SPRING 2026
Customer Success Report

Corporate Sustainability Software Category

Corporate sustainability assists enterprises to manage their environmental impact, practice social responsibility, and be compliant with government standards on recycling, renewable resources, and emissions. By managing and measuring operations, organizations like real estate firms, governments, utilities, fleets, manufacturers, and others can decrease their carbon footprints and preserve their company's wellbeing as well as the environment.

Sustainability software enables enterprises to handle all the data generated in their operations – from fleet management, building maintenance, manufacturing etc. – to analyze their sustainability and effect on the environment. To accomplish this, organizations need to collect huge volumes of data about fuel costs, facility water and energy usage, utility bills, and other sources. The platform evaluates this data and offers performance management benchmarks and dashboards to enable firms to preserve corporate responsibility, comply with regulations, and optimize efficiency.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“With complex data collection requirements, particularly associated with B Corp certification and sustainability reporting, we needed a reliable platform. The software solution has enabled us to advance our reporting and provides us with accurate data to support us on our sustainability reporting journey.”

LAURA BROLERI
SUSTAINABILITY SCIENTIFIC IMPACT SPECIALIST,
DAVINES GROUP

“Cority is a huge time saver. It's a very efficient software process for managing inventories, for managing safety data sheets, for regulatory prescreening. It's just been very helpful on a day-to-day basis for maintaining our safety data sheets and inventories.”

MARY MAGERKURTH
ENVIRONMENTAL HEALTH AND SAFETY SPECIALIST,
ENTEGRIS

“Cority's self-scheduling tool has transformed our hiring process. It has provided a more efficient way for candidates and employees to schedule appointments at their convenience, reducing administrative workload and improving overall efficiency.”

MIMI ALEXANDER RN
DIRECTOR OF EMPLOYEE HEALTH SERVICES, TEXAS
HEALTH

“The software and supporting services have been instrumental in supporting our sustainability journey to ensure we have access to accurate and meaningful data that can help us set and achieve our longterm goals.”

FEATURED TESTIMONIALS

“For successful implementation of our sustainability strategy, ASPIRE 2045, it's important to have a fit-for-purpose data management system in place. Enablon has provided us a way to track our sustainability data across various business units at one central location, that acts as a single source of truth for communicating and reporting our progress on sustainability to our stakeholders.”

MARK CASIAS
SUSTAINABILITY MANAGER, SOCALGAS

“With Enablon, we are able to get a consolidated view of our sustainability performance as well as slice and dice the information to benchmark performance between our different business lines and legal entities. Enablon helps us respond to internal needs for precise and detailed environmental data, as well as external legal requirements for sustainability reporting.”

ARNE PET
ENVIRONMENTAL DATA MANAGER, BNP PARIBAS

“Users feel the Enablon system is intuitive. They are glad to be able to pull reports easily from the system rather than having to manually generate them.”

BLAINE TOTT
EHS PROJECTS MANAGER, ERGON

“Energy organizations must be flexible, well organized, and agile enough to quickly react to adverse events, as well as shifts in the market.”

FEATURED TESTIMONIALS

“We are very pleased to be working with Ecometrica to address deforestation and sustainable forest management for developing nations. The programme will identify innovative ways that space technology can help in this important area, which has been identified by the UN as key for sustainable development, and we intend to make a real difference to the people on the ground working to preserve the world's forests.”

RAY FIELDING
HEAD OF THE INTERNATIONAL PARTNERSHIP PROGRAMME, UK SPACE AGENCY

“Ecometrica's combination of expert analysts, intuitive software and integration with our internal systems allowed us to implement a global environmental accounting platform in a relatively straightforward manner. We completed two years' worth of global GHG accounts within 6 months and are reporting GHG emissions in our annual report one year ahead of our mandatory obligations.”

SIMON LYONS
DIRECTOR OF MARKETING & COMMUNICATIONS, AGGREKO

“The biggest advantages for us are that all the calculations are made in the Ecometrica Platform, the emission factors are updated regularly and they are based on the Greenhouse Gas Protocol. I would definitely recommend the Platform to other companies, especially for global enterprises. It gives a common ground and makes it easy to compare different countries and follow developments year by year.”

INGELA NORDIN
SUSTAINABILITY MANAGER, BECKERS

“Ecometrica helped us to understand what we needed to include in our GHG emissions assessment, and they assisted us throughout the process. Our results are presented in a format that is easy to understand and useful to us. Working with Ecometrica, we were able to complete the whole process in only 3 weeks.”

PATRICK LYNCH
BIOFUEL SUSTAINABILITY MANAGER, GREENERGY
