIPAL, BIG CONSTRUCTION

“Our goal is to streamline the dataflow and CMiC dashboard it a tool to help implement this process. Each project supervisor has access to key pieces of information which allows them to manage by exception. It makes us more efficient. With our previous software we used considerable time trying to communicate data across the organization. Our investment in CMiC has and continues to pay off.”

PAM DOTSON  
PARIC CORPORATION

“The drag/drop functionality with emails is extremely useful! With the number of e-mails and attachments that come in, it can take a lot of management - CMiC has saved us a lot of time.”

CHERI DUCHROW  
MIRON CONSTRUCTION

“The CMiC platform unifies our processes and drives efficiency. We are able to avoid duplication of data entry and standardize templates and processes. CMiC has also allowed us to incorporate our financial data within the project management platform, eliminating the need for external financial software.”

CARLO MARTINI  
VICE PRESIDENT OF PROJECT DELIVERY SERVICES, MARANT

#### ABOUT FOUNDATION SOFTWARE

Foundation Software offers FOUNDATION mobile - a web-based application that works by allowing users to enter and review timecards, job data and field notes remotely. Finally, the brand new Service Dispatch mobile lets service technicians receive notes and directions about their dispatches, log time, record materials used, send back notes and more! FOUNDATION is also available on the cloud as FOUNDATION SaaS ("software as a service").

### Featured Testimonials

“In general, I like the way everything in FOUNDATION ties together very well. The service module is designed well. I love the dynamic filtering so you can see which dispatches are available where, with who and what — it's a very powerful feature. Yeah, I'd say I found it very easy to get used to and to get our new service manager and dispatcher to use them. I think the service module is a great addition.”

PAT K.  
CONTROLLER, SOLARCRAFT SERVICES

“FOUNDATION is one of the most advanced construction accounting products on the market and an ideal system from a CPA's perspective. It provides both timely and accurate information that will enhance their ability to manage the financial side of a contractor's business – a win-win situation.”

GARY FORTIER  
CERTIFIED PUBLIC ACCOUNTANT, L&G TECHNOLOGY

“It is exactly what we need being in the construction business. It is so easy to get all sorts of reports we need, to create documents (invoices, etc.), and to get support when needed.”

SANDRA COLUMBO  
DIRECTOR OF OPERATIONS, ALTERNALITE ELECTRIC INC.

“We like to track quantities and estimated vs. actual costs of our self-performed work. FOUNDATION for Window's flexibility in job cost reporting and ability to easily tie into outside software, such as Excel, were deciding factors in making the change.”

RICK PAVELICK  
CFO, LANDAU BUILDING

### Featured Testimonials

“We make better project execution decisions with InEight software because we’re working from the most accurate and up-to-date information from the project site.”

BLOIS CONSTRUCTION INC

“InEight’s construction background enables them to understand our needs and offer us a construction solution rather than just a software solution!”

TOM BASKIND  
TECHNOLOGY MANAGER, GRAYCOR

“From the planning process through field execution, inspection and closing the job out, everything’s tied together, and the uniqueness of it is that it all speaks to each other.”

CLAY MCKENZIE  
PROJECT ENGINEER, TIC

“One of the things InEight does well is being able to schedule out a project not just from a cost perspective but from a time perspective. If we need to hit to a point of completion by a certain date, you can plug into the commodity curve to see where our production is so we can tell right off the bat whether we are meeting schedule or behind schedule, and if we are meeting budget or behind budget.”

### Featured Testimonials

“From a field-specific perspective, the usability from a mobile device was hands-down the reason why the field wanted to use it. We pulled up Procore on an iPad, showed it to our field leadership, and they were ready to make the decision right there.”

JUSTIN PRITCHETT  
CONSTRUCTION DIVISION MANAGER, AUBURN MECHANICAL

“It's a great system to use—easy to catch on to. It's simple enough for everybody on the job to learn how to use quickly and effectively. I call Procore the mesh—the foundational element that interweaves the whole team, from trade partners, to craft folks, to superintendents, to the design team. All of those disciplines use Procore to communicate the need, to communicate the small pieces and the big pieces, the work sequence; everything.”

SARAH NARJES  
PROJECT EXECUTIVE, MORTENSON

“Procore has given our team a platform to provide project insight to all stakeholders—regardless of their construction understanding. The platform is intuitive and requires minimal training, so it can be easily implemented across our 50+ projects. Procore's platform allows local officials to remotely see what is going on in projects relevant to their jurisdiction.”

JESSY MILNER  
CO-OWNER, FRONT LINE CONSULTING

“Procore's software is inclusive and it's very reliable. It has features that we couldn't get in other construction project management software, such as allowing us to integrate a Microsoft Project schedule file and keeping that schedule updated over the web. These features allow us to improve our service to our clients, and that's not a little thing.”

### ABOUT ASSIGNAR

# Assignar

Assignar is a cloud based compliance, asset and workforce management platform for highly regulated industries. Developed from first hand experience and the need to solve the challenges within a fast growing construction service provider, Assignar rapidly gained interest from stakeholders in other highly regulated industries. Assignar delivers its customers increased efficiency, transparency and significant management cost savings.

## Featured Testimonials

“The support we get from Assignar is good. We can reach out over email, live chat or phone. Assignar answers straight away. Now that we use Assignar, it's much easier to manage jobs. Everything is linked within the platform. We've gotten rid of cross referencing and double data entry. There's no back and forth between the site and the office, everything is one place, accessible to everyone. All our guys have caught onto the app as well, and they're very happy with it.”

MAYBERRY CONSTRUCTION

“Implementing software in our business has been a game-changer, especially with the recent situation. The platform allows our office staff to work remotely to ensure the health and safety of our employees. The staff can easily relay scheduling information through the mobile app to our field workers, who work in small crews. In a time where many other companies are having to close their offices or reduce staff, we are actually thriving.”

JASSEN SMIGAY  
VP OF OPERATIONS, DACS

“Communication across our business has improved immensely, as our fieldworkers are able to fill out their site inspection forms as they arrive on site, take photos of any hazards or equipment that looks tampered with and notify the team immediately.”

ABBEY CARLSON  
OPERATIONS COORDINATOR, SIMCAT GROUP

“Switching to Assignar has saved us so much time in our day to day operations. We can keep up to date with compliances and safety standards. We can easily manage all our workforce out in the field and keep track of our assets in real-time which is essential.”

MATEUSZ JEDRUSZEK

### ABOUT AUTODESK BIM 360

#### **B** AUTODESK® BIM 360™

BIM 360 improves construction project delivery by supporting informed decision-making throughout the project lifecycle. From design collaboration, documentation and reviews, to pre-construction, and through quality and safety and operations, BIM 360 connects the people, data and workflows on your project, so you can see the big picture and keep your projects on track.

### Featured Testimonials

“We are understanding, preparing, and improving projects. BIM lets us rely more on faster and lower-cost lean construction techniques, like prefabrication and just-in-time delivery of material.”

HARMEN BIJLSTRA  
BIM MANAGER, VAN WIJNEN

“The investment was a no-brainer as the enhancements made Autodesk BIM 360 an even more valuable construction management platform. It removed previous barriers to model entry, such as having specific software knowledge and desktop access. Now, all stakeholders across the construction lifecycle can easily access powerful 3D visuals and data that is complete and up-to-date.”

CHRISTOPHER BAZE  
BIM MANAGER, HAWAIIAN DREDGING CONSTRUCTION COMPANY

“Time is one of the most valuable assets in construction. When you have everybody on the same interface, you can seamlessly and efficiently communicate across all platforms. Autodesk Build is going to save time by eliminating redundancies and having one platform that I need to open to convey information across the entire team.”

AMY KOZLOWSKI  
PROJECT MANAGER, HERRERO BUILDERS

“Thanks to the automatic alerts from the BIM 360 Docs, the designers respond on time based on the deadline we set up on the platform. The baseline of BIM 360 is like the logic-based Windows Folder structure. It's easy for people to understand, even if they are using it for the first time.”

#### ABOUT BRIDGIT

Founded in 2014, Bridgit is workforce intelligence for the construction industry. Bridgit's mission is simple – to help the construction industry maximize profits by taking a people-first approach. Workforce Intelligence from Bridgit transforms workforce data into actionable insights that inform an organization's strategic and tactical business decisions. Bridgit works with construction industry leaders like Skanska, Balfour Beatty, Ryan Companies, among others. Bridgit is a privately owned company, having raised over \$15.7 million USD in equity financing, with capital from investors such as Autodesk, BDC Capital's Women in Technology Venture Fund, EDC, IAF, Salesforce Ventures, Sands Capital Ventures, and StandUp Ventures.

### Featured Testimonials

“Managing resources has always been a challenge for most construction companies. Now we have Bridgit Bench. Bridgit Bench has saved us a lot of time, in terms of managing our resources, the sort and search features, and how we can allocate our teams by position, and so forth. It's a great software, great customer service, and an awesome tool for us.”

REGGIE MORGAN  
CHIEF OPERATING OFFICER, DEANGELIS DIAMOND CONSTRUCTION INC

“Bridgit Bench is very user-friendly, which helps transfer the ownership of managing information to the people that really need to manage it. Everything is updated to the T, our group knows where everyone's at, and where they're going next. It's impressive to watch.”

LEON FOSTER  
CHIEF PERFORMANCE OFFICER, THE LEMOINE COMPANY

“Bridgit Bench has greatly helped us stay organized with current project team assignments and understand upcoming project assignment requirements. Keeping a current status and building up potential project team requirements has helped our organization grow and better understand our staffing needs.”

JIM GOODWIN  
SENIOR VICE PRESIDENT CONSTRUCTION, KAJIMA BUILDING AND DESIGN GROUP

“Bridgit Bench is a simple, cost-effective way to align resources that every mid-sized GC can benefit from. It simplifies the work that often gets forgotten, is left to the last second, and falls on one or two people. It's imperative to understand each department in order to be effective in resource planning.”

### Featured Testimonials

“This software packs more punch than you would expect at its meager price point. It offers so much in the way of construction management that it is almost unbelievable.”

LINDSEY-LEIGH M  
JWH CONSTRUCTION SERVICES, INC

“The integration of the whole platform is very good, including externally with Quickbooks Online. Ability to do time sheets in the field without separate software. Cost codes and cost items that can be used for different jobs, this is huge for us. Other fringe abilities, such as sending billing to a different person vs. the customer, and CC'ing multiple folks. The apps are really feature heavy for a construction software, many other competitors, the apps are just terrible vs. the web portal.”

CHUCK A  
LIERCKE CONSTRUCTION, LLC

“The time tracking software for my crew, allows me to keep track off all my guys hours and where they are and what they are doing. This helps on renovations all the way up to high production framing jobs where I can cross reference their productivity on linear foot of wall and square foot of wall completed per hour, etc.”

MATTHEW S  
M. SMITH CONTRACTING

“Coming from one of the major providers to Contractor Foreman, I expected a lot less than what we have. In fact, I am impressed at how much it offers for the price. I like that it has almost everything in one place from the client portal to schedules, to budgets, and so on.”

SHAWN B

### ABOUT HCSS

Innovative Software  
for the Construction Industry

Since 1986, HCSS has been developing software to help construction companies streamline their operations. Today, they are recognized as a pioneer and leader in their market, serving thousands of construction companies across the nation. Year after year, they continue to innovate, refine, and expand their products as the industry evolves. HCSS' mission is to help customers dramatically improve their business through innovative, high-quality software and exceptionally helpful service while providing a great life for employees.

WILLIAM HOBAN  
PRESIDENT, ENVIRO-EX CONTRACTING LTD

“One of the great benefits of HCSS Aerial is being able to review the construction site as your work progresses. It's been able to help us demonstrate timelines of events to owners and clients.”

MICHAEL CANNELL  
J.F. BRENNAN COMPANY, INC.

“We started down the road of being certified under ISO9001, ISO14001 and ISO 45001. There are maybe half a dozen construction companies in the US that are ISO certified, and there are maybe 2 or 3 that have what's called an integrated management system, which involves more than one standard of the ISO series. We'll have all three of those. HCSS is absolutely instrumental in helping us achieve that. Without HCSS, we would absolutely have to have more headcount, spend a lot more hours both onsite and in the office to validate that we're doing what we say we're going to do.”

BRENT FREEMAN  
KRAEMER NORTH AMERICA

“HeavyBid is the only estimating software I've ever used. This is the third company I've worked for in the construction industry, so I don't know any other estimating software, and I don't really care to know them. I love HeavyBid. I love all the features I can get out of it. There are so many things that HCSS has done that speeds up our lives as estimators. [HCSS] continues to improve upon those whenever possible, and it's fantastic for us in the working world, when we're trying to put bids together and we're not spending hours plugging up bid item prices for all sorts of DOTs. It's pretty wonderful.”

KAN PHAOBUNJONG  
CHIEF ESTIMATOR/EMPLOYEE OWNER, SPAWGLASS

“The assessment was useful and provided us with a way to reflect on our current processes and helped in identifying what we need to do to improve our usage of HeavyBid. Especially beneficial is the detailed step by step list of activities that need to be done in order for us to get to our end goal. From this exercise we have implemented a bi-weekly HeavyBid improvement meeting and we are using this list as our guide/agenda for work assignments, progress discussions, review, and scheduling our HeavyBid improvement plan.”

[VIEW ALL REFERENCES](#)

## Featured Testimonials

“ LetsBuild makes our progress reports more efficient by automatically merging all photos and points. As a result, we do not have to waste time manually making the links. Furthermore, LetsBuild gives us a clear overview of the remaining points. ”

OOSTELBOS VAN DEN BERG

“ With just a few clicks, I can learn the current state of my projects. I can see where we are having problems and which contractors are experiencing delays. This kind of knowledge, which is difficult to get, is indispensable as it helps us evaluate and improve our approach to work. ”

JIMMI GROULEFF  
OWNER & DIRECTOR, IDEALHUSE

“ We looked at a number of different solutions but ended up choosing LetsBuild, as it is an incredibly easy and simple tool to use, even during the learning phase. ”

TOM LINDQUIST  
MANAGING DIRECTOR, HØYRUP AND CLEMMENSEN

“ Our architect office has been using LetsBuild for one year and we continually discover new opportunities. A major advantage is that you have all documents and plans with you in digital format on a tablet – no more carrying heavy ring binders on site. In addition, all documents are constantly accessible via the cloud. The layout of the reports can easily be changed according to the phase of the project: intermediate reports, site reports, lists upon completion, personalised lists etc. An indispensable tool in these times of rapid communication. ”

SARAH STAESSEN  
ARCHITECT, A2D ARCHITECTS

### Featured Testimonials

“One of the major risks associated with a construction project is delay of project completion. Newforma shortens response times and creates a concise record that is hard to dispute, thereby mitigating risk.”

PATRICK MCALEESE  
SENIOR VICE PRESIDENT, WSP

“Newforma Project Center enables us to easily and securely exchange large amounts of data. Messages are automatically indexed via the e-mail management feature, and required information is available in seconds via the exceptional keyword search.”

MICHAEL OBERLÄNDER  
DOOSAN LENTJES

“One of the best features is the ability to photographically record design defects on site, which can then be issued instantly to the contractor or client through the web-based Info Exchange.”

MUHAMMED IBRAHIM WARDA  
ARCHITECT AND COORDINATOR, ARCHITECTS 61

“Not only does Newforma project cloud provide tangible contract administration time saving benefits but it also results in harder to measure payback like eliminating lost, damaged and destroyed project documents.”

#### ABOUT RAKEN

Raken provides innovative mobile technology to streamline field workflows for construction workers. Raken's "digital toolbox" connects the field to the office with daily reports, production tracking, time cards, toolbox talks, project insights, photo management, and more. Thousands of the world's top construction companies use Raken to solve their field reporting needs.

### Featured Testimonials

*“Raken is a one-stop shop for time, comments, and photos. It definitely improves what you know about what's going on with all the jobs, plus it's easy to use.”*

PAT REDINGER  
OFFICE MANAGER AND ESTIMATOR, STONWERK

*“Raken is user friendly and helps every worker be on the same page. If you're using a crew or even two people, multiple jobs or just one, it helps keep track of hours, and notes, and reports. I enjoy the app and have made it fit our work style, it has simplified filing of jobs, bids, and possible clients.”*

CHRIS PEDERSEN  
CAP MASONRY LLC

*“That capacity to be able to access and take photographs throughout the day on an iPhone or a tablet has just been a game-changer. As soon as we started using Raken we realized how valuable they were. Raken is a live update throughout the day, which is really foolproof. As a general superintendent that has an overview of all the projects, it's really handy for me to be able to go in and view the projects live as they happen each day when I'm not necessarily on site, which has been a real help.”*

ANDREW DYER  
SENIOR SUPERINTENDENT, UNISON CONSTRUCTION MANAGEMENT

*“It's easy to use and reliable, regardless of platform. It has significantly improved our company's communication, record-keeping, and billing.”*

### ABOUT UDA TECHNOLOGIES

#### UDA TECHNOLOGIES

UDA Technologies is one of the fastest growing providers of construction productivity software, trusted by over 550,000 construction professionals in the United States, Canada, Australia, and 75 countries worldwide. Designed for growing businesses, UDA construction software manages over 70 billion dollars of construction annually. Identified as a key partner in construction software technology, UDA Technologies is a Microsoft Partner and a Premier Intuit QuickBooks developer.

### Featured Testimonials

“We started looking for construction software because we needed something that was more integrated than our current system. We looked at a lot of competitor's products, but they were expensive and didn't do a lot of the things we were looking for. UDA had it all, it was user friendly and a complete package, especially in terms of documentation, and that's where ConstructionSuite really has helped us out. It has taken all of the applications I was previously using and integrated them. It has simplified areas of my business that used to be complicated.”

TOTAL SOLUTIONS PROVIDER

“ConstructionSuite handles all of my company's daily work duties from critical path to change orders to vendor information to daily project tasks. The estimating section is by far the best I've used in the past ten years, and I've tried many. I can do everything from reports to extremely detailed estimating without fear of forgetting an item, and then I can import the final estimate into QuickBooks.”

TIM LASSITER  
PRESIDENT, HOUSTON REMODELING

“As a home builder, I need tools that help leverage my time as much as possible. UDA ConstructionSuite speeds the process of drafting specifications, writing contracts, estimating, scheduling and other document creation. And, the QuickBooks Integration enables me to quickly generate QuickBooks estimates and purchase orders as well as monitor project costs. With UDA ConstructionSuite, all my project-related documents are organized in one place, assuring that everyone in my office has access to and is working with the same source documents.”

GEORGE E. DAILY  
OWNER, A&E HOMES

“I'm a General Contractor in California, and I've been using ConstructionOffice since 2002. The Estimating tools are great. At the end of the project I can see how much money I made, or the other way around. My estimates are a lot more accurate than they used to be, and I'm faster, too. The ConstructionOffice integration marries the estimate and the schedule together, so you can share information. It really saves me a lot of time. I can't do without ConstructionOffice.”

#### ABOUT UNANET CRM BY COSENTIAL

As the AEC industry continues to see upward motions of digital transformations, Cosential has been leading the charge in that movement. Cosential is the only growth platform that goes beyond a CRM in owning the pre-sales process for market leaders winning business in the AEC industry. Cosential has spent the last 20+ years tailoring their platform's robust CRM and powerful proposal generation features to the construction and related industries- empowering Business Developers, Marketers, Executives, and select Project Teams to own, enrich, and leverage their firm-owned data. Our mission is to empower Architecture, Engineering, and Construction professionals with a cloud-based CRM and Proposal Automation solution to simplify their lives and win more work. About Us Since its founding by Dan Cornish in 1999, Cosential has been providing comprehensive CRM and ...

### Featured Testimonials

“My favorite part of Cosential is the opportunity database, the way it stores data, especially with value lists. It has changed the way we pursue work. I work directly with all of the marketing coordinators, and we're constantly looking at our hit rates, and the fact that we have all this information directly at our fingertips so quickly, so easily, so accurately—it's very important to us. There's so much data you have, and you need to find a place to put it. Cosential is that for us.”

DEBORAH BOYD  
SENIOR ASSOCIATE, CORPORATE MARKETING, KCI TECHNOLOGIES

“I think one of the big benefits that we've seen from Cosential is our ability to search our national database of personnel experience when we do large, national searches. Before, the local marketing offices would literally have to go through everyone's resume individually and tabulate the projects they've done, and now we can simply run a report in Cosential and find out what project managers we have nationally, and give that to the project team in a matter of minutes.”

NANCY FRAZIER  
DATA GOVERNANCE MANAGER, SKANSKA USA BUILDING INC.

“Cosential has streamlined our proposal process [and] made it much more efficient. I love the publisher module - we can produce profiles, project lists and resumes quickly and know that the information is accurate and consistent.”

FARRAH MOTE  
MARKETING MANAGER, ROBINS & MORTON

“My favorite part of Cosential is the dashboard widgets and reporting. Cosential allows us to ensure all our departments can share and compare data points easily and make it easy for our executives to evaluate our business development and marketing efforts.”

#### ABOUT ESUB

eSUB is the leader of web-based project management and document control software designed specifically for subcontractors in the construction industry. Built on thirty-plus years of expertise, eSUB's easy-to-use, software-as-a-service helps self-performing contractors increase standardization, accountability, and productivity. Today, thousands of users trust eSUB's platform to manage project communication and collaboration on construction projects worldwide.

#### Featured Testimonials

“Field Foreman and onsite worker adoption has been incredible since they are using Samsung tablets to run the easy-to-use eSUB platform in their daily project delivery activities. Our field staff have very diverse backgrounds, and some are not tech savvy, but there have been no complaints about the intuitive user interface, and robust capabilities the eSUB platform provides our team.”

MIKE DAGUE  
OWNER, SOUTH BAY FRAMING

“With eSUB, it is easy to do a daily report. It is easy to create and upload project photos. It is easy to use logs for RFIs and potential change orders.”

COLIN COOK  
VICE PRESIDENT OF OPERATIONS, PACIFIC RIM MECHANICAL

“The ability to track labor and costing differentiates eSUB from some of the larger softwares, like Procore, where that's made more for a general contractor, eSUB is made for the subcontractor, and that's when those cost codes become very important.”

RICH KENNARD  
DEVELOPMENT MANAGER, ABOVE ALL STORE FRONTS

“eSUB saves a lot of time, and it can save you a lot of money. Paper gets misplaced, or you spend a ton of time trying to find it. With eSUB all your documents and correspondence are in one place, and the information is at your fingertips.”

MELONY COOK

### Featured Testimonials

“I like Deltek + ComputerEase for its ease of use and ability to job cost effectively. It allows you to see jobs at 10,000 feet or drill down to the details. This gives my clients the ability to focus on their business and not in their business.”

JOHN STENGER  
CPAS, STENGER & COMPANY

“I like the ability to search items in several different ways and to see how each applies to specific jobs. I don't know of anything specific that I don't like about CE. I would suggest taking the time to go through the tutorials and also get familiar with all the different applications.”

CHARLOTTE  
DECKER AND SONS

“Maribel Scarnecchia. She is the reason I sought out ComputerEase to replace my company's old computer system. And of course, ComputerEase lives up to its name. I've used other systems - Oracle, Timberline, Peachtree, etc. Nothing is as complete, as integrated and as simple to use as ComputerEase. ComputerEase is the best software I've ever used. The ability to drill down into reports for detail, the job costing, equipment tracking, service management, all make this the software any construction company should have. You won't be disappointed and your people will thank you for switching.”

DONNA  
RANDALL MECHANICAL

“We have recently added FieldEase and incorporated ComputerEase invoicing into our daily process. Having the advantage of emailing the invoices directly from the system is a time saver. FieldEase has been easy to use for our field crew and we are quite happy with the results. This is the most robust system for the construction industry that I have experienced! Take advantage of the Customer Corner and pay for the unlimited support. It's worth it.”

#### ABOUT KNOWIFY

Knowify was founded in 2012 based on the premise that it was time for the business management technology revolution to reach small businesses. Their aim is to streamline and simplify many of the frustrating aspects of running a contracting business, leaving you and your employees freer to focus on serving your customers, managing work orders, and tracking your progress and profitability. Knowify can help your contracting business manage service tickets, work orders, and contract jobs all on one platform. Knowify encompasses estimation, job costing, contract and change order management, project tracking, time tracking, invoicing, purchasing, billing, and scheduling. Know your business, grow your business.

39

## Total Customer References

[VIEW ALL REFERENCES](#)

### Featured Testimonials

“Knowify clarified contracts, simplified change orders, and offered an easy billing solution. Firstly, seeing where you stand on a project and knowing the balance remaining on a contract is so important. Otherwise, how are you able to manage your cash flow accurately. Secondly, it is a pleasure sending out invoices and change orders since it can take under a minute to generate. Just a few of the features why Knowify is the solution for me. Simplifying my already busy day one task at a time.”

KIM ISAACMAN  
ADVISOR, BOTTOM LINE BUSINESS SOLUTIONS

“The entire team can access to review job costs and profitability. Absolutely love the built in AIA billing format and the ability to email out of the application. We also use the app in the field to capture and review employee time. It's very seamless.”

KATHY MAHON  
ACCOUNTING MANAGER, SOUTHWEST EARTHWORK

“Extremely useful software that has a lot of features. Has everything a contractor needs from bid creation, project management, job-costing, purchase orders, Geo-fencing for time tracking, and more. The app is also backed by an extremely helpful staff that aids in deployment, questions, best practice procedures, and customization. They are also receptive to any ideas for improvement and they will help you with any workarounds for a particular issue.”

JONATHAN GABRIEL  
ACCOUNTANT, SADDLEBACK ROOFING

“It's helped us. We've increased our profit substantially, mainly due to material cost and things of that nature. I can look and see the analytics and see my actual profit percentage for a particular job. It's helped us to decrease our materials cost because we have better control over loss prevention of the materials.”

ERIN POLSON  
OPERATIONS MANAGER, POLSON PAINTING

#### ABOUT RELATICS

Relatics is a web-based platform used by projects in the construction and civil engineering industry for requirements management and systems engineering. It frees the project of numerous spreadsheets and isolated applications. As a result, Relatics has proven to regain project control, reduce project risks, and decrease failure costs. Relatics is used by governments, contractors and consultancy firms for buildings, roads, bridges, tunnels, railways, canals, dams, ports, airports and dredging.

82

Total Customer References

[VIEW ALL REFERENCES](#)

## Featured Testimonials

“Relatics is widely used for Systems Engineering at Heijmans. After an earlier introduction at Infra, we are now also seeing that its use is continuing to grow in the utilities arm. The use of Relatics leads to manageable structures within projects and reliable information. Thanks to the nature of the software, we can provide our clients with a personalised service, where the management of the information is still simple. The software quickly becomes familiar to new users and information can be retrieved without problems. As a result, it is possible to manage both small and large, complex projects in Relatics. The flexibility of the software has also made it possible to link with other systems.”

KENZO OIJEVAAR  
HEIJMANS

“The way in which Relatics supports new developments such as OTL and COINS underlines that they have substantial knowledge of what is happening in the world of information management. In addition, the system is open and flexible, which provides us with the option to tailor it fully to the specific situation. All information is consistently and transparently stored and easy to access. The latter can also be done from different perspectives - client, contractor or administrator - which makes relevant information always easy to find and to share. As such, Relatics directly contributes to effective information management and an efficient progression of the entire project, from design to maintenance.”

NIELS REYNGOUD  
INFORMATION MANAGER, PROVINCE OF GELDERLAND

“We wanted to record all relevant information in a central location, rather than consulting separate Excel checklists. Relatics follows the principles of systems engineering, offering a clear hierarchy and overview. This makes information storage less error-prone and facilitates easy, transparent modifications.”

FRANK HARING  
THE HAGUE MUNICIPAL AUTHORITY

“Relatics is very easy to use, flexible and scalable. We highly value the possibility to adjust the software during the course of a project to adhere to changing needs. Therefore we use Relatics in a growing number of both Dutch and international projects. Over the years we met in the Relatics company a very trustworthy partner. As a multidisciplinary consulting and engineering firm we successfully launched the Relatics environment within our infrastructure projects (highways, bridges, tunnels, light and heavy rail). We use Relatics mainly for contract management (performance auditing) and requirements management (systems engineering). The fact that Relatics is web based makes the software even more useful.”

JOHAN HEKKER  
ROYAL HASKONINGDHV
