

# Privileged Access Management Software Category

SPRING 2026  
Customer Success Report

## Privileged Access Management Software Category

Privileged Access Management (PAM) is the mixture of technology and tools utilized to secure, monitor, and control access to an enterprise's vital resources and information. PAM subcategories include application access management, vendor privileged access management, privileged session management, and shared access password management. Hackers target privileged user accounts because they possess elevated permissions, capability to change settings, and access to sensitive information. If compromised, significant damage could be caused to a company's operations.

# Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

**The overall Customer Success ranking is a weighted average based on 3 parts:**

## CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

## MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

## COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

## Award Levels

### MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

## FEATURED TESTIMONIALS

“BeyondTrust is clever to launch Cloud Privilege Broker into a market that needs to control access to a high number of cloud infrastructures within their organizations. Without a product like Cloud Privilege Broker, businesses will also have to grapple with the proprietary standards and identify tools of different cloud providers. Any product that can work around these standards, streamlining access, and providing risk-based insight into what's happening in the cloud is welcome.”

KUPPINGERCOLE

“BeyondTrust's solution has impacted our business by giving us peace of mind around the security of our customers' data and also giving us a very robust audit trail to ensure the integrity of that at all times, and allowing us to put in the appropriate safeguards to ensure we're always in front of any potential security vulnerabilities.”

SHANE CARDEN  
CHIEF INFORMATION OFFICER, BEHAVOX

“BeyondTrust's Privileged Remote Access and Remote Support Solutions have allowed the Trust to keep its network secure and compliant whilst delivering an improved service to its staff and quickly enabling its third parties to access its systems.”

DAVID MARSHALL  
HEAD OF IT, BIRMINGHAM WOMEN'S AND CHILDREN'S  
NHS FOUNDATION TRUST

“In PowerBroker for Servers, we found a cost-effective, robust solution for securely managing privileged access, satisfying compliance regulations and increasing productivity.”

MIKE KLUK

## FEATURED TESTIMONIALS

“By introducing CyberArk PAM solutions, we can now ensure privilege management throughout the entire Panasonic Group by automating processes, reducing the burden on our IT administrators, and achieving audit and compliance needs. The scalability that allows for unified management, even in server environments with several thousand servers, is also a great benefit. We would like to use this experience to contribute to strengthening security both within and outside the group.”

**HIROSHI YAGI**  
GENERAL MANAGER OF THE PROFESSIONAL SERVICES  
DEPARTMENT, PLATFORM SERVICES DIVISION,  
PANASONIC INFORMATION SYSTEMS

“CyberArk is known as a global leader in privileged access management, and we have the capability to support our locations around the world, with abundant know-how and experience. CyberArk EPM is highly regarded as a solution for endpoint identity security, and we believe it has the ability to adequately cover our group's large-scale environment.”

**TAKUYA SAITO**  
HEAD OF THE INTEGRATION BUSINESS DIVISION,  
OUTSOURCING INC.

“The CyberArk Identity Security Platform allows us to not only protect our infrastructure but also make customer services more secure. Now we are sure that privileged access is properly controlled and secured.”

**OLEKSANDR TKACHENKO**  
HEAD OF THE IT INFRASTRUCTURE DEVELOPMENT  
DEPARTMENT, PARKOVYI DATA CENTER

“Code Sign Manager gives my guys the ability to say yes to development teams and help them protect any kind of code without having to do technical somersaults. It's easily one of the best security solutions I've purchased in my 20 years as a CISO.”

## FEATURED TESTIMONIALS

“With Centrify Identity Service global administrators are able to focus on keeping user access current and accurate based on the application toolset they need, without having to deal with rushed requests for individual credentials being needed for every combination of user and application.”

KIMINORI KIMURA  
MANAGER, DIGITAL INNOVATION GROUP, SHISEIDO COMPANY, LTD.

“VPNs typically provide full network access, creating security risks. With Centrify's App Gateway, only specific apps are made available. Access for each endpoint is limited, and IT maintains strict control over who can access what. This helps to reduce our overall attack surface.”

DAVID HOWELL  
IT ASSOCIATE DIRECTOR, CHUGAI

“Secret Server can be installed and working in only a day or two, giving us an ideal solution to rotate account access on a daily basis, and gaining visibility into who is utilizing these accounts and auditing when they use them.”

THOMAS PEEPLES  
SECURITY ENGINEER, ALLINA HEALTH

“Centrify allows me to use one set of credentials across all the servers I need access to. No password vault, no checked out credentials. Just my own administrator account. It's saved me time and made my job easier.”

SCOTT TEIPE  
MANAGER OF INFORMATION SECURITY, GOGO

## FEATURED TESTIMONIALS

“We realised after the introduction of shared mobile devices that clinical workflows would need our staff to log in and out of multiple applications to maintain security. With Imprivata, we could quickly and simply implement an intuitive solution to enable easy and secure access via shared devices. Our clinicians enthusiastically embraced this solution.”

ANTHONY PHAM  
ACTING CHIEF NURSING AND MIDWIFERY INFORMATION OFFICER AND GENERAL MANAGER, VICTORIAN HEART HOSPITAL

“Small wins matter. From our Summary Emergency Department Indicator Table (SEIT) report, we know that if we can reduce our IT burden by 1 minute per patient across our Emergency Departments, we will release 310 x 8 hour shifts per year.”

THOMAS MITCHELL  
EMERGENCY DEPARTMENT CONSULTANT, ED IT AND EPR LEAD, CLINICAL MEDICAL INFORMATION OFFICER, GLOUCESTERSHIRE HOSPITALS NHS FOUNDATION TRUST

“With Imprivata, we know who has a device checked out and where it is at any given time. We can send reminders to the staff if they're leaving the building, and they still have the device, which is great. The loss rate of these devices is close to zero.”

FELIX ZHANG  
CHIEF TECHNOLOGY OFFICER, MACKENZIE HEALTH

“There's no other product really like it, the things [EAM] allows you to do with clinical workflows. I haven't been able to find in any other products especially with integrations with Citrix and other applications.”

## FEATURED TESTIMONIALS

“We selected ForgeRock as our technology partner because of their understanding of identity and access management in today's global and mobile economy. The ForgeRock Identity Platform is the relationship management solution that was essential in creating a highly secure, scalable, and latest generation e-commerce platform for our diverse network of customers and extensive business operations.”

ASHISH JAWADIWAR  
VICE PRESIDENT, CHIEF INFORMATION & DIGITAL OFFICER, AXALTA

“Our focus is on making access as easy and seamless as possible for our customers while maintaining a high level of security. For example, we use the main authentication tokens to persist access to those APIs so users can stay logged in for weeks, which everybody likes.”

MARC PRIEBEE  
LEAD DEVELOPER, IDENTITY AND ACCESS MANAGEMENT (IAM), SPARK NZ

“The ForgeRock platform enables us to give users direct, secure access to a portal where they can manage their credentials and service subscriptions. It greatly reduces the need for manual human intervention and improves the customer experience.”

ROLF HAUSAMMANN  
HEAD OF IAM, SWISSCOM

“Ping is a critical part of our authentication ecosystem. It helps us achieve access and identity where we need it the most.”

## FEATURED TESTIMONIALS

“Identity governance is critical to UWA's strategic objective of improving student experience. By standardising, simplifying, and centrally managing user identities, we made it frictionless for our students to access applications and systems. Even more importantly, Saviynt's solution has significantly enhanced our security, since we now know who has access to data and whether or not that access is appropriate.”

LEE PATTERSON  
CHIEF INFORMATION SECURITY OFFICER, THE UNIVERSITY OF WESTERN AUSTRALIA

“When it comes to audit and compliance, we could prove the new solution's value from day one. Access terminations are pretty much immediate now. But here at Ingredion, we always aim to go above and beyond the bare minimum that's required for compliance. We also saw productivity gains right away, because now new hires get access to resources from their first day on the job.”

KENNETH TOWNSEND  
CHIEF INFORMATION SECURITY OFFICER, INGREDION

“Executing a project of this size, across three continents and multiple time zones, during a global pandemic was a major achievement. The spirit of collaboration and sense of teamwork was invaluable in delivering the project in time. Saviynt did a wonderful job.”

DANIEL TUNES  
DIRECTOR, HEAD OF IDENTITY & ACCESS MANAGEMENT, DANFOSS

“We needed a product much easier to configure and manage than our previous solution. Saviynt's cloud-native IGA solution fit the bill and also saved our team significant time and costs during implementation.”

SITTICHAJ PONGPAISARNTRI  
MANAGER, IDENTITY AND ACCESS MANAGEMENT, LOTUS'S

## FEATURED TESTIMONIALS

“With the NQX solution, we are able to offer our managed private cloud customers more advanced solutions to protect their connections and more importantly data. We can securely embed customer data inside a quantum-safe tunnel, ensuring high bandwidth for protecting critical transmissions against cyber threats. Additionally, NQX operates at lower levels in the OSI model, including the data link layer (Layer 2) and the network layer (Layer 3), making it significantly harder for adversaries to capture data in transit.”

KIM GUNNELIUS  
HEAD OF FINLAND FROM, VERNE

“Customer data can be in different cloud providers like Google Cloud or AWS. And then there is the possibility that a customer is using a hybrid environment, or might only have on-site infrastructure in place. This means that our robots will have to connect to all different kinds of environments.”

SAMI SÄISÄ  
DIRECTOR, HEAD OF STRATEGIC DEVELOPMENT, MOST DIGITAL

“SSH.COM's technical deployment team found we had over 1.5 million SSH user keys distributed across our entire infrastructure, including over 150,000 user keys granting root access, with no records as to who was in possession of the corresponding private keys.”

PROJECT MANAGER  
WORLD'S LARGEST BANK

“The PAM market is becoming more competitive and size alone will no longer keep vendors at the top. This is especially true in a period when vendors like SSH.COM can go from Challenger to Leader in one year due to a strong focus on technology and innovation.”

PAUL FISHER  
KUPPINGERCOLE

## FEATURED TESTIMONIALS

*“I would recommend remote desktop manager for centralizing the database, and for granting security over who can use what server. I also appreciate rdm’s ability to save different credentials for each user. and our customer support team loves the ability to script vpn logons and workflows before and after connecting.”*

BRETT HOBBS  
INFRASTRUCTRE MANAGER/SYSTEMS ARCHITECT, BCS GROUP

*“Remote Desktop Manager has everything a support technician needs to manage remote desktop connections to a wide variety of different systems. It’s more efficient than managing spreadsheets or text files to keep track of remote connections!”*

RUSSEL SMITH  
ITPRO TODAY

*“RDM opens up a lot of options, and makes things much easier to manage. Everyone we have dealt with has been very knowledgeable, very helpful, and very friendly RDM is really good. It’s solid.”*

DEREK T.  
SERVER ENGINEER, LEADING ADVISORY, ASSURANCE, AND TAX FIRM

*“Thanks to Devolutions’ solutions, we have gained visibility and finesse, among other things, in regards to password and access management.”*

MATTHIEU GILLER  
ADMINISTRATOR, HES-SO//FRIBOURG

## FEATURED TESTIMONIALS

“With the introduction of Fudo PAM we were able to offer our service providers safer and more efficient connections to our servers. We are very pleased with Fudo’s Password Management solution as well as its reliability and efficiency.”

MARCUS GABRIEL  
IT SYSTEM ADMINISTRATOR, AIRPORT NÜRNBERG

“One of Fudo’s biggest advantages was its functions, especially the simplicity of configuring them each individually. The intelligent interface ensures a clear overview. Dealing and working with the team has become far easier.”

ROMAN BRUNKE  
ADMINISTRATION OF SERVERS, VIVANTES

“In the search for a suitable IT security solution, and after careful evaluation and testing of two other PAM providers we ultimately decided to choose Fudo PAM.”

OLIVER ERNST  
HEAD OF IT, SPITAL USTER

“We know the Fudo solution for many years. The presentation of its performance has made a solid impression on us.”

MARVIN SONTBERG  
IT TEAM LEADER, STADTWERKE LÜBBECKE

## FEATURED TESTIMONIALS

“Heimdal gives us peace of mind. With a small team, we can't afford to manage dozens of tools. Their platform handles email, endpoint, patching, and user access in one place—while keeping us aligned with our M365 rollout.”

TOBIAS KARLHAGER  
HEAD OF IT AND DIGITALIZATION, VAGGERYDS  
KOMMUN

“Heimdal keeps us safe at night, and I don't think about it when I go home. The automation is a huge help for us, and it takes a lot of the day-to-day pressure off a very small team.”

JAN-OVE PEDERSEN  
IT MANAGER, PORSANGER KOMMUNE

“Adopting Heimdal has transformed our service delivery and reassured our education clients that their environments are both secure and compliant.”

KEVIN WALKER  
OWNER, BLACK SWAN CYBER SECURITY SOLUTIONS

“Heimdal's responsiveness is exceptional. Feedback is addressed, you feel heard, and issues don't just disappear. Truly great support.”

ANDERS EDMAN  
IT SYSTEM ENGINEER, ELANDERS SWEDEN AB

## FEATURED TESTIMONIALS

*“Ekran System provides the widest set of tools in terms of monitoring, recording, identity management, access control, alerts on unusual activities, two-factor authentication and more. The platform is also unique in its ability to withstand the large loads and record activities at all checkout points in our branch offices.”*

NIR BEN ZION  
IT & CLOUD DIRECTOR, SUPER PHARM

*“Ekran System offers features that best align with our needs and challenges. It easily integrates with our existing systems and ensures uninterrupted operation. Ekran System's data archiving and data recovery are also beneficial. Additionally, it has Ukrainian localization, for which we are particularly appreciative.”*

CHIEF INFORMATION SECURITY OFFICER  
OTP BANK

*“The [Syteca] solution helped us gain full control over the activities of privileged users of third-party employees on selected servers and terminals.”*

CYBER SECURITY MANAGER  
EUROPEAN HEALTHCARE PROVIDING COMPANY

*“With Syteca's support team being available 24/7, deployment of and further work with the platform went smoothly and without any complications.”*

LARGE EUROPEAN BANK
