SPRING 2026
Customer Success Report

Supply Chain Visibility Software Category

Supply Chain Visibility software helps to provide real-time monitoring and control over the entire supply chain process, enabling organizations to gain insights and optimize their operations.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT DESCARTES MACROPOINT

DESCARTES™ MacroPoint

Descartes MacroPoint™ is a multimodal freight visibility platform for shippers, brokers and 3PLs to get real-time visibility and predictive analytics of their in-transit freight. Their industry leading visibility network is connected to over 100,000 carriers and millions of assets and drivers through integrations with on-board electronic logging devices (ELDs), GPS telematics devices, carrier transportation management systems (TMS), GPS-enabled smartphone applications and location-based mobile phone triangulation. Whether your shipments are on-time, behind or ahead of schedule, you will have the tools to track any load, at any...

“Descartes Aljex is enabling us to compete with billion dollar brokerages without having to rely on millions of dollars of investment or acquisitions. We don't need IT staff; we don't need an implementation manager. The user-friendly system gives us the cloud availability, ecosystem connectivity, and capacity sourcing we need to operate efficiently and...”

MILBURN MIRANDA
CHIEF OPERATING OFFICER, YELLOW DIAMOND
LOGISTICS

“Delivering a superior customer experience is what sets us apart in our industry. Extending real-time shipment visibility across the organization from our manufacturing facilities and distribution centers to our dedicated fleet and carrier partners is key to our exemplary service performance. With Descartes MacroPoint, we've been able to reduce load tracking time by 50%, provide faster response times to any shipment issues that may arise...”

JOE VERBRASKA
DIRECTOR, N.A. TRANSPORTATION, STEELCASE

“Descartes Aljex gives us all the tools we need to run the business in one place. We've been able to drive growth and increase margins with streamlined load building, rating, integrated load boards, and automated back-office operations. Descartes MacroPoint delivers the customer service edge we were missing, eliminating manual track-and-trace with realtime shipment visibility.”

ROBERT MEEHAN
PRESIDENT, DIRECT TRAFFIC SOLUTIONS

“Descartes MacroPoint elevates our performance to deliver a higher standard of service for customers and carriers alike. By replacing our incumbent visibility solution with Descartes, we gained greater buy-in from our carrier community and better system stability, which resulted in enhanced carrier compliance and more reliable freight visibility for all.”

FEATURED TESTIMONIALS

“With FourKites, we’re proactively providing a higher level of service. Whereas before, we would all have to rely on chasing from behind when there was a delay or a communications problem, now we know about issues in advance and can be proactive in our response. If we have a shipment that’s going to be held up by an accident, for instance, we know that before any delays actually occur, and we and our customers are set up for success.”

JOHN MAHLE
SENIOR SALES EXECUTIVE, TRIPLE T TRANSPORT

“FourKites empowers our cross functional teams with critical supply chain data at the order level, streamlining processes such as responding to customer inquiries, monitoring the status and lifecycle of orders, and quickly assessing the impact of exceptions to facilitate faster, more informed decision-making.”

WENDY RIPLEY
GLOBAL TRADE MANAGER, ORVIS

“FourKites allows us to scale effortlessly to support increasing shipment volumes without proportional headcount increases. This scalability, combined with our improved cost metrics and working capital management, positions First Solar with significant competitive advantages.”

JUSTIN CARDER
LEAD, FIRST SOLAR

“FourKites AI Agent Tracy positions us ahead of the curve as we prepare for a future where customers expect increased and differentiated service capabilities.”

“RFQGoComet has comprehensively transformed the way our commercial finalization in the export process. It has created a process resilience and streamlined our logistics operations. The RFQ module's negotiation system has made it possible to get the best rates and helped us reduce costs significantly. Moreover, as the system has been digitized and automated the entire freight procurement process, every piece of information is a click away and has paved the way for seamless audits. Compliments to GoComet Team on developing this module. Now we are working to implement this even at all our International Locations.”

HEAD GLOBAL SUPPLY CHAIN
LARGE PHARMACEUTICAL COMPANY

“GoComet's multi-modal logistics platform has helped us eliminate manual freight rate negotiations. These processes are now completely paperless. We have also achieved significant cost savings through their automated reverse auction system and created ample visibility in our operations. In addition, GoComet's platform is easy to use, and its accommodated custom QCS reporting has made our day-to-day work life a breeze.”

RISHABH KHANDELWAL
CHIEF EXECUTIVE OFFICER, SCOTTISH CHEMICALS

“With GoComet, we've had really great benefits, especially our customer feedback. When we share the status of their shipments in real-time, our customers feel that they've got a supplier they can rely on. Internally, our efficiencies between teams have improved.”

CARL HOLLINS
GENERAL MANAGER, POLYMERS INTERNATIONAL

“The GoComet solution is very user-friendly, easy to input shipment details, and visible to multiple operational areas in the company that are stakeholders in the supply chain.”
