Corporate Sustainability Software Category

Corporate Sustainability Software Category

Corporate sustainability assists enterprises to manage their environmental impact, practice social responsibility, and be compliant with government standards on recycling, renewable resources, and emissions. By managing and measuring operations, organizations like real estate firms, governments, utilities, fleets, manufacturers, and others can decrease their carbon footprints and preserve their company's wellbeing as well as the environment.

Sustainability software enables enterprises to handle all the data generated in their operations – from fleet management, building maintenance, manufacturing etc. – to analyze their sustainability and effect on the environment. To accomplish this, organizations need to collect huge volumes of data about fuel costs, facility water and energy usage, utility bills, and other sources. The platform evaluates this data and offers performance management benchmarks and dashboards to enable firms to preserve corporate responsibility, comply with regulations, and optimize efficiency.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

COMPANY SCORE

- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT CORITY

cority®

Cority (formerly Medgate) is the most trusted environmental, health, safety, and quality (EHSQ) software for assuring client success. Cority enables organizations to utilize EHSQ software to advance their journey to sustainability and operational excellence by combining the deepest domain expertise with the most comprehensive and secure SaaS platform. With 30+ years of innovation and experience, Cority's team of over 300 experts serves more than 800 clients in 70 countries, supporting millions of end-users. The company enjoys the industry's highest levels of client satisfaction and has received many awards for its strong employee culture and outstanding business performance.

Featured Testimonials

❝ Cority has allowed us to collect and manage Industrial Hygiene data more efficiently and consistently than previous methods, which has enhanced our ability to focus on specific issues and to improve the working environment for our employees. ❞

TOM CHISM
SENIOR MANAGER, BARRICK GOLD

❝ The flexibility of the tool, to be able to really design what we want to do and the kind of calculations we needed to perform specifically, was a key factor in choosing Cority. The Cority software had the level of flexibility we needed to meet our requirements. ❞

JIM WELDY
INDUSTRIAL HYGIENE MANAGER, DOW CHEMICAL COMPANY

❝ The data was easily and quickly exported from our existing system and imported into the Cority software. Now all terminal activity is autoloaded into Excel and then uploaded to Emissions Inventory, saving us a considerable amount of time and effort for data that was previously entered manually. For a facility like ours with a large number of emission points, a diverse chemical inventory, and a high activity level, tracking site-wide emissions, including HAPs (Hazardous Air Pollutants) and combustion emissions for our Cap & Trade reports, is a massive effort, and Cority's Emissions Inventory provides those calculations with the click of a button. ❞

TIM FRIDAY
ENVIRONMENTAL SUPERINTENDENT, STOLT–NIELSEN LIMITED

❝ Cority is competitively advantaged when it comes to environmental software and compliance calendaring. The software offers robust calculations and enables end users to change their calculations. We haven't found a comparable software. ❞

STEPHANIE HARDEN
EHS SYSTEMS MANAGER, KOCH INDUSTRIES

Featured Testimonials

" *OneTrust not only provided flexibility in the way the tool was built, but also offered people to help us work through the implementation process. In the early days that was the most important aspect—not the product itself but the process of working with OneTrust to understand what we needed to implement.* "

JIM CASEY
ASSOCIATE GENERAL COUNSEL AND CHIEF DATA PROTECTION OFFICER, AKAMAI

" *The OneTrust platform enables clear communication and effective collaboration between the corporate functions, thus facilitating a broader awareness of risks and feeding dynamic and innovative solutions to link the principles to specific technical requirements.* "

GIOVANNI DEL LUNGO
DPO, LOTTOMATICA

" *OneTrust provides and easy and user-friendly way of responding to questions and queries. It's a pleasant user experience. Through customization and branding, our employees feel comfortable with the process and we get a good response.* "

SARAH HAGHDOUST
DATA PRIVACY COUNSEL, OSRAM

" *In addition to its ease of use, the OneTrust tool centralized our data and different file formats. The tool truly allowed for seamless communication across teams and departments.* "

Featured Testimonials

We have created a solid foundation for our reporting of all ecological aspects of sustainability by implementing a centralized system. The effort required to record, verify and evaluate data has been reduced significantly since we can automatize many work steps with Quentic.

MARKUS SCHÖNBERGER
TEAM LEADER SUSTAINABILITY CONTROLLING, VOITH

In the past, we didn't capture nearly as much data about our management of hazardous substances because we just didn't have the time. Today, everyone wants to store all the data they can in Quentic because of how convenient and efficient it is. Everything is centrally stored in a secure, yet easy-to-find way, like in a sophisticated online media library.

TORSTEN GUTOWSKI
WORKPLACE SAFETY SPECIALIST AND HAZARDOUS SUBSTANCES OFFICE, DMK GROUP

In the past three years we have used the software to record more than 2,000 waste processes – today we can conveniently evaluate this data and, just by the push of a button, visualize it in clearly structured tables and charts. These extensive evaluation possibilities are a major advantage of Quentic.

STEPHAN GRAF
ENVIRONMENTAL OFFICER, ARBURG

We have found a viable solution for our hazardous materials management, which perfectly supports both the old as well as the new Hazardous Substances Ordinance. Our hazardous working materials are now centrally recorded in Quentic and the data can be accessed by all authorized people at any time.

ABOUT ECOMETRICA

ecometrica

Ecometrica is a company of world leading specialists and experts in the provision of web based services in greenhouse gas accounting (GHG), land use and ecosystem assessment services, climate change policy and remote sensing. It helps private, public and nonprofit sectors meet their sustainability challenges, reduce costs and increase overall performance by measuring environmental impacts from carbon, energy, paper, waste and water management, all the way through to full supply chain accounting.

Featured Testimonials

❝ The biggest advantages for us are that all the calculations are made in the Ecometrica Platform, the emission factors are updated regularly and they are based on the Greenhouse Gas Protocol. I would definitely recommend the Platform to other companies, especially for global enterprises. It gives a common ground and makes it easy to compare different countries and follow developments year by year. ❞

INGELA NORDIN
SUSTAINABILITY MANAGER, BECKERS

❝ We are looking to extend our environmental reporting to a broader set of sustainability metrics, and Ecometrica gives us the best opportunity to do that both now and in the future. We also report annually to the CDP and in line with our UK mandatory carbon reporting obligations, so having software that allows us to download compliant PDFs that we can submit easily was very appealing. ❞

NICKI CRAYFOURD
DIRECTOR OF HEALTH, SAFETY AND ENVIRONMENT, COMPASS GROUP

❝ We are very pleased to be working with Ecometrica to address deforestation and sustainable forest management for developing nations. The programme will identify innovative ways that space technology can help in this important area, which has been identified by the UN as key for sustainable development, and we intend to make a real difference to the people on the ground working to preserve the world's forests. ❞

RAY FIELDING
HEAD OF THE INTERNATIONAL PARTNERSHIP PROGRAMME, UK SPACE AGENCY

❝ We knew exactly what we were getting with Ecometrica, and we haven't been disappointed. With UK mandatory reporting on the horizon, we needed a solution that was easy to use straight out of the box, so we could comply with the regulatory requirements as quickly as possible. Thanks to the Sustainability modules and the support we received from the team at Ecometrica, we've done that. ❞

ABOUT PERILLON SOFTWARE

PERILLON®
a Lisam Company.

Perillon Inc. - a Lisam Company provides comprehensive EHS Compliance and Risk Management software, efficiently connecting hundreds of employees across all levels of a global enterprise. Our flexible and simplified solutions, with the convenience of mobility, enable organizational transparency, increased awareness, and proactive prevention of unwanted events. Perillon's quick, configurable implementation and flexible data visualization increase productivity, save time, and reduce risk, setting a new standard for how managers meet EHS responsibilities. Perillon – Lisam has over 1,500 customers (over 200 in the U.S.). To learn more about Perillon, please visit www.perillon.com.

Featured Testimonials

I would recommend Perillon to others because it greatly increases the efficiency of compliance tracking and verification, thereby allowing me more time to focus on other responsibilities. It gives us all greater confidence that we are meeting our obligations and minimizing our regulatory compliance risks.

JESSICA DEMAR
ENVIRONMENTAL AND REGULATORY COMPLIANCE COORDINATOR, CONNECTICUT WATER

National Grid's motto is 'trusted to do the right thing' and Perillon's properly implemented environmental management system allows me to know where I stand every day, with surety.

MICHAEL TUCKER
MANAGER OF ENVIRONMENTAL PROGRAMS, NATIONAL GRID

Standardizing our compliance audits and inspections across our sites has been one of the most exciting developments in our evolution to a more modern, interactive compliance program. We are reducing administrative and travel time significantly, because now data can be captured remotely, accurately, and analyzed efficiently.

KURT ANDERSON
MANAGER, ENVIRONMENTAL AND LAND MANAGEMENT, ALLETE

The time savings in the core HSE team was at least 50%, and that does not include the time saved with dashboard reporting. What used to take days or weeks to pull together in reports can now be done in seconds with Perillon's dashboards.
