

Enterprise WiFi Solutions Category

Enterprise WiFi Solutions Category

Today, businesses need fast and reliable internet connectivity to be productive. This is true especially in sectors where companies utilize machine learning and artificial intelligence in their systems. This need has led to the rise of enterprise WiFi solutions. These are advanced networks that use strategic design, more access points, and better equipment to create reliable web connectivity for business users.

Enterprise WiFi utilizes slightly different management methods and protocols compared to consumer networks. The equipment can support bigger loads without being affected by dropped or dead signals. An administrator controls access so that only authorized people are able to connect. In short, enterprise WiFi is an advanced version of home WiFi built to manage the greater demands of public institutions and businesses.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

Featured Testimonials

“With our new Aruba Gigabit Wi-Fi infrastructure, including HPE Smart Rate multi-gig uplinks, we’re not only meeting employee expectations, but we’re also positioned to provide multi-gigabit bandwidth in the future without the disruption and expense of upgrading cable.”

KEITH MCKAY
NETWORK OPERATIONS SUPERVISOR, DREAMWORKS ANIMATION

“We chose the Aruba solutions because they delivered greater price for performance value and the portfolio included gigabit Wi-Fi access points specifically designed for residence halls/hospitality applications.”

JERRY BUCKLAEW
NETWORK ARCHITECT, UNIVERSITY AT BUFFALO

“Aruba is a clear choice of technology provider for the hospitality domain. Their solutions perfectly address all Wi-Fi challenges and enable us to consistently deliver the highest performance and reliability. With this becoming an essential service to business and leisure travelers alike, it gives us a competitive edge.”

RUSHDY MUBARAK
IT MANAGER, RADISSON BLU HOTEL, DUBAI MEDIA CITY

“The Aruba Networks Wi-Fi solution is the conduit for delivering high-speed access to compelling content onsite. The Wi-Fi network needed to be securely managed and stable enough to handle 65,000 people connecting to the network every single day – that’s a big ask.”

SAMIR MAHIR
CHIEF INFORMATION OFFICER, TENNIS AUSTRALIA

ABOUT CAMBIUM NETWORKS

Cambium Networks is a leading global provider of wireless broadband solutions that connect the unconnected. Through its extensive portfolio of reliable, scalable and secure WiFi and wireless broadband point-to-point (PTP) and point-to-multipoint (PMP) platforms managed by cloud-based software, Cambium Networks enables service providers; enterprises; governmental and military agencies; oil, gas and utility companies; Internet service providers; and public safety organizations to build powerful communications networks, reach users from 200 kilometers across mountain tops down to their devices, and intelligently manage their business Wi-Fi infrastructure through end-to-end network visibility and actionable analytics.

Featured Testimonials

“We recommend cnPilot™ E400 enterprise WiFi indoor modules and E500 enterprise WiFi outdoor modules, with an ePMP™ distribution network, managed by the cnMaestro™ management system. This package of technology is proven to be reliable and cost effective, and is now deployed for business and industrial customers in more than 50 sites on Australia's Eastern Seaboard.”

BRUCE MCGREGOR
GENERAL MANAGER, SOUTHERN REWORK

“We currently have multiple cnPilot E400 indoor access points providing in-room WiFi service. E500 outdoor access points provide WiFi service to the pool area and private parking. An ePMP Force 180 point-to point-link is used to bridge the main hotel property with the conference rooms and ball rooms. Cambium Networks has provided us the perfect solution.”

JOSE BARRIOS
MANAGER, HOTEL AQUARIOS

“The Cambium modules worked fine right from the start. They continued to operate without incident through the entire event. We get a handful of requests each month to do similar projects. Depending on the location and our network, we can connect events with either PTP 600 links or PMP 450 remote modules. Both perform equally well, and we have the flexibility to make the exact type of connection that we need.”

GINO VILLARINI
CEO AND FOUNDER, AERONET PR

“Since we switched to the Cambium Networks WLAN system, our guest ratings have improved greatly in terms of WLAN. We have also switched to the cnMaestro system for administration. For our staff, the Cambium network and management tool enables them to work faster and more efficiently.”

ROLF KOPPER

Featured Testimonials

“We were looking for an outdoor WLAN solution to provide free WiFi access for our international guests. The Meraki solution convinced us from the very beginning. The performance was great and exceeded our expectations.”

MATTHIAS AMACKER
IT DIRECTOR, ZERMATT BERGBAHNEN AG

“We chose Meraki because of its attractive licensing system, the easy construction of a highly available network infrastructure, and the low cost of the configuration, management, and maintenance.”

JANUSZ ZAPĘCKI
VICE PRESIDENT, ETRAVEL

“Eliminating the need for expensive WiFi controllers immediately made Meraki an attractive proposition. On top of this, technical support was included in the dashboard license which put another big tick in Meraki's column.”

PHIL BOWD
OSWESTRY SCHOOL

“In addition to these security capabilities, the Meraki solution provides BBVA's IT teams with real-time visibility into employees using the network, their devices, and their applications. Rich analytics capabilities enable BBVA's administrators to quickly create access control and application usage policies, optimizing both the end-user experience and network security. BBVA also benefits from powerful and intuitive management of all its sites via the cloud, which eliminates the cost and complexity of traditional onsite wireless controllers.”

Featured Testimonials

“We use Ubiquiti’s products to keep our monitoring live 24/7 and provide secure remote access capabilities. It also allows us to remotely manage all devices.”

JOSHUA CAYO
TECHNICAL SERVICE SUPERVISOR, AEGIS ENERGY SERVICES

“High density is a major factor at our University. We need to be able to support a large number of devices in a single area (classroom). Today’s teaching environment is interactive and makes use of streaming video, cloud, and real-time interaction. We needed to be able to support all of this reliably in the classroom. Ubiquiti’s UAP-AC-HD access points made it possible for us to provide a fantastic learning environment for our students.”

GREG LANDIS
ACADEMIC LAB TECHNICIAN, MOUNT ST. MARY’S UNIVERSITY

“We are very happy with Ubiquiti, it hits all our major priority points: broad-scale access, competitive pricing, and dependable coverage.”

MADE YUDANA
SENIOR IT MANAGER, INTERCONTINENTAL BALI RESORT

“The UniFi Controller is very simple and easy to use. I can go in and block unauthorized users, or assign guest accounts so visitors can get on Wi-Fi.”

ABOUT CLOUD4WI

Cloud4Wi helps companies easily manage their guest WiFi services and drive business outcomes, by bringing carrier-grade technologies into the enterprise world. With Cloud4Wi's privacy-conscious technology, companies can offer a seamless and secure WiFi for customers —with and without a mobile app. Companies can then provide customers with timely location-aware messaging both inside and outside their locations. To date, Cloud4Wi has connected more than 150 million mobile customers across 70,000 locations in more than 150 countries, while collecting more than 50 million actionable moments per month. Leading innovative companies – including Burger King, Campari Group, Carmila, Guess, The Cordish Companies, and Valentino – rely on Cloud4Wi to drive business outcomes. Cloud4Wi is headquartered in New York with offices in San Francisco, Pisa, and Milan.

Featured Testimonials

“Cloud4Wi's solution enables us to understand who our customers are and how they behave in the stores while respecting their privacy. Thanks to this in-depth knowledge, we will be able to deliver compelling and much more personalized experiences.”

LORENZO BERTELLI
OWNER AND CDO, PRADA GROUP

“Customer insights are a cornerstone for Campari's journey towards data-driven marketing. Cloud4Wi's solution enables us to collect profiles with opt-ins data from the bartender- and consumer-focused events.”

CHAD NIEMUTH
VICE PRESIDENT GLOBAL IT, CAMPARI

“The Wi-Life Station project's success stems from the vision of Gruppo Ferrovie dello Stato Italiane, which was very focused on creating an innovative solution, but also made sure to involve the stations in the digital transformation process. Wi-Life Station is the result of a great team effort performed in collaboration with Cloud4Wi, Almoviva and Cisco Meraki. I am proud to see the dream of a smart station in a smart city a reality in 14 stations, where digital travelers can find services aligned with their expectations.”

MAURIZIO LEVI
CIO INFORMATION & COMMUNICATION TECHNOLOGY, GRUPPO FS ITALIANE

“Offering WiFi without using it to get to know customers is a missed business opportunity. Using Cloud4Wi, we are able to see who the customers are and how they are enjoying the parks.”

Featured Testimonials

“In response to the mobile century, we provide consumers with free Wi-Fi access, cooperate with Uber Eats, and use wireless PDAs for inventory checking and pick up service. All these applications will need the support from Edgecore Networks. Edgecore has provided a solution with sufficient network bandwidth, high performance and efficiency, and reasonable prices. The powerful cloud functions have allowed us to streamline human resources, increase revenue, and enhance customer satisfaction as well.”

IT MANAGER
RT-MART

“We wanted to bring in the best equipment and software we could yet be cost-efficient as this is all being paid for by taxpayer dollars. Cost reduction was a big factor but so was getting all the functionality that we needed to grow and improve our network over time. The combination of the Pica8 PICOS® NOS and Edgecore hardware enabled us to achieve that goal. It gives us a real future-proofed network – something that legacy networking vendors seem to shy away from.”

JASON COPE
DIRECTOR OF TECHNOLOGY, CITY OF HOOVER

“The Parkview Hotel has been serving for more than 25 years, and currently some facilities are undergoing refurbishment. We look forward to providing guests with updated and better services after completion. We will deploy Edgecore solutions for the fiber-optic backbone infrastructure. Meanwhile, we will use Edgecore APs in various public areas, such as banquet halls, restaurants and clubs etc. to provide the best network environment for guests and colleagues.”

ABOUT ELEVEN

Eleven pioneered cloud-based guest Wi-Fi management software for the hospitality industry in 2002. Today, thousands of companies trust Eleven to keep more than 9 million guests connected every month. The ElevenOS Smart Wi-Fi platform enables central management of guest Wi-Fi across multiple devices, properties and providers with real-time analytics.

Featured Testimonials

“ElevenOS helps us deliver the Wi-Fi experience our customers expect. The login process is guest-friendly, back-end administration can be done at the brand or property level, and the front desk staff doesn't have to spend time troubleshooting. It just works.”

JACK GAIDO
CHIEF MARKETING OFFICER, BLUEPORT, INC

“ElevenOS central authentication not only ensures the right guests are getting on the network, but also enables us to reward loyalty with enhanced connectivity and provide a consistent experience for all of our guests. Plus, we have an easy to use dashboard with real-time analytics to understand how many devices are online and the amount of bandwidth that is being consumed. This data is critical to ensuring guests are getting a great guest Wi-Fi experience everywhere on the property.”

FAIRFIELD INN & SUITES MCCANDLESS

“ElevenOS provides us the power and flexibility that we need in order to revolutionize Internet communications at sea. ElevenOS helps us effectively manage a range of products, pricing, accounting, and reporting, which has helped us deliver a seamless and stress-free Internet communications solution for our guests.”

BILL MARTIN
CHIEF INFORMATION OFFICER, ROYAL CARIBBEAN

“It is the easiest and most pleasant experience I've ever had with an internet connection from a cruise ship. There is no fussing with log-in and log-out pages, no delays in requesting pages. It's the first cruise internet experience that works just as if a guest were surfing or streaming at home.”

ABOUT EXTREME NETWORKS

Extreme Networks, Inc. (EXTR) creates effortless networking experiences that enable all of us to advance. We push the boundaries of technology leveraging the powers of machine learning, artificial intelligence, analytics, and automation. Over 50,000 customers globally trust our end-to-end, cloud-driven networking solutions and rely on our top-rated services and support to accelerate their digital transformation efforts and deliver progress like never before. For more information, visit Extreme's website or follow us on Twitter, LinkedIn, and Facebook.

Featured Testimonials

“Our Hospitality WiFi team takes pride in providing a VIP experience for all guests because we know that great WiFi is the number one amenity for hotel guests. To achieve this, we knew that we needed a more robust and flexible solution than had previously been tried or proposed. It's not enough just to install any wireless HSIA solution; the investment only makes sense when it results in fast, reliable WiFi backed by solid service. With the combination of Extreme Networks in-room wireless technology and Hospitality WiFi service and support, we were confident that we could make Bowman and her guests very happy.”

JASON SZUCH
PRESIDENT, BEST WESTERN PLUS ANAHEIM

“Our partnership with Extreme Networks in 2018 gave us a robust Wi-Fi solution that allows us to increase coverage and capacity, accelerate the volume of concurrent users and surpass all connectivity milestones from previous years - all adding to the overall user experience.”

RONNIE DEGEN
ORGANIZER, ZWARTE CROSS

“It is critical for our network to be highly-available, highly-secure, and easy-to-use. With Extreme Networks and SDN this has all come together perfectly and the platform is easily managed with our small IT staff.”

CARL MERRICK
NETWORK MANAGER, THE TOWN OF ENFIELD, CONNECTICUT

“Extreme's technology fulfilled all of our requirements at the core, distribution and access layers, and they had no limitations regarding the number of ports, etc. Their proposal was also the most cost-effective and provided the best cost/benefit ratio.”

ABOUT PURPLE

Purple's goal is to ensure that physical spaces survive and thrive for current and future generations, by helping them to stay relevant and ensuring visitors enjoy going to them. Purple helps venues optimize safety, enhance the customer experience, and drive revenue. This is achieved through connecting multiple data sources – much of which is already in place – such as WiFi, sensors, BLE beacons, PoS, and CCTV, to our cloud-based platform. From here, businesses get a holistic view of exactly what is happening in their space, enabling them to make informed decisions and drive meaningful action via a number of built-in intelligent space solutions. Purple solutions are used globally in more than 65,000 venues, across 120 countries where we serve more than a million end users every day. Through Purple, businesses have been able to understand who their customers are, how they behave when they're onsite, and ...

Featured Testimonials

“During the initial demonstration by Smarter WiFi, we found Purple's platform to be very easy to use. All customer data and analytics were presented in a really straightforward layout, which puts the marketing team at ease when using it. Purple is what we specified that we needed from the outset, it offers great guest WiFi and provides us with meaningful insights, so it's a real win-win.”

CHARLI MCCANN
MARKETING AND PR MANAGER, WOK&GO

“Although we did have a guest WiFi solution in place we decided to migrate to Purple WiFi's cloud solution after taking advice from Unified Consultancy. It offered more methods of logging in using social media accounts, making it much easier for visitors, with the option of form access. It also meant we could target certain demographics with relevant e-shots to advertise specific events held in our libraries. Being able to report in detail on the users accessing our WiFi network is one of the main benefits of Purple WiFi. This will enable us to target certain user profiles with relevant e-shots for upcoming events. Having a cloud solution has also greatly simplified the support requirements.”

TIM BUTLER
NETWORKS AND COMMUNICATIONS TEAM LEADER, LONDON BOROUGH OF BRENT

“Purple WiFi is an easy to use, functional piece of software with some interesting customer data. I particularly like that you can see how many times certain individuals have logged in – this is a really easy way to see loyal customers and reward them.”

LORNA ALLISON
MARKETING MANAGER, INC GROUP

“The experience of working with Ruckus and Purple WiFi was really good, the team couldn't have been more helpful. We can now see who is logging in and where they are in the centre when they use the service, all of which gives us valuable consumer insight upon which we can build more effective marketing campaigns.”

STEPHANIE HIGHAM
MARKETING MANAGER, THE ALHAMBRA CENTRE

“GlobalReach has proven themselves to be a reliable, committed and highly agile partner during the delivery of Virgin Media's London Underground Wi-Fi service. Their performance exceeded our expectations and their enthusiasm for the project was second only to our own. I look forward to developing our partnership with them further.”

KEVIN BAUGHAN
DIRECTOR OF METRO WIRELESS, VIRGIN MEDIA

“GlobalReach has been a WBA member for a number of years and during this time their contributions and collaboration have been instrumental, particularly in the area of ensuring interoperable standards, including Passpoint; helping to make Wi-Fi better and ensuring that the industry delivers an automatic and secure Wi-Fi experience in the 5G era.”

TIAGO RODRIGUES
CHIEF EXECUTIVE OFFICER, WIRELESS BROADBAND ALLIANCE

“AT&T's key focus is on ensuring optimal connectivity for our mobile subscribers, wherever they are in the world. Through Ontix's incorporation of Passpoint connectivity from GlobalReach Technology, we can automatically download a profile onto customers' devices and deliver seamless user onboarding – both for Wi-Fi hotspot roaming and for connecting to Ontix's ultra-fast Wi-Fi network. AT&T subscribers in Central London can now automatically move from the cellular service to Wi-Fi, and back again, experiencing high-quality, high-speed wireless service that can meet even the most demanding voice and data needs of our customers.”

JEFF FELDSTEIN
DIRECTOR OF GLOBAL CONNECTION MANAGEMENT, AT&T

“GlobalReach has been a terrific partner to Intersection. Not only have they delivered excellent and responsive solutions to many of our Wi-Fi challenges, but they also consistently bring innovative new ideas to us that lead to a better user experience, new revenue sources, and operational cost savings.”

“When you are looking for a wifi solution and want hassle free products and services, then [Indio Networks] is the answer. They are smart, professional, very responsive to their clients and easy to work with. Our company is working with [Indio Networks] products and till date there has been no complaint for any reason. In the support of [the] [Indio Networks] team, they are always available, remotely or on premises, whenever we need them. Thank you for [a] great product and great support.”

MANJIT SINGH
IT MANAGER CORPORATE, SAYAJI GROUP

“WiFILAN is a vital part of our operation. We use WiFILAN for support and for monitoring information. We have about 200 locations that we use to monitor our Wi-Fi systems. It enables us to give various reports to our customers as far as daily login reports, monthly reports, yearly reports and various other reports. I personally have been using WiFILAN for about seven years. It makes us look very good as a business and very well organized. I've enjoyed over the past seven years working with the [Indio Networks] team. They make it very easy to work with. They are on time doing things we ask. Like specially programming that we need to have done. Customize our reports that we need to have laid out differently. There are so many other functions of WiFILAN. Companies that do advertising can get even more deeper in customizing and monitoring activities. I have used other monitoring programs, WiFILAN is by far the best.”

TYE WILSON
ZOOM INFO SYSTEMS, INC

“Modern, well organized immigration & customs. Everything flows very nicely. Facilities exceed expectations. This is an airport for tourists and they do exceed in all ways. Comfortable, easy to navigate. Well done again! The WiFi made my life easy. It's easy to operate and didn't disconnect even once (like many other airport networks do!)”

L BAKER
UNITED STATES TRAVELLER, CANCUN INTERNATIONAL AIRPORT

“I love the whole idea behind AWFIS. It is a lively and inspiring place to work. Moreover they do not compromise the services like internet. We have great high speed internet connection which helps me do my job 24x7.”
