Enterprise Project Management Software Category

Enterprise project management (EPM) software offers organizations the features required to effectively manage all their projects at an enterprise grade. With this platform, companies can view projects strategically, permit executives to delegate resources to priority projects, and determine how various projects fit into their organizational objectives.

The system empowers enterprises to streamline all related projects to facilitate maximum effectiveness. Leading EPM tools provide a range of modules including project portfolio management (PPM), file sharing, calendars, internal messaging, and more, which contribute to a company's strategic business objectives.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT ADOBE WORKFRONT

Adobe Workfront

Adobe Workfront is the first modern work management application that connects enterprise work, collaboration, and digital content into an Operational System of Record (OSR). Adobe Workfront has helped thousands of companies successfully transform their businesses into more modern enterprises that increase revenue, improve customer experiences, and eliminate cost, including Cars.com, Cisco Systems, Comcast, iProspect, Schneider Electric, and Trek.

MATT TERRINGTON
COMMUNICATIONS PROJECT MANAGER, THE NATIONAL GALLERY

“Workfront supports the way our team operates. It breaks down work by users and task items for both project plans and ad-hoc tasks. It provides progress updates and delivers feedback within tasks. It's a very useful solution for us.”

ADAM MESSANO
SENIOR PROJECT MANAGER, RESOURCE AND INFRASTRUCTURE OPTIMIZATION, ADVANCE AUTO PARTS

“Our processes are probably 75% better. Workfront is the easiest way to organize and manage projects with an unbelievably low number of resources. The scalability is fantastic. The organization the Workfront solution allows is incredible.”

NASHIRA BETTON
IT PROJECT MANAGER, KIDS II

“Project managers no longer have to go into our complex ERP system for budgets and updates. The ability to view what's going on from a project and portfolio investment standpoint in Workfront dashboards saves everyone a tremendous amount of time.”

“What I love about Airtable is I can track all of our 30 to 60 projects we're working on at any given time in one place—and within each project, I can monitor every step in the process.”

RACHAEL PROFILOSKI
DIRECTOR OF DEVELOPMENT, LUCKY8

“At Medium we were able to transition our product planning to Airtable in one day - we use it for all major projects and were able to create the exact workflow and visibility we needed across the team.”

CHRIS FRY
HEAD OF ENGINEERING, MEDIUM

“With Airtable, we're able to build systems and workflow that are custom-made for our business. It's the only solution that works for the way we work.”

CONNY SCHEITZ
SENIOR ENGAGEMENT MANAGER, TECHNOLOGY CENTERS, AUTODESK

“Airtable's UI is really user-friendly, so it was easy to deploy without a steep learning curve. And the ability to get the view you want without disrupting other teams' workflows is a major advantage.”

ABOUT ASANA

Asana is the easiest way for teams to track their work. From tasks and projects to conversations and dashboards, Asana enables teams to move work from start to finish and get results. Asana was started after Dustin Moskovitz and Justin Rosenstein built an internal tool at Facebook, which quickly changed how the company coordinates. They realized this technology could help every organization achieve their goals. Now, Asana is a team of over 100 peers across 3 offices in SF, NYC, and Dublin, with investors including Benchmark Capital, Andreessen Horowitz, Founders Fund, and Peter Thiel.

“Once you know how to use the basic features in Asana, the rest is easy to learn and implement in your different workflows and projects.”

TADEU LEANDRO
CHIEF INFORMATION OFFICER, FIEC

“Asana creates visibility for us and our suppliers, but it also improves the quality of data collection and project management. The ease of use is great, but it's not the only metric we're interested in. Asana has helped us run more efficient and more effective projects.”

ANDREA MANGANARO
IT PROJECT MANAGER, TEA S.P.A.

“Asana allows you to front-load project management. It's almost as if you forget the event is taking place. You assign all tasks out and then they're completed. There's an expectation that things will get done. I wouldn't be able to do my job of managing clients and events nearly as effectively without Asana.”

ALEX HART
CLINICAL DIRECTOR AND COMMUNITY MANAGER, MYODETOX

“We use Asana to increase our team's efficiencies and track our projects in each stage of the marketing funnel. It's been invaluable to track all of our work and conversations in one central place.”

“Atlassian allows us to take on bigger projects and get more momentum around those projects, because it's easy for many teams to work together on individual pieces while keeping track of the project as a whole. We all rely on Atlassian.”

KEVIN O'BRIEN
CTO, KIVA

“Jira seemed like fantastic value for [the] money, and once we'd installed the trial version, we were amazed at the full range of features. The installation was incredibly easy and fast, and the product comes with so much more than simply the basics. Another definite reason for choosing Jira (once we'd all had a good look at the product) was the interface. It was just sensational and one of the best of its kind I've ever seen.”

ADAM KIERCE
PRINCIPAL AND CO-FOUNDER, SHINE TECHNOLOGIES

“My favorite part is the centralization of everything. All the software works so nicely together. It's so easy to flow from Jira to Confluence back to Jira or any of the other products. Everything is right there at your hands, where you need it. You don't have to go searching everywhere to find something.”

RICKY DYCUS
TECHNOLOGY PRODUCT MANAGER - OPERATIONS, MERCY SHIPS

“The biggest benefit of consolidating our platform on Atlassian has been providing a single point of visibility over our projects. Now we can see what everybody else is doing, and understand each project's status in great detail. That enables everyone to be on the same page.”

MALCOLM MCCARDLE
SENIOR PROJECT MANAGER, ITW

“What I love about Smartsheet is it centralizes all our project content, so you don't have to deal with different versions. The information is always accessible online, from your iPad or any computer. Since it's online and integrated with Google Docs, it encourages collaboration and ultimately accountability.”

MICHELLE OLLIE
PRESIDENT AND FOUNDER, THE CENTER FOR CARTOON STUDIES (CCS)

“Our team makes notes in Smartsheet, assigns them, and shares the sheets. With everything tracked, gathered, and maintained where it's supposed to be, anyone with access can immediately take actions on it. And we only have to enter the information once. Besides this efficiency-improvement, project management has become a huge part of our product portfolio and gives us an estimated extra revenue of €60,000 a year.”

ABOUT TEAMWORK

teamwork.

Teamwork.com offers a suite of online productivity software which guarantees maximized team performance. Comprised of Teamwork Projects, Teamwork Desk and Teamwork Chat, each platform offers a way to streamline your team's processes and empowers your people to realize their unified potential and achieve true business success. Teamwork Projects is a feature-rich productivity and collaboration platform that lends itself to multiple applications, most notably the project management ecosystem. Teamwork Projects helps teams work better together, closes communications gaps and aligns business processes, leading to a drastic increase in team performance.

Featured Testimonials

“Teamwork Projects offers a safety net in that staff can monitor their procedures and checklists to ensure that every ‘box’ is ticked. There is now a scalable and repeatable process in use to deter error and retain consistency. We have found it much easier to hold team meetings as everybody is versed in and included on what is happening with the company, what stages projects are at and what the relevant steps are to have a productive working day.”

NICK BUTLER
CHIEF EXECUTIVE OFFICER, IRELAND WEBSITE DESIGN

“Easily my favorite feature is the messaging system, followed closely by the time tracking. The ability to go back through a campaign at the end of each month and review what got done by my staff and their communications with our client is excellent.”

DAVE DAVIES
CHIEF EXECUTIVE OFFICER, BEANSTALK INTERNET MARKETING

“The tight integration with Teamwork Projects makes it a no-brainer. We evaluated several options, and cost was a factor, so we compared features, integrations, and pricing extensively. Ultimately, the tight integration with Teamwork Projects was the main decider. The ease of turning a ticket into a task, and tracking time against work carried out is what sealed it for us.”

CIARAN MCGRATH
MANAGING DIRECTOR, THREEFOLD SYSTEMS

“We recently switched to Teamwork Projects from another project management system and, wow, these are exactly the kinds of features we were looking for. As an online brand and web development team, Teamwork Projects's customized logins, welcome messages and more really help us show off our own brand. Beyond that, the flexibility of the system is just unparalleled. We're able to get our entire team, along with our clients, moving in concert. It's not only helped us organize our projects better, it's helped us do better, more focused work.”

“The visibility Wrike provided us on projects and resources has dramatically changed our way of working. But what I love most about this tool is its flexibility. I have implemented Wrike 3 times in 3 different organizations, and every time I was able to fit my process by using folders.”

MARTIN SCHWALL
BUSINESS DEVELOPMENT MANAGER, ADURO PTY LTD.

“After sampling several online project management tools, we agreed on Wrike. It provides us with all the necessities of project management software, while accommodating our virtual and reporting needs. Today, our team uses Wrike on a daily basis to track deliverables and validate the ability of our resources. We needed a tool that was flexible, accessible and intuitive, so it does not bog our team down, and Wrike met all those demands.”

SHAN HOYT
OPERATIONS MANAGER, KEY LIME INTERACTIVE

“Wrike provides a great solution for Imbibe's project management and an alternative solution to a traditional CRM software. One of the reasons I think Wrike has been such an effective tool for our company is that we developed an internal procedure for how all Wrike tasks must be formatted. I would recommend other users to do the same; the detailed instruction for how tasks must be utilized keeps the system very organized and makes it much easier to navigate- especially if you have lots of customers and projects. For example, we created a comprehensive internal manual on exactly how to write different types of tasks in Wrike- from what the title needs to be, exactly what information must be included, etc. It keeps the data organized and provides a much more for efficient workflow.”

ABOUT LYTHO

Marketing and Creative teams face a rising tide of needs and expectations from their customers and co-workers. It's hard enough just to keep up – but to drive exceptional outcomes, you need a platform that gives you visibility, control, and coordination across complex teams and processes. We help you get everything – projects, feedback, assets, and more – in one place, so your team can do great work instead of managing tasks, chasing stakeholders, and clicking through folders to chase assets. In short, we give your team back the power to create. We aren't your average asset management or project management tool. We're built for creative and marketing teams, so you'll never be forced into a rigid workflow. Instead, we configure our systems to fit the way your team works.

“Now that we have [Lytho], our process is more transparent. The software is so intuitive that anybody can use it, and it was easy for the team to learn. Implementing [Lytho] forced us to put together a more defined process, and now our stakeholders feel more confident in the work we're doing.”

DANA WYATT
MANAGER, MARKETING SERVICES, DELTA VACATIONS

“[Lytho] allows our team to receive requests, track projects and proof assets on a single platform. This consolidation has helped us streamline our workflow and cut down drastically on emails and administrative tasks.”

ANDREW NOEL
INTERACTIVE CONTENT SPECIALIST, TBC CORPORATION

“We use inMotion to keep our team organized. Being able to capture approvals and enforcing accountability is crucial for our business. We're also more efficient with inMotion. I'm able to pull reports for leadership to show what types and how much work our team is completing each month.”

MICHELLE EATON
MANAGER, CREATIVE SERVICES, ASCENSION

“The biggest impact [Lytho] has had on our team is the ability to see in real-time where the proof is and being able to review everyone's feedback in a real-time, live, web-based system.”

ABOUT PROWORKFLOW

ProWorkflow is an online project management software that enables you to keep accurate time-keeping records, organize, plan, and delegate jobs and tasks whilst using the timeline to have an overview of company activity.

Featured Testimonials

“We are a busy graphic design studio and need to manage 50+ projects at any one time. Since we have purchased PWF it has become an invaluable tool in allowing us to manage, track and report on our many projects. The time tracking feature is used extensively to enable us to control time spent on day to day operational tasks, bill appropriately and plan for future projects. The reporting options are well thought out and presented and the general interface is very well designed and easy to use. We have tried several operational management tools but this is the only one that has effectively helped us manage our activities and increase our efficiency.”

GLENN HULL
DISCOVER ME DESIGN

“ProWorkflow has significantly improved efficiency with billing and the management of multiple projects simultaneously. The easy access to the actual time spent on completed projects has been extremely helpful when developing new proposals.”

DAREN BOSSENBERGER
IDEATION SIGNS & COMMUNICATIONS

“As a solo web designer with a growing client list and multiple projects to manage, I was looking for a time tracking and project management solution that was easy to implement yet powerful and comprehensive enough to grow with my business. Other products I tested were either too limited or too complex and/or expensive. As soon as I tried ProWorkflow, I knew I'd found what I was looking for. It's enabled me to manage my time, keep projects on track, and develop a clear view of project costs to make quotes more realistic. Customer service is also top-notch. I highly recommend ProWorkflow.”

BRIAN LOKKER
ANTIGRAVITY DESIGN

“We chose ProWorkflow because it met our needs, which were simple to use project management system, time tracking, and integration with QuickBooks, affordable fee, and top notch support. Our team likes the tracking features and collaborative potential of PWF. Our admins love the ability to see projects and tasks as a whole. We've been very pleased with the tool!”

“We set up a list of criteria that our project and portfolio management tool needed to address, including ease of use, reporting, project planning, ability to handle schedules, scalability, production release application integration, and strength of the company providing the tool. We carefully evaluated three vendors, and chose Sciforma as it addressed each of our criteria.”

KEN RHEAUME
DIRECTOR OF PROGRAM MANAGEMENT, NETGEAR

“We chose Sciforma as it provided us with insight into all of our projects, including budget, project evaluation and execution, real-time tracking and reports. This has helped us improve our productivity and initiate innovative solutions.”

MAXIME LAROCHE
PROJECT PORTFOLIO ADVISOR, SOCIETE DE TRANSPORT DE MONTREAL

“Everyone has benefitted from it, in terms of time and efficiency: The language, the project stages, and the reports are common to all the projects. The organization is more effective and information on our projects is more readily accessible. Among the qualities of the Sciforma tool, we have especially appreciated its flexibility, for configuration and for the possibility of adapting it to our specific business needs. Our workers have noticed that it is now much simpler to work together and they have come to like this.”

PHILIPPE LIECHTI
IT CUSTOMER SOLUTIONS MANAGER, SERVICES INDUSTRIELS DE GENÈVE

“The Sciforma solution met its objectives. We have greater visibility over all our projects, the resources we need for each of them, and the associated costs. The tool has allowed us to look at the priority to be given to certain projects and to put the launch of operations in a hierarchy to adjust their time to market. It is also much simpler to show management the return on investment that can be expected from each project. We are therefore delighted with the value added that Sciforma has now been able to bring us.”

“We evaluated about 5 project management products before we decided on Easy Projects. We liked that it is very user friendly, has an easy learning curve and is very intuitive – we didn't have to spend any time on training. Easy Projects .NET solved all our problems. It gave us an ability to control all projects, see progress and comments. We also could give user authorizations for each project. It's very structured and easy to learn. We have about 12 people using the tool.”

IRINA TKACH
BUSINESS ANALYST, MED-LINK COMPUTER SCIENCES

“We did a comprehensive review of project management systems, and required a cross-platform solution that we could deploy across borders, and that was easy to use. Easy Projects .NET stood out from the other solutions we looked at. In using it, we have not been disappointed, it has genuinely made a significant contribution towards solving our problems in cross-border communication on high-value projects. The integration of timesheets and billing has in particular been useful. When we have had issues, the support has been exemplary. I have no hesitation in recommending Easy Projects .NET!”

NICK BASKETT
MANAGING DIRECTOR, MATTA

“I have found Easy Projects to be an easy-to-use and effective tool for monitoring and managing projects. It provides an excellent mix of simplicity and comprehensive capabilities. With a few simple tweaks utilizing Custom Fields and our own special programs, we have been able to automate the entire interaction process with the system and our developers. This includes Status Reporting, follow-up, Time Sheets and a central repository for project related documents. It is the complete package while still remaining one of the most affordable I have seen.”

PHIL SLOVER

ABOUT PAYMO

Paymo - Project Management, Time Tracking & Invoicing. In the past years they've noticed a strong move among businesses to cloud services and the great advantages they bring. However, as this move is happening at an accelerated pace, they've also noticed a couple of new problems that businesses face daily. Nowadays small businesses end up using a suite of specialized online apps that usually don't talk to each other; or, if they do, they do it poorly. This is one of the main problems Paymo addresses: to ensure your projects move forward.
